I was in this condition when I commenced taking Dr. Lawrence's Rosadalis. The swelling n both knee and neck began to subside before I took all of the first bottle. Dear Dr. Lawrence:—My daughter having been cured of a deeply seated disease of the lungs by your "Rosadalis," I feel it my duty to make the fact known to you for the benefit of others. She suffered nearly two years with a hard cough, which troubled her day and night; at last the emaciated form, glassy eye, night sweats, together with the cough, told too plainly that it was Consumption, beyond question, eating at her vitals. Our Physicians brought no relief. She was advised to try your Rosadalis, as a tonic-which she did-imagine my surprise and gratification when I found her appetite returning. Slowly she regained her strength, her cough and night-sweats gradually ceased, and she is now, after taking five bottles of your medi-

cine, apparently as well as ever. Yours Respectfully, MRS. E. ANN SMITH. Major John W. Dunham, one of the editors of the Wilson North Carolinian, says in the issue of the 20th of April, 1867: "I believe, from personal experience, that the Rosadulis is the finest tonic ever prepared."

During the last Spring she was worse than ever, her body and limbs being covered with sores and blotches whilst in this condition, I was advised by Dr. L. A. Smith to try your ROSADALIS. Iat once procured three bottles, and commenced giving it to her. The effect was magical. In less than a month, to my great astonishment, the was entirely well. I am, sir,

Dr. Lawrence, Wilson, N. C.,

My Deer Sir - For the last ten years (until recently), I suffered with an inveterate eruption of the kin called by physicians "Salt Rheum," with which I suffered terribly; the pain and itching was almost intelerable. I tried several of the best physicisms in Europe and this country—have visited several celebrated springs—spent thousands of dollars—and folled to get better. In December, 1856, being in Charleston, S. C., I was told by a gentleman at the hotel, that he had been cured of a bad tetter by a medicine called "Rosadatia." I resolved to try it, without any hope, though, of its doing me any good. I procured a bottle of Messrs. King & Cassidy, and commenced taking it. Finding, to my surprise, that I was improving, I bought four other bottles; but before commencing on the last two, I found I was completely well-
