You will be surprised on seeing my letter dated from this city, since, perhaps, you supposed I was already in Madrid. It would have been so had it not happened that I found, on my arrival at New York, that the famous steamship Great Eastern was expected, a circumstance which created in me a hope of making my trip to Liverpool in that colossus. In the meantime, in order to make the most of my time, I visited Saratoga. where I learned the news of the battle of Bull Run, and since the Great Eastern does not sail from Quebec till the 6th of August, I felt a curiosity to see what was going on, now that these people appear to be fighting in earnest; and at one bound I planted myself in the capital of the old Union.

Her Catholic Majesty's Minister, Sr. Tassara received me very well, and did everything in his power to post me as fully as possible in regard to the military and political state of this country, from which information I believe I have formed a sufficiently accurate idea of the actual situation, although hereabouts they are as silent
