The following is the ticket, as now made up, to be presented to the Radical voters in the coming municipal election :

FOR WAYOR. JOSEPH H. NEFF. FOR ALDERMEN. First Ward. WILLIAM KELLOGG (col.) HENRY KUHL. Second Ward. ED. R. BRINK, JAMES WILSON.

Third Ward. GEO. W. PRICE, Sr., (col.) SILAS N. MARTIN. Fourth Wards GEO. Z. FRENCH, JAS. H. CHADBOURN.

We hear that the Radicals concede the right of every man to vote who has reached the age of twenty-one years, and who has resided in the city the requisite length of time. We call on the white men of Wilmington to do their duty. With the right of all to vote, the whites certainly have a majority in the Third and Fourth Wards, and probably a majority in the Second.

THE FIRST GUN.

We learn that the colored voters of Nash county are making extensive preparations for a mammoth Democratic barbecue, to be given at the store of Col. W. D. Harrison, on the 13th of August. Among other distinguished speakers, the inimitable Vance is expected to be present.

This is the best movement we have yet noticed towards the defeat of Radicalism in November. Nor will it be confined to Nash county if the Democrats and Conservatives do not ignore the plainest teachings of common sense. The tide has set in and all the manifestos of the "Heroes of America" will fail to stem it. North Carolina will cast her electoral vote against Grant and Colfax, and the colored voters will contribute largely to the result.

Our friends in Nash must look out, however, for the "loyal militia." One of their duties will be to break up colored Democratic meetings.

GRAMMAR AND THE CLASSICS. The disciple of Lindley Murray who edits that comic paper, the Union Republion, at Charlotte, still continues to cater to the literary taste of his readers. He now says our "twinklings is getting somewhat monotonous and needs brightening up." and spells "hide" with a y. Of course it is useless to attempt penetrating such a "hyde" as his. We therefore leave him in the hands of the proprietors of the "Old North State Washing Machine," renewing our promise to recommend their invention in the highest terms if it prove equal to the task of cleaning such an object as the belles-lettres scholar who calls us a 'midnight assassinator." Appreciative reader, if you are not a subscriber to Punch, Judy or The Tomahawk, lose no time in ordering a copy of the Union Republican. One issue is worth the subscription price.

GOV. VANCE.

We learn from the Danville, Va., Times that Gov. Vance will deliver the address on Immigration and Labor at the second annual fair of the Border Agricultural Society, in October next. This, of itself, will bring together one of the largest assemblages ever seen in Danville. Gov. Vance, for versatility of talent, has no qual in the State, and we doubt not his ardress will be, like everything else emanating from his brilliant mind, the theme of universal praise.

INCENDIARIASM IN SALISBURY. We have already published several accounts recently of incendiary fires in Salisbury: and we give to-day the particulars of three several attempts to fire the town, in one night. Rape, murder and arson how run riot through the land, but, Gen. Grant says, " Let us have peace," and peace we have, with a vengeance. Radicalism is a jewel that we all know how to appeciate. How painful the thought of losing such a B. OF VALLE

THE FARMER IN COLUMBUS. A letter received by one of our merchants, from Mr. T. S. Memory, of Whiteville, brings the gratifying intelligence that the Carolina Farmer will be well sustained by the farmers of Columbus county. Mr. Memory is well known as one of the most intelligent practical agriculturists of our State, and we hope to publish in the Farmer many articles from his pen.

THE PARTY OF THE PARTY

number of burglaries committed in our midst seems to us to lend additional force to our reenforcement of a vagrant act.

The large number of negroes in our midst out of employment manage to subsist by some means, either by stealing from their more fortunate companions, as well as from the whites, or by living around at the kitchens of our citizens. While thus roving about from house to house, opportunities which, from appearances, they fully improve, are afforded them for noting the fastenings of the houses, and thus it is that so little difficulty is experienced in forcing an entrance.

However, in a good many of the robberies we have lately recorded, we are led to the conclusion that house servants have something to do with the rascality. This of itself should be a warning to housekeepers to be very careful in the employment of servants. Too frequently is it the case that, when a vacancy occurs, the first one coming along is put in the place, without regard to previous character, if so be it he or she possesses some qualification.

