OUR CIRCULATION.

man to keep the following paragraph stan ding for the benefit of all whom it may concern: ADVERTISING .- We would commend the following

facts to the attention of the advertising community. -for The "Wilmington Journal" circulates upwards of 12 Spelling, Reading, Writing, Arithmetic, HUNDRED COPIES weekly. Its circulation in the town of Wilmington is as large as that of any other paper pub lished in the place. We would further state that its circulation in the counties which trade to this place is THREE TIMES as large as that of any other paper published in North Carolina, and that its list is daily increasing. We say, therefore, without the fear of contradiction. that it is the best vehicle for advertising which the peo ple of il mington can select. One other observation We think, that although a large majority of the readers of the "Journal" are Democrats, still THEY occasionally do a little trading, as well as the readers of the whig paners. We have written the above merely for the information of those who are most deeply interested-business men of all professions and all political creeds-WHO WANT CUSTOMERS.
