Asiatic Cholera in China. most every cree cured with

PAIN KILLER.

From Rev. R. Telford, Missionary in China. now visiting his home in Penn.] WASHINGTON, Penn. DEAR SIRS :- During a residence of some ten yours as a missionary in Siam and China, I

found your Vegetable Pain Killer a most valuable remeay for that fearful scourge, the In administering the medicine I found it most effectual to give a teaspoonful of Pain

Killer in a gill of hot water sweetened with sugar; then, after about fifteen minutes begin to give about a teaspoonful of the same mixture every few minutes until relief was ob" tained. Apply hot applications to the extremities. Bathe the stomach with the Pain Killer, clear, and rub the limbs briskly. Of those who had the Cholera, and took the medielne faithfully in the way stated above, eight out of ten recovered.

Truly yours, R. TELFORD. If attacked with the Diarrhosa, Dysentery, Cramp, Cholic, don't delay the use of the PAIN KILLER.

FUNGCHOW, CHINA. DEAR SIRS :- During a long residence in China I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found if a most excellent medicine. In the summer of 1862 and '63, while residing in Shanghai, I found it an almost certain oure for Cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For come to us in great numbers for medicine and advice. Though without medical knowledge ourselves, the few simple remidies we can command are so much in advance even of their physicians, that we have almost daiapplications. We allow them to come, be-

three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese

ces. The Board of Directors of the North Carolina Life Assurance, Annuity and Trust Company, considering well the many disadvantages surrounding our people, and consulting the interests of every class of their fellow citizens, more especially the benefit of those of limited income, have adopted the plan, slightly modified, known with us as the Masonic plan of Life Assurance. In the State of sonic plan of Life Assurance. In the State of Georgia, where the first association of the kind was organized by the time-honored and be-nevolent fraternity of Masons, it has been eminently successful; so much so, that the Grand Lodge of this State authorized a similar company to be formed. In the city of New York, a company has recently been chartered, whose plan of Assurance is based upon the same principles; and when the principle governing these and similar societies is more generally

known, their success is certain, beyond any possible contingency. APPLICATIONS. The details of this plan may be explained in a few words: Every person applying to be-come a Member, fills up the blank application furnished by the Company, in which is stated his age, residence, general health, &c. An ac-quaintance, and the family physician of the applicant are required to auswer a few questions, in order to enable the Executive Committee to judge whether the life proposed, is properly assurable. No unnecessary questions are asked, nor any unintelligible examination required. The application properly filled up is sent to the Secretary of the Company and with it an EXTRANCE FEE gradue. pany, and with it, an ENTRANCE FEE, gradua-ted for different ages, according to the follow-

ENGRANCE FEES. 10, and under 15 years of age, pay \$5 00

The object of this Entrance Fee, is to form fund, from which the current expenses of a fund, from which the current expenses of the Company are paid; and also from which, the immediate payment of losses is secured, as hereafter explained. The above scale is calculated from the same Table of Mortality,

minus are calculated.

POLICIES.

AARON & RHEINSTEIN

BEG LEAVE TO INFORM THE PUBLIC Committee, a Policy immediately is lasured, in which the Company contracts to pay upon the death of the applicant, to those for the surviving wife or husband on for the benefit of any child or children, for the use and benefit of the surviving wife or husband on for the sole and separate use and benefit of the that they offer the HANDSOMEST whose benefit the policy was issued. Two Dollars, for every surviving Member of the Company, at the death of the person whose life was assured. The value of the Policy depends npon plany. The value of the Policy depends npon file number of Members in the Company, at the death of the person whose life was assured. Thus, if one hundred were alive at the time, the Policy would be worth Two Hundred Dollars; if the hundred, it would be worth Two Hundred Dollars; if the hundred, it would be worth One Thousand Dollars; and if the thousand Members are neviving, the representatives of the decased would get Tun Thousand Dollars. The thicky can only be for fauld by the assured for the legal representatives." [See Chapter, See 3.]

The MCRAE HOUSE, The ADDIONES and HATS, AND CARS.

Trimmed and Untrimmed; and that condition the applicant takes it. For Solvent and Condition the applicant takes it. For Chapter, See 3.

Raleign N. C., Sept. 10th, 1868.

TO THE PUBLIC:

In answer to the many inquiries addressed
to the officers of the North Carolina Life Assurance, Annuity and Trust Company, the Excentive Committee has directed the issue of
this Circular. In the opinion of the Directors,
the plan of Assurance proposed, on account of
the simplicity and perfect fairness, must become the popular one in this country, and
eventually superside that practiced by all companies, whose prinary object seems to be, declaring dividends and making money.

Taking it for clanted, that every prudent,
reflecting man, Chynathia of the probled desting for those, (here he is soue,) for whose
counter, asstenance and anaphness he has isbored in this worth, fully approaches and ackmoving the currence of the company, the notes
would have to be paid. We have the wholesould have to be paid. in assuring one's life, at the age of forty, for two thousand dollars, in this and in ordinary

The solvency and stability of other Mutual Life Assurance Companies depend upon the constant accession of new Members. If new Members can pay the exhorbitant premiums charged by those companies once a year, those belonging to this Company can much more easily meet the small assessments levied, per-haps only once a month. Having no capital invested, its solvency is unaffected by the rise or fall of stocks; "no panic can break it," nor can repudiation affect its ability to pay its losses. If any sheme of Life Assurance in this country is safe, this is pre-eminently so.— Again, every Member is directly interested in obtaining responsible persons to assure in the Company; for by such accessions, is his policy increased in amount. If a policy holder brings ten new Members into the Company, it augments the value of his own policy Twenty Dollars and so on. If the number of Members

should decrease, the annual assessments will be lessened in the same ratio.

The Board of Directors confidently submit the plan, they have chosen to do basiness upon, to the public. They are satisfied that it is the only scheme, suited to our present circumstances, and the only one of such extended application as to embrace every class of their fellow-citizens. They have resolved to canvass the State thoroughly, and to establish responsible local agents in every county. By such, and other means, it is expected to keep the Public posted in regard to their real interests in relation to assurance matters.

ests in relation to assurance matters.

As soon as the necessary blanks are prepared, the Company will receive and act upon applications; and whenever there are one hundred applications filed, the Company will commence to issue policies.

Information, relating to the working details of the Company's business, and concerning Life Assurance generally will be promptly furnished upon application to the Secretary.

QUENT. BUSBEE, Secretary.
