RALEIGH SENTINEL---MESSRS.

We are pleased to learn that Messrs. Spelman have once more become members of the editorial staff of the Raltoo well known in North Carolina as ef- of the Court. ficient workers in the "Press Gang"

We call the attention of our readers to the very interesting letter of General Clingman to the editors of the Asheville Expositor, to be found on our second page this morning. The proof of the existence of a people in North Carolina superior to the Indian race in arts and intelligence, if not prior in point of time is indisputable. Who they were, where they came from, and how and when they disappeared, vill doubtless ever be unsolved questions; but for all that, any thing relating to these ancient Carolinians as we may call them, for want of a better name, will be interesting.

NORTH CAROLINA RAILROAD-

MODOCS. THE COUNTRY IN A FERMENT.

THE ROADS UNSAFE. LAVA BEDS, SUNDAY, April 20th .-

A pack train, with 21 men, was attacked to-day. The escort coming from Mason's camp to protect the train was attacked at the head of Long Cave. The men sheltered themselves behind the rocks. One person was killed and one wounded. The train was fired into upon entering the lava beds and again when it returned. The Modocs crept within eight hundred rods and fired at the pickets and sent a volley through the camp. Major Thomas sent a snell among them when they dispersed. There were eleven Indians in the attacking party. The Warm Spring Indians will start to hunt the Modocs, but they are scattered in small parties.
