THE PAIN KILLER.

☞ The foreign and domestic demand for Perry Davis & Son's great medicine—the Pain Killer—was never before so large as it has been of late; and we think the time has arrived when the declaration may be made, without the possibility of refutation, that the city of Providence, in the State of Rhode Island, of the United States of America, has furnished the entire habitable globe with a medicine, which, in point of universality of demand, extent of usefulness, complete efficiency for all the purposes for which it is designed and wide-spread, endring popularity, has never been equalled by any medicine in Europe or America.

The universality of the demand for the Pain Killer, is a novel, interesting, and surprising feature in the history of this medicine Its "fame has gone out," into every quarter of the habitable globe. The Pain Killer is now regularly sold in large and *steadily increasing* quantities, not only to general agents in every State and Territory of the Union, and every Province of British America, but to Buenos Ayres, Brazil, Uraguay, Peru, Chili and other South American States, to the Sandwich Islands, to Cuba and other West India Islands; to England and Continental Europe; to Mozambique, Madagascar, Zanzibar and other African lands; to Australia and Calcutta, Rangoon and other places in India. It has also been sent to China, and we doubt if there is any foreign port or any inland city in Africa or Asia, which is frequented by American and European missionaries, travellers or traders, into which the Pain Killer has not been introduced and been sought after.

The extent of its usefulness is another great feature of this remarkable medicine. It is not only the best thing ever KNOWN, as everybody will confess, for bruises, cuts, burns, &c., but for dysentery or cholera, or any sort of bowel complaint it is a remedy unsurpassed for efficiency and rapidity of action. In the great cities of British India, and in the West India Islands and other hot climates it has become *the standard medicine* for all such complaints, as well as for dyspepsia, liver complaints and other kindred disorders. For coughs and colds, canker, asthma and rheumatic difficulties, it has been proved by the most abundant and convincing trials and testimony, to be an invaluable mdicine. The proprie ors are in possession of letters from persons of the highest character and responsibility, testifying in unequivocal terms, to the cures effected and the satisfactory results produced, in an almost endless variety of cases, by the use of this great medicine.—*Prov. Advertiser.*
