Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that ANY OTHER CITY HAS MORE. A common error exists in the minds of many students rela-

tive to the place of studying medicine; those who intend practising among the diseases of the West and South should certainly educate themselves at a School whose Faculty are practically acquainted with those diseases.

That the public may be satisfied of the permanency of this thool, we feel it our duty to state, that the Trustees and Faculty form a UNIT in action, which augurs well for its future success; and that the peculiar internal organization which connects them, cannot be interrupted. E. W. M. KING,
