## Scribner's Magazine

For 1890.

The publishers of SCRIBNER'S MAGAZINE are to make it the most popular and enterprising of periodicals, while at the same time preserving its high literary character. 25,000 new readers have been drawn to it during the past six months by the increased excellence of its contents (notably the Railway articles), and it closes its second year with a new impetus and with some new effects, and nothing to make SCRIBNER'S MAGAZINE attractive and interesting will be neglected.

THE RAILWAY ARTICLES will be continued by several very striking papers; one especially interesting by Ex-Postmaster General Thomas L. James on "The Railway Postal Service." MR. ROBERT LOUIS STEVENSON'S serial novel "The Master of Ballantrae," will run through the greater part of the year.

A CORRESPONDENCE and collection of manuscript memoirs relating to J. F. Millet and a famous group of modern French painters will furnish the substance of several articles.

The brief end papers written last year by Robert Louis Stevenson, will be replaced by equally interesting contributions by different authors upon ELECTRICITY in its most recent applications, by eminent authorities; a remarkable paper on DEEP MINING, and other interesting papers.

Among the most interesting in the list of scientific papers for the year will be a remarkable article by Prof. John Thronbridge, upon the most recent developments and uses of PHOTOGRAPHY. Illustrated.

A SPECIAL OFFER to cover last year numbers, which include all the Railway Articles, as follows: A year's subscription (1889) and the numbers for 1888, at \$4.50; and the numbers for 1888, bound in cloth, at \$6.00.

\$3 a year; 25 cents a number.
