At this period there are but few unacquainted with the merits of the PAIN KILLER; but, while some extel it as a lin ment, they know but little of its power in easing pain when taken !nternally; while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all, that it is equally successful, whether used internally or externally. It is sufficient evidence of its virtues as a standard medicine to know that it s now used in all parts of the world, and that its sale is constantly increasing. No curative agent has had such a wide spread sale or given such universal satisfaction. DAVIS' PAIN-KILLER is a purely vegetable

compound, prepared from the best and purest materials, and with a care that insures the most perfect uniformity in the medicine; and while it is a most effective remedy for pain, is a perfectly safe medicine, even in the mos unskilful hands It is eminently a FAMILY MEDICINE : and be being kept ready for immediate resort,
