UNION AND PEACE. A OITO F

FOR PRESIDENT, HORATIO SEYMOUR OF NEW YORK. FOR VICE-PRESIDENT, FRANK P. BLAIR, OF MISSOURI 20 .831.16 k

The War Party. Under the influence of Grant's exclamation, "Let us have peace," the Disunionists are preparing for pillage and bloodshed. In the recent debate, in the Alabama Senate, on the Governor's veto of the bill depriving the people of the right to vote for Presidential electors, a scalawag named Coon said :

"The object of the men who were sustaining the government in this matter was to get up a war. If the war, must come, let it come. He was ready for it, and 90,-000 freedmen of Alabama would give the opposition a belly tull of war tefore it Joe Brown, of the once great State of was over with. He would stand by the Republican party in Alabama, in the war, and victory would perch on its banners."

Gypsum. This mineral, which, under the name of plaster, forms so large a part of the exports

The Richmond Enquirer, directing the attention of the public to these deposits as one of the unfailing sources of wealth, if properly worked, says : The main bed is situated in what is called the Cove, on Cove creek, a branch of the North fork of Holston river, about 25 miles north of Wytheville, and 14 miles east of Saltville, the present terminus of the branch of the Virginia and Tennessee Railroad. The route rom thence to the Cove is up the Valley of the Holston, a most favorable line for railroad-the grades would be about fif teen feet to the mile-descending with the

> export tonnage. The quality of this plaster is superior to any now known on this Continent. Such as have had a fair opportunity of testing it with the Nova Scotia, fix their relative value at fifty to one hundred per cent. in tavor of the Virginia-that is to say, one ton of the Virginia is equal to one and a half to two of the Nova Scotia. In quantity it is enormous-it underlies hundreds of acres in a compact body.

A well, or shaft, ten feet in diameter, has been sunk at one point. Within four feet from the surface, plaster was reached, and continued (with the exception of a few diminutive seams of clay,) for the depth of five hundred and eighty-two feet, and operations suspended without reaching the bottom of the vein or deposit, so continuous was the plaster-no water came in-the plaster continuing of a uniform superior quality throughout.

Got Something at Last.

Old Joe Brown-secession Joe Brown-Fort Pulaski Joe Brown-Andersonville

Georgia, has received the reward of his perfidy at last. Through the influence of Bullock, the carpet-bagger, he has received the appointment of Chief Justice. Now he ought to follow in the wake of our Chief Justice, and write a letter in favor of Grant and Colfax. It would astonish(?) the people of Georgia just as we were astonished (?) to learn that Jug (that's one way of spelling Judge) Pearson was a Disunionist and, consequently, a Grant man. It is fashionable now for Chief Justices to write Grant letters. And it is tashionable, too, for these officials to be Disuniouists. They are all dreadfully alarmed lest the Ku Klux Klans, under Seymour and Blair, will commence another war. This is a clever stratagem on the part of the scalawags, and Old Joe Brown should adopt it at once. And, by all means, let him incorporate in his letter a faithful history of his old exploits as a secessionisthow he seized Fort Pulaski, and how he originated the "Andersonville pens" where our dear carpet-baggers say the Federal soldiers were starved to death, and all

The following card, published in the Montgomery papers, shows what was said by "that same old Coon " in a private convertation :

"SENATE CHAMBER, Aug. 11, '68. "Having been denied the privilege of repeating in the Senate Mr. Coon's remarks in the Governor's office on the morning of the 11th of August, I hereby publish said remarks to the best of my recollection.

He said to the Governor that" he would not leave here until some measure was adopted for the protection of those whom he calls loyal men; that if any Union man's blood was spilled in Dallas county he would lay the houses of Dallas county and the city of Selma in ashes.

W. B. JONES."

It may be well for the reader to know that Mr. Jones is not a Democrat. He a full-blooded Republican, though not o the Coon family.

This fellow Coon is alrepresentative man of the Disunion party. He is for war; but if it come, he will forget to "stand by the Republican party." After arousing the bad passions of his deluded negro followers he will be suddenly seized with a Northern fever, and will start, carpet-bag in hand, by the early train.

The Disunionists, seeing certain defeat staring them in the face, are bent on insugarating a war of races in the South before they leave for their Northern homes. It remains to be seen whether they will succeed in their hellish purposes. We warn them again to beware! Their intended victims are not asleep; and every Disunion rascal who incites the negroes to riot and bloodshed will be intercepted in to evade his obligation in this matter, or his flight when he least expects it. Many who, suspecting that a planter is attempof them are already known. And they ting to evade them, does not take all prowill be closely watched. They know full well that the Southern whites only wish to be "let alone." We are honestly opposed to any disturbance, as our submission to carpet-bag rule thus far clearly proves. But if the vagabonds who are now attempting to inaugurate a bloody wer in the South think they will escape the consequences they are sadly in error. at If there is any one thing about which our people are fixed in their determination it is to hold the white Disunion leaders responsible for every drop of blood shed through the agency of their evil counsel to the negroes." The latter will be peaceable if their white Radical masters will let them alone. Our people have no enmity towards those Northern men who are exerting themselves to ward off the impending danger; but for those who are goading the acgrocs to acts of bloodshed and all departments of trade. riot we have a feeling that is but feebly expressed by the word hate.

as a matter of fun, too.

Georgia feels proud of her Chief Justice! She ought to feel proud of him ! Isn't Joe Brown the hero of Pulaski?

A circular has been issued by General Buchanan, informing the planters of his military district, who have received supplies from the Freedmen's Bureau, that they must fulfil the letter of their bonds and ship their entire crops to the factors in New Orleans, designated in a previous order. Any agent of the Bureau, he says, assisting or attempting to assist a planter per measures in his power to prevent the same, will be dismissed.

Judge R. M. Blatchford, of the United States District Court for the Southern District of New York, recently decided that a minor who had enlisted in the army ted by the President, and an appointment was bound by his oath that he was over of a new Commissioner would be made, eighteen, and could not be discharged thus affording them a pretext for another from the service on the application of his parents. The laws of the United States permit minors over eighteen to be enlisted, and have provided that the oath of the recruit as to his age shall be conclusive.

These outrages on the peace and quiet of the city have become such a nuisance that, on failure of the authorities to take the matter in hand, the papers call on the citizens to hold a meeting to devise measures for stopping such a barbarous practice.

THE FALL TRADE WILL BE GOOD,-

That is the general opinion expressed by

our leading journals in the commercial

centres. In fact, the fall trade has aiready

note symptoms of awakening lite. A succession of short crops had depressed all

classes of industry, but that is now over;

the present harvest " will prove the most

abundant in the history of the country."

The cheapening of food removes the great-

est impediment to the reduction of wages,

and a reduction in the price of flour brings

down the prices of other articles of food.

An abundant harvest favors an increased

demand, which, as the Financial Chroni-
