

THE DAILY REVIEW.

VOL. XIV

WILMINGTON, N. C., TUESDAY, JULY 15, 1890.

NO 180.

Many foreign builders now mix sugar with mortar in order to protect the brick work from damage by frost.

There is a serious revolt against Quay's man Delamater in Pennsylvania. The Democrats are making it a red-hot campaign and they are working to win.

Coningsby Disraeli, the nephew and heir of the late Lord Beaconsfield, is rapidly becoming a fluent speaker. He resembles his famous uncle in appearance.

Five members of the Havenmeyer family have insured their lives for \$100,000 each. The policies were written by two agents and the joint commissions will amount to \$60,000.

A marine railway twenty five miles in length, connecting the Gulf of St. Lawrence with the Bay of Fundy across the Isthmus of Chignecto, will be completed by September next.

The report that Grover Cleveland has been employed to look after the law end of the lottery question has nothing more to back it than the fact that Mr. Cleveland is, and has been for some time, the private attorney of Mr. John A. Morris, in New York, in matters not affecting the lottery interests.

According to the Tribune the first steamer ever chartered to carry produce from New York to Australia was engaged Thursday. She is the Propane, and was chartered by Arkell & Douglass. She will be loaded in the latter part of this month. Hitherto produce has been shipped from that port to Australia in sailing vessels.

Three of the delegates to the 25th Congressional District in Pennsylvania have confessed that they were bribed to vote for McDowell, the Republican nominee. Of course Mac swears that he was fairly nominated and says that he will hold on. No one will dispute the proposition that he was fairly nominated according to Republican ideas and methods.

The Rev. Dr. Talmage receives \$15,000 a year from his Brooklyn congregation, \$13,000 from a firm for the advance publication of his sermons, and \$6,500 for his contribution to a religious journal, besides what he earns on the lecture platform and general literary work. He would lose money if he traded his income for that of the President of the United States.

There has been a small war cloud—a very small one—visible at Washington City in regard to the Fisheries question. Its proportions might have grown larger but that President Harrison incontinently backed from the very foolish and untenable position he had assumed at the dictation of interested parties. His grandfather's hat was evidently several sizes too big for him.

The New York Herald says that it is understood that the Spanish mission has been tendered to Gen. Mahone, of Virginia, but that the probabilities are that he will not accept it. The reason assigned for his expected declination is that he does not like President Harrison, and will not, for that reason, place himself under obligations to that gentleman.

Dr. Charles W. Dulles, a prominent physician of Philadelphia, holds to the opinion that there is hope for consumptives and that medical science will soon be able to control the disease. In a recent paper on the subject he pointed out that while in England half a century ago there were 55,000 deaths annually among 15,000,000 people, there are at present in a population of 40,000,000 but 14,000 deaths due to phthisis.

A report has gained credence to the effect that a Republican scheme to build a canal through the State of Florida, by means of a trade on the River and Harbor bill. It has been indignantly denied by a number of prominent Southern Senators. Of course there was not one word of truth in it. There is not a Democrat in the Senate—not one—who would lend himself to so villainous a scheme.

After diphtheria, scarlet fever, pneumonia, or any other severe illness, there is no better tonic than Hood's Sarsaparilla.

Gen. John C. Fremont, "the Pathfinder," died in New York on Sunday. He was the son of a refugee Frenchman and was born in Savannah in 1813.

A terrible disaster is reported from Lake City, Minn. An excursion steamer, with 150 persons on board, was capsized in Lake Pepin, in the midst of a terrible squall and nearly 100 lives were lost.

On June 28 the monument of Count Todleben, commander of the army in the Crimean war, was unveiled in Sebastopol with imposing ceremonies. Delegations from the principal regiments, as well as representatives from many governments of the Empire, were present.

The encampment opens one week from to-day.

Cantaloupes still come in plentifully but the prices do not get any lower.

Two coaches full—about 125 persons in all—took in the excursion to Mt. Airy this morning.

Fifty first-class hands wanted to make Pants, by the day or piece. Apply at 122 Market street.

Rubber Hose, Lawn Mowers and Rakes of the latest and most improved makes are sold by the N. Jacoby Hdw. Co.

The Ocean View people should seriously consider the propriety of extending their road down the beach to Masonboro Inlet.

Keep dry and you will keep healthy. Umbrellas, rubber coats, &c., at I. Shrier's, S. E. corner Front and Princess streets.

We regret to state that Mr. S. G. Hall is quite sick and confined to his house, corner of MacRae and Mulberry streets.

I am Manufacturer's Agent for Barbed and all kinds of Wire, Combination Wire and Iron Fences. Orders solicited. James I. Metts.

The sultry weather is driving people out of town to get a little seaside ozone. The rush over the Seacoast Railroad today has been a large one.

A board crossing has been placed at the Western intersection of Market and Tenth streets. It is something that has long been needed there.

With "Regal" Paint on your house and "Plastic" on your walls, your house will be beautiful and your family happy. Sold by the N. Jacoby Hdw. Co., factory agents.

The Grove carried down a large party to Carolina Beach this morning, the occasion being the excursion given by the Sunday School of Fifth Street M. E. Church.

There was a large gathering of colored excursionists last night at Ocean View. Four cars full went down over the Seacoast R. R. The Kinston band accompanied them. It was long after midnight when they returned.

