When the war began, says the New York Commercial Advertiser, 12 and 13. there were 8.636 pensioners on the rolls, and the cost to the Govern ment was \$1,072,461.55. When it ended the number of pensioners and the amount paid had increased thirteen fold. From this the aggregate of disbursements ran up from over thirteen millions yearly to thirty millions in 1871 and remained at that figure for ten years thereafter. In 1880 it jumped to fifty-seven millions, and has been steadily in creasing since until it amounts to eighty nine millions now. The ratio of pension drawn by each pensioner might be thought to decrease as the number of pensioners became larger, but this was not the case. There are now, estimating roughly, sixty times as many persons drawing pensions as there were in 1861, but they receive almost ninety times as much money. On top of this Congress has passed the dependent pension bill, which will eventually land

the public treasury in Ballyhack.

The Raleigh News and Observer says that it cordially agrees with Col. Polk in much that he says but that some of his statements are inaccurate. Col. Polk said at Asheville, if reported correctly, that of the 417 members of Congress, only thirteen are farmers. On the con trary, says the News and Observer, a friend writes us from Washington that there are nearly a hundred who are engaged in farming, but also are engaged in other pursuits, while there are 26 others who are farmers exclusively, as reported to us. The idea involved is that only 13 men in Congress are interested in the welfare of the farmer; whereas as a matter of fact nearly every representative from the South is interested in the prosperity of that business and many from the West and North. Southern members have steadily favored legislation that would prove to the interest of the farming class, but the Western and Northern members have generally combined against these measures. Their excuses for doing so, we have nothing

to do with. Another statement which Col. Polk made is misleading. The Colonel has been too busy to investigate the financial affairs of the country for himself and he has accepted the figures of others and has adopted them as his own. He tells the people that the cause of the depression of agriculture is the small amount of currency in the country, and he fixes the amount at less than seven dollars a head. That would be \$450, 000,000 Now what does the Colonel mean by this statement? In the first place there are \$340,000,000 of greenbacks and \$160,000,000 of National Bank notes-these two to gether make \$500,000,000, which is more than the Colonel says.

Then besides that there are \$100, 000,000 of silver coins, that makes \$600,000,000. Then there are \$300, 000,000 of silver certificates and about \$150,000,000 of gold certificates making \$450,000,000, or a total of more than a billion dollars. Now, what does Colonel Polk do with all University of North Carolina Spring-Judge Merrimon. that some of it is locked up in the

The National Banks hold about \$125,000,000 of it, and the other banks, say, about \$50,000,000; and that is held for the use of the depositors. It in fact belongs to them and

is held for their use. Just counting the above items, it appears that there is twice as much money in circulation as the Colonel The work sparkles with the brightest wit. It could not be counted to the ottoman Empire, from its foundation to the present day.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregu-

larity of the bowels, are Distress some of the more common After symptoms. Dyspepsia does not get well of itself. It Eating requires careful, persistent attention, and a remedy like Hood's Sarsa-

parilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symp-toms removes the sympa- Headache thetic effects of the disease, banishes the headache, and refreshes the tired mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat

distressed me, or did me little good. In an hour burn after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a Sour room with fresh paint.
