**Cigars for the Seaside.**  
The time has come for the summer resort joke and summer resort go, so the following experience of a Washington druggist may be considered seasonable. He said he had been going to the seashore every summer, and had fallen into the habit of taking with him a box of the best cigars that his case in the store afforded, being a moderate smoker, with a taste for a good weed. But up to a certain time he found it difficult to obtain any enjoyment out of his costly tobacco, finding that as soon as he got near the air of the ocean the cigars began to droop and wilt, as the smoker's phrase goes, and their draught became difficult, and the process of pulling them became an altogether tedious operation.  
One day he was smoking one of them with a good deal of difficulty on a chair on the beach when a gentleman sitting near accosted him, saying that he had noticed the trouble he was having with his cigars, and that they were probably of an imported brand. To this the druggist assented, and the other, pulling a couple of cigars from his pocket, handed them to the rather astonished smoker with the remark that he thought they would go better. So the druggist lit one of them, and in a minute was enjoying one of the most delightful smokes he had had since he left home. The cigar drew finely and did not wilt as the others had done.

He asked his new friend why it was, and was told that it seemed imported cigars are so affected by the salt air as to lose their shape and their drawing qualities, while cheap cigars or "two-fers," as they are called, seem to be at their best in such an atmosphere, absorbing just enough of the salt air to take on a delicious flavor. Thenceforth the druggist saved money by smoking nothing but cheap cigars while he was at the seashore, and every time he saw a man trying to smoke a good cigar with the same luck which he had encountered he played the "good Samaritan" and offered him a bad one, together with the advice to smoke none other within reach of the air from the sea. He also found that when he returned to town the good cigars would regain their shape and quality and were as enjoyable as ever, while the others were as detestable as he had always found them to be.—Washington Star.

**No Gordon Sashes on the Exchange.**  
The masculine sash appears this summer to be a proper subject for discussion, as well as a popular adjunct to the toilet of gentlemen. The time has gone by when decorum demands that the waistcoat shall be worn with the thermometer marking the nineties. If one may judge from the samples displayed in the windows of the furnisher's shops, the sash which is worn at the seaside and in the tennis court is unlimited as to color. But sashes of a modest hue are creeping into use in the streets of Boston, especially since Speaker Reed and Mr. Lodge popularized them upon the floor of congress.  
But there is one place in Boston where the sash may not enter. One daring member of the Boston Stock Exchange ventured upon the floor with his waist enveloped in the silken adornment. He was at once and unceremoniously hustled out and warned never to appear again upon the floor of the exchange in such a guise. The congress of the United States may suffer its members to array themselves in such a manner, but the Boston Stock Exchange, never!—Boston Advertiser.

**The Siberian University.**  
The medical faculty of the new university of Tomsk (western Siberia) is being rapidly organized. Eight chairs have recently been filled up, Professor Albitzki having been appointed to that of general pathology, Professor Winogradov to that of pathological anatomy, Professor Soudakow to that of hygiene, Professors Kuzlow and Kortunow to those of special pathology and therapeutics and internal medicine, and Professor Rogowitsch and Dr. Salitschew to that of surgery. The chair of pharmacology, which was offered to Dr. Pawlow, is still vacant, owing to that gentleman having accepted a similar appointment at Warsaw. The erection of the various clinics is being proceeded with, and it is hoped they will be ready for the reception of patients about the beginning of next year.—Chicago Herald.

**A Live Headless Hen.**  
A little negro boy was exhibiting on the streets of Mayville, N. Y., a remarkable instance of tenacity of life in the shape of a chicken hen which had lost its head over four months ago but continues well and hearty. The creature walked about, scratching in the earth and appearing quite unconscious of its loss. It is fed by cramming the food down the severed gullet, and evidently thrives under this peculiar method of feeding, for it is in excellent condition.  
The boy who owns it says that it lays regularly and has actually made a nest and raised a brood of chickens since the loss of its head. It has, however, shed nearly all of its feathers, except those of the tail, and shows no signs of ever having any more.—Cor. Philadelphia Times.

**Summer Work in the Churches.**  
The churches manage to keep interested, though it is summer. While a Pittsfield Methodist church is disciplining a member who persists in publishing a Sunday paper, a Westfield fold is laboring with a brother who shouts amen at the wrong places and sings through his nose.—Springfield (Mass.) Homestead.