New Push and Pull Blind Hinges. Locks the blind when opened or closed. Saves labor and cost of putting on inside fastenings, which are not needed with these hinges. Carpenters, it will pay you to examine and use same. N. Jacoby Hdw. Co.

Mr. Wade H. Harris, of the Charlotte News, was one of the party on the Sylvan Grove yesterday at the Blackfish Grounds. He didn't catch a whale but he thought he had one when he found a ten-pound drum trying to get away with his hook.

The General Managers of the Seacoast Railroad and the W. O. & E. C. R. R. have offered \$500 reward for the conviction of the scoundrel who placed the obstruction at the crossing of the two roads last Friday night. That's the way to talk it. These gentlemen mean business and we hope that somebody will earn the money.

Watermelons are as yet rather scarce. The flush of the season is not here yet.

Work was begun yesterday on the foundations for the new Presbyterian Mission Church on South Front street.

Capt. Holmes, conductor on the Seacoast Railroad, has resigned and will take a position with Messrs. B. F. Mitchell & Son.

Those who leave here for Northern and Western points during the summer, solely for recreation and pleasure, must be rather hard to please.

Capt. Nolan is now working up a schedule for the encampment season. A great many visitors from out of town are expected and the rush from the city will probably be very great.

Progress.
It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

Old Ocean's Roar.

They say that it is "delicious" and "delightful" at the Island Beach Hotel these fine nights. The sea breezes are laden with health and comfort and the booming of the surf, so near at hand, is an excellent lullaby. Mr. Brown sets out an excellent bill of fare and the service is excellent. The young folks promenade and dance every night to the inspiring strains of Prof. Miller's truly excellent band.

Royal Pleasure Club Excursion.

The second of the series of excursions given by the Royal Pleasure Club to Carolina Beach will take place on Friday next, and the gentlemen who are on the committee are working hard to make it an unusually pleasant and delightful occasion. There will be three boats on that day, one in the forenoon and two in the afternoon, and there will be music, dancing, seabathing and refreshments for all. Let everybody go to the Beach on that day and have a good time.

The Blackfishers Yesterday.

The Grove took down another large crowd to the Blackfish Grounds yesterday. The conditions were all favorable, just as stated by us, and the fishermen had capital luck. In all over 4,000 fish were caught during the day, which is the largest number yet taken on any one of these excursions.

Our up-country friends should take this thing in. They can have a fine day's sport any Monday on this excursion. Anybody can catch blackfish with shrimp bait and the greenest hand in the crowd can get the hang of the thing in a few minutes.

County Commissioners.

The Board of Commissioners met yesterday afternoon in adjourned session. Present, Chairman H. A. Bagg, Commissioners Roger Moore, E. L. Pearce, Jas. A. Montgomery.

The Wilmington, Onslow & East Carolina Railroad was assessed as follows: Value of main track and side track, 183 miles, \$52,400; one locomotive, \$2,000; 15 platform cars, \$2,625; three box cars, \$780; one hand car, \$40; four push cars, \$20. Total, \$57,865.

The Ocean View railroad was assessed as follows: One and six tenths miles main, and side tracks, valued at \$5,600; one locomotive, \$2,000; two cars, \$1,200; hand car, tools, etc., \$75. Total, \$8,875.

The Seacoast Railroad was assessed as follows: Main and side tracks, ten miles, valued at \$40,000; one locomotive, \$1,500; four passenger cars, \$1,500; one platform car, \$150; one hand car, tools, etc., \$500. Total, \$45,650.

By the returns made by the officials of the companies it is shown that one and five-tenths miles of the W. O. & E. C. railroad are within the limits of the city of Wilmington and one and one-half miles of the Seacoast railroad.

Ordered, that the tax assessment on part of block 274 and all of block 288 be reduced from \$25,000 to \$22,000.

In the matter of hearing tax complaints the Board took a recess to the second Monday in August next.

Forcasts.
For North Carolina, fair and warmer weather. Local-forecasts, from 8 a. m. to-day, for Wilmington and vicinity, fair and slightly warmer weather.

Bound Over.

Dennis Horn, colored, the alleged highwayman, was before the Mayor again this morning and was bound over in the sum of \$200 in two cases—one for highway robbery and the other for assault and battery with a deadly weapon—for his appearance at the next term of the Criminal Court, which meets next week. The evidence in the case is very conflicting but there was enough against him to justify the action of His Honor.

Grand Military Excursion.

At the regular company meeting of the Wilmington Light Infantry, held last night, it was decided to have a grand excursion to Carolina Beach this week, the object being to complete the amount necessary for the encampment fund. With this object in view Messrs. Chas. S. Grainger, J. D. Nutt, Jas. H. Bunting, John H. Lewis, Robert S. Collins, Armand D. Myers and P. Heinsberger, Jr., with Mr. Grainger as Chairman, were appointed to name the day and make the necessary arrangements. These gentlemen met this morning at Dr. Nutt's drug store and selected the Thursday of this week as the day for the excursion. An elaborate programme is to be prepared but this could not be got ready in time for this issue. However, it is known that there will be a prize drill, music for dancing, a stereopticon entertainment and a turtle egg's hunt, besides other attractions. There will be three trips during the day to and from the Beach, the last boat leaving on the return at 9 o'clock.
