# **BIRD MANNA!**

The great secret of the canary bird breeders of the Hartz Mountains in Germany. Bird Manna will restore the song of cage birds, will prevent their ailments and restore them to good condition. If given to a bird during the season of shedding feathers, it will in most cases carry the little musicion through this critical period without loss of song. AN ADDRESS OF A DESCRIPTION OF

an aggressive campaign, truthfully says that if the President of the United States was strong among h's people and throughout the country, his own State would, not be in any special doubt at this time. It con tinues: "There is every reason to believe, however, that Mr. Harrison has not throughout his administration strengthened himself in any

way in his own State. The Dudley exposure wasa most damaging thing for the President-elect, and when he came into power he made it all the worse by passing the matter over in silence. If the charges made are false, this fact should have been long since made clear to the country. If true, the Administration has made itself, in the stinging language of the Indiana Democratic platform,

accessory after the fact." A correspondent of the Chicago Times, in making a plea for less onerous taxes on the masses, quotes from a speech made in 1872 by Senator Sherman as follows: "A few years of further experience will conthat a system of national taxes which rests the whole burden of taxation on consumption and not one cent on property or income is intrinsically unjust:" The correspondent continues: "The pension question ought to emphasize this truth. The American soldier, with his sympathy for the poor, when he begins to comprehend that the pensions are paid almost exclusively by the poor, and not by the rich, will not be slow to swell the chorus of indignation which Senator Sherman predicts will ultimately condemn our outrageously unjust and (to the poor)oppressive national system of indirect taxation-a system, America. The fairness of its editorial com-ments on current politics has earned for it the respect and confidence of all impartial read-

can laborers to the fallacies of proection."

On Glade Monntain, WestVirginia, resides the "coincident Franklins," a family which is, in one respect at a family which is, in one respect at a family which is, in one respect at least, the most peculiar of any in the whole country. The Franklins

are a family of coincidences. The

### WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

#### How Can It Be

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar 27. medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave vince the whole body of our people her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J.

N. B. Be sure to get only Hood's. Sarsaparilla Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.
