I have carefully examined its Formula, and have used it in my practice in a number of cases. I am well pleased with it. I think it, beyond doubt, the best Alterative I ever used. 1 have tried it in several cases of Scrofula, and Scrofulous affections, &c., with much satisfac-tion tamyself and patients. I have also used it in Secondary and Tertiary Syphilis [one terrible case of eight years standing], in which it acted with surprising and satisfactory effect -making a quick and thorough cure. I have, therefore, no hesitation in recommending it to Physicians and others, as the most reliable Alterative now known.

The swelling of the knee was NEWSPAPER enormous, and was attended with the most excruciating pains. 1 was so reduced that I was confined to my room over three months. My leg was so completely drawn up that I could not bend it at all. I tried various remedies, and they failed to give me any relief. 1 was in this condition when I commenced taking Dr. Lawrence's Rosadalis. The swelling in both knee and neck began to subside before I took all of the first bettle. pecial Dispatch to the Baltimore Sun.] Democrats and the Presidency-Cau-cus of Republican Congressmea-Gen. Sherman-Chief Justice Chase and the Davis Trial.

WASHINCTON, Nov. 19.

The alleged nomination of General Stadman and others by meetings of democrats sojourning here, in connection with the Presidency and Vice-Presidency, turns out to be merely imaginary. There are, probably, less than a dozen prominent democratic politicians in the city, all told, and it does not appear that they have held any meetings or private cancuses nor have hely been together, even by accident, in greater numbers than two or three at a time. So far as can be learned definitely, not one of those now here favors the nomination of Gon. Steadman.

It is probable that the President will not send any nominations of officers to the Senate prior to the December Session of Congress.

The republican members of Congress propose to have a caucus on Thursday night next, to determine what, if any, measures of importance shall be taken up during the November session, and whether impeachment shall be further progressed in or dropped after hearing the report of the judiciary committee on the subject.

Twenty-three Senators and seventyfour Representatives have arrived and taken rooms for the season.

A lefter received at General. Grant's he dquatters, from General Stern an, states ti at the latter will not be here until about tl e first of December. What service hesla'l e assigned to after that date will be determined after Gen. Sherman : r.ives in the city.

An Inexplicable In An Inexplicable Hystory, during Within the walls of the Bastile, during the reign of Louis the XIV., was enacted the inexplicable mystery, which has con-tinued a mystery to this day, of the man in the Iron Mask. When first heard of he was confined in the Marguerite Islands, in the Meditterranean, whence he was removed by De S int Ma ; who are his prive governor, and answerable, it 'is believe', for his safety with his own hile, to the Bastile, where he died on November 19, 1703, and was buried on the 10th, in the cemetery of St. Paul, under the name, Machiati. No man, except the governments fir as is known, ever saw his face or heard his voice, two persons, to whom he had conveyed written words, in one case mark-ed upon a linen shirt, in the other engrav-ed on a silver plate, died, without apparent cause, immediately afterwards. Du-ring his conveyance from the Marguerite Isles, De Saint Mars dined at the same tar-ble and slept in the same chamber with him, with pistols ever at hand redy to destroy him in case of an attempt on his part to reveal himself. In the Bastile he was waited upon, at the table and toilet by the governot, who took charge of and destroyed all the linen he once used. He was never seen but with a mask of black velvet fastened behind his head with steel springs; and when he went to hear mass, the invalides, who were in charge of him, with muskets and lighted matches, were instructed to fire on him instantly in case of his speaking or showing his face. A hundred conjectures have been risked as to who this mysterious person was who was treated with such respect, yet with such jealousrigor, whose life was held sacred against taking off, yet made one scene of incessant mystery. The absence of any person of sufficient note from the stage of history to account for such presentions alone baffles all inquiry. The general idea seems to be that he was an elder brother of Louis the XIV., the fruit of an adulterous intrigue between Annie of Austria and the Duke of Buckingham, or some other lover, who, being born in wedlock, could not have been dispossessed of his claim to the throne had his existence been

the fill the second of the General Joseph B. Kershaw. We were privileged, during the session of the court, last week, to meet and grasp the brave sons of Carolina in the fight. In many respects General Kershaw stands forth as one of nature's noblemen. With a sentiment and sympathy as tender and humane as that of woman-and yet, with a spirit brave and fearless, with high manly instincts and principles, and with a talent of which any man might well feel proud, he justly ranks among the first men of the State.-Sumter Watchman.

I hereby certify that during the Summer and Fall of 1865, I was severely afflicted with *Carbuncles*, baving as many as 14 *large Car-buncles* and 12 ordinary Boils. results. Truly I can say of all the medicines I have over used before, none have been so happily ceneficial in effects as the Rosadalis, and would most cheerfully recommend it to the public and to all suffering humanity.

Three Hundred Thousand Dollars' Worth of Diamonds.

It is stated that in a certain window on Broadway, New York, in an unobtrusive case of ordinary size and pattern, three hundred thousand dollars' worth of diamonds are lying exposed to public view. The Profits of Cotton-Raising.

It is estimated that the present price of cotton did not yield to the planter what six cents per pound did before the war and, according to a well-known Louisiana cultivator, the staple cannot be produced for less than eight cents per pound in gold, leaving the purchaser with less than two cents on each pound produced. The tax added makes the production of cotton most disastrous to the farmer. - Jackson (Miss.) Clarion, Nov. 13.
