As a party, the whigs are too often the dupes of demagogues : a large por-

Contrast this democratic character with the course of the New York whig party. Our Book Table.

We find on our table the Democratic Review for November, and hardly know what to make of it. It would appear to have the table of contents and the initial article of the October number, while the remainder of the number is that for the month for which the date on the cover bespeaks our attention. We have not been able to read over any of the articles except by their titles, which give token of interesting matter.

We have been trying to glance over a pamphlet, containing an address delivered before the American Institute in New York, in October last, by SAMUEL indicative of very considerable talent and powers of upon the same basis of concession, respect and affection. language, but antiquated and almost antedeluvian in its statements. The prevalent ideas inculcated seem to be protection to the manufacturer, and the many a day before the South can again be rallied every patriot in every part of the land. under the standard of protection to Free Soil or Abolition labor, for the purpose of enriching the most in its true light as an attempt at class legislation, whereby it is sought to tax the many for the benefit of the few. Of this fact, no better proof could be adduced than the result of the late election in Pennsylvania, where uncompromising anti-tariff Democrats were returned from iron districts in the place of clamorous tariffite Whigs.

But amid much that we regard as false or shallow reasoning, and mero partizan trumpery, there are constituents, and upon the whole country. some passages so beautiful that we could wish they were only true, but alas, such is not the fact. Speaking of the military reputation of this country, Mr. ARNOLD SAVS :

This reputation gives more security to our countrymen a broad than arms or passports can confer. Who that has borne the colors of our Union across an Eastern desert, has not felt the glow of honest pride as some old Arab Sheik points to the starry ensign and tells his swarthy followers, "That is the banner of a mighty nation-I've seen it on the mast of hattle-shins." There is at this moment as much security from the wild sons of Ishmael, for him who sleeps with the flag of this Republic above his tent, as for him who bears a Pasha's firman

Unfortunately, however, such is not the fact. True American abroad has often just reason to complain of the remissness of his government in asserting its to have been forgotten. We allude to the case of ed in prison in Havana, without any sanction either renewed agitation.
