the charter of the Davidson Copper Mining Company. The bill passed its second and third readings, and was ordered to be engrossed and transmitted to the Senate.

Under the head of "unfinished business," Mr. Sinclair's resolutions came up, in regard to raising a committee to investigate the charges against Mr. Jones, recently elected Judge.

The Chair decided that the name of the gentleman, whom the resolution charges with misconduct, should appear.

Mr. Sinclair was then allowed to insert the name, when at the suggestion of Mr Seymour, it was made the special order tor Thursday morning next.

#### Building up the Party.

The Radical party in this State know full well that they occupy no place in the affections of the people. Even the deluded negroes look on them with distrust and their continuance in power is problematical in the extreme. They will therefore seek, by every means, however deepicable, to retain control of the public plunder to the latest possible moment. The secession Governor recently elected states very plainly, in his inaugural, that the policy under his new government is to be intensely proscriptive. And not only are all the offices to be filled by "fire-tried Unionists," (is Mr. Holden one ?), but what is called "loyal militia" is to be organized and armed, probably with Mr. Paine's 14,-

000 rifles and seven batteries of artillery. The object of this organization is plain even to the most ignorant negroes. It is simply to inaugurate a reign of terror in C. the hope that it may induce the intelligent white men of North Carolina to yield.

motion, published yesterday and which was pending when the Senate adjourned on Saturday, but both the original motion and the substitute were lost.

A message was received from the House transmitting sundry papers, to wit :

A bill providing for the qualification of officers elected under the Reconstruction acts. Read first time.

Also the report of the Joint Committee on rules for the government of intercourse between the two Houses, which was adopt-

in Caswell county, was taken up and adopted.

The bill repealing that part of an act, which requires the Public Treasurer to give a duplicate bond, came up, and on motion of Mr. Brogden, the rules were suspended and the bill passed its several readings.

The resolution of Mr. Robbins, declaring that the fundamental condition in the Omnibus Bill, which seeks to restrict the right of the State hereafter to regulate suffrage, to be without legal force or effect in this State, came up.

Mr. Robbins supported the resolution in a most powerful, eloquent and impressive speech.

32 to 8.

In the House, Mr. Morrill, of Brunswick, appeared, was qualified, and took his seat.

Cooper Hutchins, of Duplin, in reference to the payment of taxes, which was referred to the Committee on Claims, when such committee is appointed.

Mr. Hodgins offered a resolution that the Commission, who were appointed by ders. the late Convention to codify the laws, be invited to address the House, in Committee of the Whole, upon the subject.

Mr. Abbott offered a joint resolution auhorizing the Governor to appoint a Commission of three to examine into the Literary Fund, including the University,said committee to have power to send for persons and papers. Mr. Durham said he did not see the necessity of such a measure. After some debate between Messrs. Abbott and Durham, Mr. A. consented to modify his resolution, by authorizing the Speaker of the House to appoint a committee of three to make an examination. The resolution was then adopted. Mr. Sinclair presented a bill entitled ' an act to change the method of electing the Judges of the several Superior Courts." It provides for the election of the Superior Court Judges by the electors of each Judicial district, instead of holding a general election.

There is no necessity for an armed militia in this State except as a means of fostering the growth of Radical tyrauny .-Brownlow's success in Tennessee emboldens the second Governor of this State to

the intention of browbeating and insult-Mr. Robbins offered a substitute for his ing those who will not bow down to the brazen Holden idol; to control the elections; and to keep up by a military despotism the already waning fortunes of the infamous party that now disgraces nearly every office, from Coroner to Governor, in the State of North Carolina.

#### Organize.

Let the Conservatives and Democrats of North Carolina now go to work vigorous-On motion of A. H. Galloway (negro) ly and energetically to carry the State for his resolution, relative to election frauds the Demoratic nominiees of the New York Convention. This is no difficult task if BY approached in the proper spirit. We must, of course, secure a few thousand negro votes to make success certain, but we can do that and not half try. Certainly we ought to exercise as much influerre over the negroes as a few hundred adveaturers exert over the native whites. If Abbott, Tourgee & Co., can control twentyty-five thousand white votes in North Carolina, it is disgraceful to us if we cannot control a like number of negroes.

Let us organize therefore for the campaign, and let us go to work in a practical way. We must not drive off the negroes, as was done in the last canvass, by telling them we don't want their votes .-The resolution was defeated by a vote of However it may have been then, it would be dishonest to say that we don't want their votes now. We do want them, and we must have then if we expect to carry Mr. Estes presented a memorial from this State next November.

> The negro is now a voter, and we must influence him to vote with us. Otherwise, he will be controlied, to our infinite damage, by the same vile partisans who have recently ridden into power on his shoul-

ATLANTA, July 8. In the State Senate to-day, a memorial was read concerning certain members holding seats contrary to spirit of Omnibus bill passed by Congress. A long debate sprung up, the Re-publicans urging that law of Congress forbid persons holding scats whose disabilities had not been removed.

A resolution was presented which made an onslaught on eligibility of Radical members. This brought out Bradley, negro, who said he was astonished that question as to eligibility should be made on the plea of color. He was ready to purge Senate of traitors and fel-ons, but reminded that body that the first blow for freedom was struck by a negro, and closed by saying that unless his race had part and parcel in the militia, in less than ten years there would be another revolution that would exceed in magnitude and be more successful than the last one. The Senate then adjourned. In the House, committee to wait on the Executive reported that he would communicate with the two Houses as soon as he had a conference with Gen. Meade.

The impression prevails that a great effort is about to be made to oust a number of Demcratic members from both branches of the Legislature.

What road should travelers in France avoid ? The road to Rouen.

"Women who make shirts and linen coats for twelve cents apiece never strike." That's sew !

" Nashville law requires tops to be cut off all vegetables offered in market." This is a good thing for the doctors.

A Northern paper, in copying our 'Nutshell'! item, "Raleigh is to be consused," makes it "Raleigh is to be consured."

From Raleigh.

RALEIGH. July 8. The proceedings of the General Assembly on Monday, Tuesday and to-day were of no general interest.

Enrolling and Engrossing Clerks have been elected. The latter, O'Hara, (negro), is con-sidered better, qualified than the Enrolling elerk.

Mr. Bowman, of the House, introduced a bill providing for public schools, and requir-ing separate schools for whites and blacks. Re-ferred to Education Committee.

Caucusing and electioneering for United States Senators are constantly kept up. It is rumored that the friends of Gen. Ab-bott, of New Hampshire, and John Pool, of Pasquotank, have formed a strong combina-tion to secure the election. This plan, if suc-cessful, would deprive the West of a Senator, and would also defeat General Dockerey.— Next Tuesday will determine the matter, if not sooner determined in caucus. It is understood that Gov. Holden and his new board of supervisors of the State Lunatic Asylum, one of whom is a Canadian negro preacher, have removed Dr. E. C. Fisher, the able Superintendent of the Asylum, who has been in that position since its establishment, Caucusing and electioneering for United