Our citizens should be very careful to have their houses, stores, &c., properly closed for the night, and nothing but a personal supervision will answer here. We presume a large number of houses in our city could be most easily entered, with a very slight knowledge of the habits of the inmates to guide the thief.

We would advise our people to be careful, to be watchful, and when they discover a burglar to be quick and sure.

SPECIAL MAGISTRATE'S COURT. Authory Dickerson, of sable hue, preferred a charge of assault and battery against Sandy Stuart and Alex. Stuart, which His Worship decided to be malicious, and accordingly dismissed the defendants, requiring the prosecutor to pay the costs.

Another charge of a similar character was also preferred against Charles Baker and Alcenia Dosher. It seems the two negroes, Baker and Dickerson, got into a difficulty about the woman Dosher, which ended in a free fight. They were all bound over in the sum of \$25

inson, a barefooted, dirty and ragged specimen of a Radical voter, was brought up, charged with taking up quarters in a sleeping-carat the depot of the Wilmington, Charlotte and Rutherford railroad. He stated that he had been an employee of the Wilmington, Charlotte & Rutherford railroad, and being on his way to Goldsboro', had been pointed to this car as one attached to the next train going out. His finances not being in a plethoric condition,

Personal.-We are pleased to learn that Mr. James Horner, the Principal of the Oxford High School, for boys, is in the city on a visit in the interests of his school. Mr. Horner has conducted for a number of years a classical and mathematical school of the highest order, with great credit to himself, an benefft to his schollas. We most cheerfully recommend him and his school to the attention of parents.

- Those who are partial to the fine arts, should not omit a visit to Vanorsdell's Photographic Gallery. We have recently examined specimens of his photographic work which equal any of the vaunted pictures taken at the North. We do not mean to say that he simply copies with fidelity/faces of the originals, but that he is a real artist with very superior taste, which is specially manifest in his arrangement of lights and shades in the photos he produces. Those who may be disposed to ignore home effort and genius, will be checked in their folly if they pay Vanorsdell a visit. Let us learn, as to art, industry and enterprise, in small and great things, to foster local endeavors.

- The comparatively high figures of our thermometer does not arise from the unusual warmth of our office, but from the variations of the various instruments used .-We have now, however, one of Fahrenheit's, and by a comparison of that with our other can arrive at about a correct estimate.

— The barber shop of the Messrs. Doyle continues to be a model of neatness, and the razors are skillfully handled .-Ned, the boot black, is a darkey of polishing habits, and is equally ready to shine your boots or assist you in a bath.

- The nomination of Mr. Seymour, of-New York, for the Presidency, was well received here yesterday. We do not know that we heard a single expression of non-concurrence with the choice.

- Our esteemed friend and cotemporary, Jordan Stone, Esq., of the Roanoke News, has accepted the agency for the Carolina Farmer at Weldon. The farmers of his section are requested to leave their orders with him.

Lost.—The item headed "Fayetteville Mail," which appeared in our Fayetteville column yesterday, was intended for our "City" column, but got into the wrong place in making up the form.

- Thermometer yesterday at 9 o'clock, A. M., was 83 degrees-at 12 M., 84 degrees-at 3 P. M., 84 degrees-and at 6 P. M.,

- Who is the owner of the old flat which drifts past our office once or twice a day, filled with water? Couldn't it be put to better use.

The dwelling house of Col. James Green was entered Wednesday night, but the burglar was frightened off before baving time to commit any depredations.

We learn that the munici-

A meeting to satisfy the acion of the National Democratic Convention RASCALITY INCREASING.—The should be held in this city at an early day. It will be seen by our midnigh telegrams that Gen. Francis P. Blair has been nominated as marks a short time ago relative to the strict | the candidate for Vice President on the ticket. If no earlier day or night be fixed on, we presume the nominations will be ratified on the occasion of the return of the delegates to the Convention from this section. They can then give an account of their stewardship and broadcast the enthusiasm with which they were evidently innoculated yesterday in New York / FOTSIVEN

> - A moonlight excursion Smithville will come off at an early day if a suitable steamer can be chartered. The purpose is to leave here at 5 o'clock in the afternoon and return home as early as midnight. We predict that, if the affair is well managed, large numbers of ladies and gentlemen will go down the river.