**A Bit of Advice from an Old Fisherman.**  
Get to a drug store as soon as you can, and buy two ounces of the best olive oil mixed with one ounce of lime water, and a drop or two of rose water just to scent it. Then rub it on your burned face, and it will take all the inflammation out in next to no time.—Exchange.

**Ballade of the Baby.**  
Cheeks that are dimpled and pink,  
Twin roses bloom on a spray;  
Red lips full of love to the brink;  
Soft glances that, pensive or gay,  
A world of sweet meanings convey;  
Wee fingers that flutter and cling,  
A snowdrift of crumpled array—  
This is the Baby, the King!

What though he tips over my ink,  
And drives my five wits all astray?  
Shall I grumble indeed, do you think,  
Because, in his innocent way,  
He wakes me long hours before day  
And wants me to wail and to sing?  
Why not, if it pleases him, pray?  
This is the Baby, the King!

Our fortunes they rise and they sink,  
We let the world wag as it may;  
Our lives narrow down to the chink  
That encircles his Majesty, Nay;  
Our lives, and our fortunes we lay  
At his feet, with his rattle and ring,  
Content to adore him and say,  
"This is the Baby, the King!"

**ENVOY.**  
Prince, you may boast of your sway,  
'Tis but an ephemeral thing!  
The Empire of Hearts is for aye,  
This is the Baby, the King.  
—Harper's Young People.

**The New Discovery.**  
You have heard your friends and neighbors talking about it. You may yourself be one of the many who know from personal experience just how good a thing it is. If you have ever tried it, you are one of its staunch friends, because the wonderful thing about it is, that when once given a trial, Dr. King's New Discovery ever after holds a place in the house. If you have never used it and should be afflicted with a cough, cold or any Throat, Lung or Chest trouble, secure a bottle at once and give it a fair trial. It is guaranteed every time, or money refunded. Trial Bottles Free at Robt. R. Bellamy's drug store.

**August Antics.**  
"Aw, you make me tired," as the wagon wheel said to the blacksmith.  
"She is very plain, isn't she?"  
"Yes," said the Boston woman; "she is the most obvious person in the room."  
Needless Alarm. Sentry—Stop! Who goes there? Country woman (with a large basket)—You needn't be afraid. I shan't hurt you.  
A pork-packing plant has been established at San Francisco on grounds leased for ninety-nine years. A year more it would have been a century plant.  
First Trump—I suppose you struck a tender chord when you told your pitiful story to the lady? Second Trump—Not a bit of it. It was the toughest wood I ever tried to saw.

**What Does It Mean?**  
"100 Doses One Dollar" means simply that Hood's Sarsaparilla is the most economical medicine to buy, because it gives more for the money than any other preparation. Each bottle contains 100 doses and will average to last a month, while other preparations taken according to directions, are gone in a week. Therefore, be sure to get Hood's Sarsaparilla, the best blood purifier.  
Where ignorance is bliss 'twere folly to spend \$2,000 a year to send a boy to Harvard.  
Consumption Surely Cured.

I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and post office address. Respectfully, T. A. NEWSY, BRIGHT AND CLEAN.  
UP WITH THE TIMES.  
THE "STATE CHRONICLE" WILL BE what its name implies—a State Paper. It is not the laziest "Chronicle," and will not be local or sectional. It will aim to keep up with the news from Murray to Manatee, or as the politicians put it, from Cherokee to Currituck.  
It will be the organ of no man, no democratic section, no party. It will be democratic in politics, but will not hesitate to criticize and denounce measures and Democratic officers.

I AM BETTER PREPARED

**GAS vs. WATER!**  
We have just added, at very heavy expense, a four-horse power Otto Gas Engine to run our five presses. It's a dandy, and makes our presses hum. Come and see it; no trouble to show to anyone who will call at our office. We try always to keep abreast of the times—and our establishment is the largest in the city, and will be kept so, if hard work, promptness, satisfaction and hard cash can keep it so.  
Respectfully,  
JACKSON & BELL,  
Leading Printers, Rubbers and Binders.
