A new disease has appeared in the governments of Villa and of Royna and spreads so rapidly that there are five or more persons suffering with it in every village of the entire region. The symptoms are similar to those of the cholera, vomiting, headache, and the obstruction of the nasal canal. The persons inflicted with this disease suffer for three days. The physicians are not

able to define it.

Though the estimated cost of the new building of the Congressional Library will be about \$6,000,000, its capacity will be 4,000,000 volumes, and will be the best library building in the world. At present the library of Congress has 633,000 volumes, and is sixth in size among the libraries of the world. The National Library druggists. of France has 2,250,000 volumes, the British Museum 1,500,000 and the imperial libraries of Germany, Russia and Australia have about 1,000,000

"The rise in silver to \$1 11 per ounce," says the Baltimore Sun, "is cheering to the friends of our new silver law, and they predict that it will go up to \$1 29 per ounce, or to the old ratio of gold. When silver gets to \$1 29 per ounce the standard dollar will be worth intrinsically a gold dollar. But that it will ever get to that point the best authorities deny. In May, 1889, it was sell ing at 92 cents per ounce. A rise of 19 cents since that time ought to satisfy the speculators. It is gencaused by our legislation. We are a generous people. We are enriching our Western silver kings by artificially enhancing the value of their product and at the same time putting up the selling value of the silver held by Germany and India. What we hold of silver is a trifle to what is held in other countries. Our generosity lies in our buying from \$54,000,000 to \$70,000,000 worth of silver a year to hold for other people's benefit."

The Washington Critic makes some very serious charges against Gen. Thos. J. Morgan, Commissioner of Indian Affairs. The Commissioner a running sore for over three years. We gave as is well known, began his career as a public official by securing the and devoted to the intellectual, moral and spiritual interests of the people.

It numbers among its correspondents many of the very best writers of the Southern Presbyterian Church. It is thoroughly orthodox on questions of doctrine, but free and outspoken in its views on all open questions. It allows and invites free discussion within the bounds of courtesy.

In popularity the Preserterian is containly advancing. It is absence for his confidential secretary "in order that he might accompany him on his thirty days' trip." and presents in its columns matter to interest and instruct all ages, classes and conditions of the people.

Price per annum, \$2.85; or for one year to any new subscriber, \$2 IS. Address

JOHN McLAURIN.

Description on his thirty days' trip."

Secretary Noble denied the application, and the Commissioner had to pay his wife's expenses. The further charge is now made that Commissioner Morgan employs at merely nominal wages, as servants in his residence, two Indian girls from the Government school at Carlisle, Pa. There is a system in vogue at the school under which the scholars are allowed to be sent out to service during the vacation months, Commissioner Morgan approves this system, and says it is a part of the industrial education of the school. Capt. Pratt, the army officer in charge of the Indian school, says that the "outing" system is a good one, and that the demand for pupils is far in excess of the ability of the school to supply them. In a conversation with a Critic reporter, Commissioner Morgan admitted that he did not pay these servant girls as high a rate of wages as is generally paid, but he would not say what compensation he made them. He apologized for the employment of them by saying that the girls are in his service receiving instruction, to which his wife gives constant atten-

tion. This can hardly be the case,

as she is employed at her husband's

office in the Interior Department. Supreme and Superior Courts of Nor As Congressional investigations and JOSH. T. JAMES. Editor & Prop'r. inquiries are so exceedingly popular at present, it may be that one will be o dered to find out what authority Commissioner Morgan has for paying his domestic bills at the expense H. G. Connor, of Uncle Sam.

WHAT IS

## SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, canerally argued that the rise has been | cerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

# How Can

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla.

"My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child."
