Mode of Drawing:

There will be upon the stage two glass wheels, the contents of which can be seen by all the spectators. A committee of two citizens, in no way connected with the management, and of undoubted integrity, having first counted and examined, will place in the larger wheel 12,600 Tickets. exactly alike, and having printed numbers from one to 12,600, corresponding to all the tickets sold. A similar committee, having first counted and examined, will place in tubes precisely alike the prizes, which are placed in the smaller wheel. Both wheels will then be turned until their contents are thoroughly mixed. A boy under fifteen years, blindfolded, will then draw from the larger wheel one of the 12,600 tickets, and holding it up in full view of the spectators and anditors, its number will be called by the crier appointed for this purpose, so that all present may hear. The number will then be passed to the committee of citizetas, who will say whether the number has been rightly called. It will then be passed to a register, who will file it, and record it upon a book prepared for that purpose. A boy of similar age will then draw from the smaller wheel one of the tubes containing a prize, which will be opened and help up to the view of the spectators and auditors. The value of the Real Estate prize will then be cried, and passed to the committee, who, after inspection, will give it to another register to the and record. The prize thus drawn will belong to the ticket bearing the number drawn immediately before it. Thus this process will continue drawing first from the large wheel containing the tickets, and then from the small or prize wheel, until all the tubes containing the prizes are drawn. An accurate record of the above will be kept on file, certified to by the committee of

disinterested citizens officiating. The prizes below Three Hundred Dollars in value are Approximations, and will be determined and paid as follows : The numbers of all the tickets gold being considered in a circle, numericely formed, and having the highest number, 12,600, and the lowest, 1, brought tepether, then whatever number in this circle may be by lot, determined to be entitled to the Capital Prize of \$25,000 will be taken as a centre, on each side of which the next Three Hundred numbers in numerical order will be counted for the ten dollar prizes, thus making on the two sides of the Capital the Six Hundred nearest numbers, each of which will be entitled to a Real Estate Prize of Ten Doilars All the tickets drawing larger prizes will be excluded, and the circle extended to include Six Hundred on both sides of the Capital, being Three Hundred on each side, it being the purpose of the management not to puplicote prizes.

Money .-- All money received from sales of Tickets will be deposited in bank im nediately on receipt of remittances.

Transfer of Titles .- Within ten days after the drawing, parties putting Real Estate on the market under this Scheme, are required to make good, valid and unencumbered titles thereto to the GEORGIA REAL ESTATE AND IMMIGRATION COM PANY-said Company obligating themselves to transfer such Title in fee-simple to the party or parties who may draw such prizes of Real Estate.
