I have carefully examined its Formula, and have used it in my practice in a number of cases. I am well pleased with it. I think it, beyond doubt, the best Alterative I ever used. I have tried it in several cases of Scrofula, and Scrofulous affections, &c., with much satisfac-tion to myself and patients. I have also used it in Secondary and Tertiary Syphilis [one terrible case of eight years standing], in which it acted with surprising and satisfactory effect -making a quick and thorough cure. I have, therefore, no hesitation in recommending it to Physicians and others, as the most reliable Alterative now known. Alterative now k

SALT RHEUM CURED !-REMARKABLE CURE !! MONTREAL, CANADA, April 4th, 1867. Dr. Lawrence, Wilson, N. C., My Dear Sir .-For the last ten years (until recently), I suffered with an inveterate erup-tion of the skin-called by physicians "Salt Rheum," with which I suffered terribly; the pain and itching was almost intolerable. I tried several of the best physicians in En-rope and this country-have visited several celebrated springs-spent thousands of dol-lars-and failed to get better. In December, 1866, being in Charleston, S. C., I was told by a gentleman at the hotel, that he had been cured of a bad tetter by a medicine called "Rosadalis." I resolved to try it, without any hope, though, of its doing me any good. I procured a bottle of Messrs. King & Cas-sidy, and commenced taking it. Finding, to my surprise, that I was improving, I bought four other bottles; but before commencing on the last two, I found I was completely well-the disease having entirely disappeared. Enclosed find "One Hundred Dollars." which please accept as a token of my gratitude.--Why do you not make your invaluable Rosa-dalfs widely known ? Your Sincere Friend, W T SELETED

Baltimore, Md., March 4th, 1867. Dear Dr. Lawrence .- My daughter having been cured of a deeply seated disease of the lungs by your "Rosadalis," I feel it my duty to make the fact known to you for the benefit of others. She suffered nearly two years with a hard cough, which troubled her day and night; at last the emaciated form, glassy eve, night sweats, together with the cough, told too plainly that it was Consumption, be-yond question, eating at her vitals. Our Phytold too plainly that it was Consumption, be-yond question, eating at her vitals. Our Phy-sicians brought no relief. She was advised to try your Rosadalis, as a tonic-which she did-imagine my surprise and gratification when I found her appetite returning. Slowly she regained her strength, her cough and night-sweats gradually ceased, and she is now, after taking five bottles of your medi-cine, apparently as well as ever. Yours Respectfully, MRS. E. ANN SMITH.

Major John W. Dunham, one of the editors of the Wilson North Carolinian, says in the issue of the 20th of April, 1867: "Ibelieve, from personal experience, that the Rosadalis is the finest tonic ever prepared."

Wilson, N. C., Sept. 15, 1867. Dr. Lawrence-Sir:-In 1862, my son, now aged five years, was vaccinated with what proved to be impure matter, which completely destroyed his health. constitution, except such as are specially named. In the clause before us the only offences, so designated, are treason and bribery.

For the nature of these offences, the courts have a right to refer to the common law for their definition. But it is otherwise as to the general terms, high crimes and misdemeanors. These not being specified and there being no common-law jurisdiction in the courts of the Union, they cannot take cognizance of them, without statutory authority. If this was not so, the doctrine of the judiciary would be palpably wrong. But if it be wrong, if there may, under this clause, be a crime and misdemeanor not made so by statute, this is certain, that there must be some law making it so.

No act, therefore, which the President may do is cause of impeachment, unless it be "treason or bribery," or declared criminal by statute, or the common law. Any other construction would place it in the power of the House of Representatives to make any act of the President, though not from high authority in the Democratis

to place the President in absolute dependence upon Congress, contrary to the obvious design of the constitution.

The result is that the President can only be impeached for "treason or bribery," or for some act made by statute a high crime and misdemeanor. Any alleged violation Front street. It is said that their liabiliof a supposed duty not made a crime by statute—any alleged violation of party fealty—any use of his official patronage, which politicians may find fault with, or which may have proved injurious to the the dry goods trade public interest-are not causes of impeachment.
