FOR CONSTABLES:

The New York Herald sounds a note of warning. It says that the Democrats must work to better effect than they are now doing if they bottles 50c. and \$1.00. expect to win the next election. It calls upon them for a supreme effort

"It is true that the people are gettired of Republican corruption and are looking for something better. The iron and wool men of New England have soured on the policy of their own party, and the change in public opinion is so great that at the last Massachusetts election the Democrats came within an acre of getting their candidates through. The farmers of the great North est are in an equally disgruntled condition. Republican legislation has kidneys or bowels. either disdained to take any notice of them or has added to their taxes and their living expenses. They find it necessary to mortgage their farms even in these days of unexampled national prosperity. Instead of getting a new harness, horse and wagon, a piano for their girls been cured by Dr. Mozley's Lemon and a new gown for the wife they are wondering how to make both ends meet.

"It is an epoch of discontent and inquiry which extends to all parts of the country-discontent because things don't work as the Republicans profulsed they should; inquiry give them a better opportunity.

"This is therefore a crucial moment in the history of politics and should be made ase of. The Republicans are doing their level best to blind the eyes of the working classes and to excuse the blunders of the Fifty first Congress. Their orators are playing the game of bluff admirably, and scattering falsehoods with such earnestness that the plain, simple truth is kept in the back ground.

"Their pension expenditures are a grotesque caricature of patriotism; the surplus of which we were so proud three years ago has vanished into thin air; taxation is steadily on the increase, and while it may be a matter of indiffence to the well to do and wealthy it eats into the income of the wage earner so seriously that he must give up some of the comforts of life.

"For all these things the Republican party is solely responsible, and for many of them is corruptly re-

"But the Democrats must be up and doing. Not even the right can prevail without an effort. To sit idly by and expect the victory to fall into their arms is sheer nonsense. The Paper for the People, They must either use the magnifihand or they will lose at the elections and the boly of the American people will remain in the grip of syndicates, trusts and monopolies."

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health:
