

THE DAILY REVIEW

VOL. XIV. WILMINGTON, N. C., TUESDAY, NOVEMBER 25, 1890. NO 294.

William III, King of Holland, is dead. Queen Emma will be proclaimed Regent.

Senator Cullom's opinion on the tariff has been modified by the result of the election. In a milk and water way he says that it is a good law but must be modified. If it is "good" why "modify" at all. When you "modify" a good thing you only make it tolerably good.

The outlook on the border continues ominous. There has been no fighting yet but the Indians assert that the dancing will continue, soldiers or no soldiers. It is said that plans have been discovered whereby Gen. Brooks' command was to have been led into ambush and massacred. Army officers appear ready for the worst.

There is talk now of sending Gov. Hill to the Senate. Things look too uncertain for '02 and a small bird in the hand is worth two in the bush. Hill is a splendid man but Cleveland is a "splendid" man. With Grover out of the way we would call for David but Dave must take a back seat until '96 when the Democrats of the whole country will take care of him.

Congress reassembles next week and it is likely that there will be lively times. The Republicans are pledged to two things, the Force bill and the reapportionment bill. The former passed the House and stopped in the Senate at the last session. It was reported back from the committee, with amendments, and got no farther. As to the apportionment bill the Democrats will fight that until something is done about a recount in New York and other cities where gross miscounts by Porter's men have been proved.

The vexing question of this vexing age is—how did Noah and his family survive that long damp spell without Dr. Bull's Cough Syrup?

Not Yet Arrived.

There is no news as yet from the Circassia, the steamship in which Dr. and Mrs. Watson sailed from Glasgow. She was due in New York yesterday but was probably detained by head winds from the West. She will in all probability arrive at New York to-night or to-morrow.

As soon as the Bishop returns to Wilmington a thanksgiving service will be held in St. John's Church, and it is probable that at its close a reception will be held in the Rectory where the Bishop's friends—and those of Mrs. Watson—can welcome them both back to the city.

Board of Aldermen.

A called meeting of the Board of Aldermen was held last night to consider the sewerage problem. There were present at the meeting His Honor, the Mayor, Aldermen Pearsall, Montgomery, Post and Hicks.

The Mayor stated the object of the meeting, and Col. Hall, Chief of Police, was called upon to state the substance of a proposition made by him to the Sanitary Committee. Before doing so he stated that there was a misapprehension as to his powers as Chief of Police to grant permission to lay sewer pipe in the city. The ordinance as it now stands makes it legal for any one to lay sewer pipe anywhere in the city, and no one has the power to prevent him, the only condition being that the Chief of Police supervise the work. The permit given by the Chief is only for the purpose of keeping the police from interrupting and stopping them and no more. As to the suggestion made by him, it is as follows: As the probability of completing a general system of sewerage is remote, it seems hard to deny the citizens the privilege of putting down sewer pipe for their own convenience at their own expense, which can be done with propriety and system by the city employing a first class sanitary engineer—no mere pretender—who shall make a perfect survey of the city and give a topographical map, with a grade of the city and a thorough plan of prospective sewerage adapted to every street and alley in the city, and then pass an ordinance prohibiting any one from putting down any sewer pipe except in compliance with said plan; so, if the city should conclude to adopt sewerage (which will cost a large outlay of money) the engineer's map and plan are already paid for and at hand. If the city does not so act, then in a few years we will have the city sewer-piped by private enterprise, and at no expense to the city.

After brief discussion the ordinance in relation to sewerage submitted at the last meeting was again introduced by Alderman Pearsall, and was adopted unanimously, as follows:

Be it ordained by the Board of Aldermen of the City of Wilmington, and it is hereby ordained by authority of the same:

Section 1. That it shall not be lawful to lay down any pipe or drain in any street or alley of the city for the purpose of any kind of sewerage, without the consent of the Board of Aldermen first had and obtained for that purpose, and then only in conformity with such sanitary requirements as the County Board of Health, through the Sanitary Board of Health, shall prescribe in writing, and under the direction of the City Engineer as to the character and execution of the work, whose compensation for the same shall be fixed by the Board of Aldermen and paid by the party for whom the work is done.

Sec. 2. That so much of subdivision 3, entitled "Sewers" of Article IV of the General Ordinance of the City, as is inconsistent with the provisions of Section 1 of this Ordinance, is hereby repealed.

Sec. 3. That any one offending against the provisions of this Ordinance shall forfeit and pay fifty dollars for each day of violation.

Sec. 4. That this ordinance shall be in force from and after its passage.

The Mayor called attention to the election held in the First Ward for an Alderman to fill the vacancy caused by the resignation of Alderman Morton.

Alderman Post nominated Mr. A. L. Scott for the position, but at Alderman Pearsall's suggestion the election was postponed until the next regular meeting of the Board.

The Mayor announced that it was in order to elect a Mayor pro tem., and Alderman Hicks nominating Alderman Post, the latter was elected unanimously.

A Monster Steam Saw Mill.

The W., O. & E. C. R. R. Co. are building a large steam saw mill at Jacksonville. The work was begun some little time ago and is now going on bravely. When completed it will be one of the largest and most complete plants of the kind in the Southern country, the capacity of the mill being 100,000 feet of lumber per day. Nearly all of this output, it is expected, will be landed in Wilmington. The only trouble apprehended will be getting enough timber to keep the saws going.

Forecast.

For North Carolina, fair until Thursday morning and slightly warmer.

Dr. Primrose's Resignation Accepted.

At the church meeting of the congregation of St. Andrew's Church, on Sunday, the resignation of Rev. Dr. Primrose, to take effect with the closing of the year, was unanimously accepted, but with regret. Resolutions suitable to the occasion, introduced by Maj. T. D. Love, were read and adopted. Dr. Primrose will probably take leave of his congregation on the last Sunday in December, which will be two days after Christmas.

A Thanksgiving Feast.

Some of the young men connected with the W., O. & E. C. R. R. are making preparations for a big spread and a good time at the head of the road on Thanksgiving. They sent down yesterday a large lot of confections, fruit, pickles, &c., and have bargained for a plentiful supply of New River oysters for the occasion. It is only among themselves and "railroad" will be the chief topic of discussion on the occasion. All they want now is a continuation of this fine weather to make them as happy as clams at high tide.

How Is This For a Wharf?

The W., O. & E. C. R. R. Co. own a large and valuable water-front property at the Southern extremity of the city, just beyond Kidder's Mill. The river there is wide, commodious and deep. It is the intention of the company, we understand, to begin at an early day the erection there of a wharf with something over 500 feet front, thus affording ample facilities for the transaction of the large amount of business they expect to bring down over their road. In course of time this will become the depot for a large amount of traffic extending all of the way from this city to Newbern. A wharf 500 feet long will be a big thing. It will be equivalent to a structure extending from Market Dock up to Mr. Springer's coal and wood yard, between Princess and Chestnut streets.
