THE CITY.

☞ The STAR is delivered to Subscribers in all parts of the City at FIFTEEN CENTS per week, payable only to Mr. JOHN H. PUGH. Orders may be left either with him or at this Office.

SPECIAL COURT YESTERDAY.—John Shaw (white)—Drunk and disorderly. Fined $20 and costs. To remain in custody of the Marshal until the fine be paid.

John Gill (white)—Drunk and disorderly. Fined $10 and costs. Gill is a sailor and was sick when his vessel sailed, and to employ his time tried the fun of insulting the loyal police.

An unnamable white man and Annie Yancey, same color, had a small disagreement which cost each $10 and costs, and also, bonds of $50 were required of each, the one for assault and battery, the other for keeping a disorderly house. Both to appear before the next term of the Special Court.

White man was fined $10 and costs for discharging fire-arms in the streets.

One or two minor cases were on the docket, but were postponed.

COUNTY COMMISSIONERS.—The Board of County Commissioners met yesterday, and the session was long, though the proceedings did not occupy much space.

J. B. Herring was appointed Constable of Caswell township.

A proposition was made to the Columbus county authorities to support their prisoners in the county Work House at a rate of 40 cents *per diem*. The former county must pay the traveling expenses.

The following resolution was passed:

Resolved, That the Finance Committee be instructed to dispose of county bonds to an amount not exceeding $10,000, either at public or private sale at the discretion of the said committee; and that it report at the next meeting of the Board what action it may have taken under this resolution.

After attending to other business of a nature not demanding publication, the Board adjourned.

SHOT.—Capt. J. W. Plummer tells us that a shooting frolic occurred in Lumberton last Saturday, and gives us the following particulars:

A number of street hands (eleven) were placed under the charge of a Mr. Tally, and finally seven of the number refused to work and attempted to escape, whereupon Mr. Tally shot one of them with buck shot, and stopped his flight, while the remaining six made good their escape.

The hands were all colored, and the wounded man is expected to live.

THE MORNING STAR.—This morning our paper appears clad in its new "dress," and we hope is considerably improved by the change.

The STAR is now one of the largest and cheapest dailies in the State, contains all the latest news, and we trust we are not too vain in saying it is a live newspaper. We return our thanks to our many subscribers for past patronage, and shall aim to merit their favor in the future.

U. S. COMMISSIONERS' COURT.—Before Gen. Rutherford.—Robert Garvin, the colored mail robber, who tried his skill at the Magnolia Post Office, was brought before this Court for trial; but at the solicitation of Dr. A. Jobe, Special Agent of the Post Office Department, the case was transferred to Magnolia for trial. The object of this step is to relieve the Government of the expense of conveying the witnesses to this city.

BOARD OF ALDERMEN.—The Board met last night, but so long was the session that the lateness of the hour forbids our publishing the proceedings.

RECEPTION OF THE STEAM-FIRE ENGINE "JOHN T. RANKIN."—Yesterday afternoon at 3 o'clock, the members of the Hook and Ladder and Howard Fire Engine Companies met at the Engine House of the latter, formed a procession, the Howard company assuming the van, and the two marching to the "Walker Lot" on Princess street. During the march a fine band was in attendance, and ever and anon if discoursed elegant music.

As the procession moved along the streets, the Marshal, Capt. Charles D. Myers, and his Assistants, Maj. James H. Hill and Capt. N. Gerken, occupied positions in front, and immediately in their rear was the music, while next in order came the Mayor, City Marshal, and Chief Engineer of the Fire Department, all seated in a nice phaeton drawn by a couple of splendid horses. The procession arrived opposite the "Walker Lot" and were there joined by the Wilmington Steam Fire Engine Company, with the splendidly finished engine, and the whole entered the premises, where, standing on a slight mound, stood Maj. Graham Daves, who delivered an appropriate presentation speech, and was responded to by Captain John L. Bostwright, Foreman of the last named company. Both gentlemen acquitted themselves well, the former extending a cordial welcome on behalf of the firemen of the city and the citizens generally, and the latter replying in enthusiastic tones, worthy of the leader of the brave men who compose his company. An interesting part of the ceremony was the breaking on the engine a bottle of champagne hurled by the tiny hands of a youthful tister of the chivalrous Rankin, after whom the engine is named.

THE ENGINE

Is a perfect beauty, deficient in no respect and complete in all. The glittering brass shone like gold, and the bright German silver, coating many parts, could not be told from the pure metal.

The machinery is unexceptionable, and the magnificent structure was drawn by four spirited horses.

The Chief Engineer, Mr. Charles R. Banks, aided by gentlemen who accompanied the engine, put it up during the morning, each piece of the intricate machinery fitted exactly to its place.

SECOND HARBOR.

After the presentation ceremony, the procession again filed through various streets, the "John T. Rankin" bringing up the rear; and during the latter part of the afternoon, the engine was stopped near Market Dock, and it was announced that its efficiency would be exhibited. The crowd was immense, each one anxious to witness the test.

THE TEST.

After a sufficient head of steam was gotten up, two large streams of water were thrown in different directions, each having an impetus that sent it whizzing to a great distance.

In simple words, the "John T. Rankin" is a decided success; its advent into our midst is a blessing to our city.

CLOSE OF THE AFTERNOON CEREMONY.

After the success of the engine all parties dispersed in order, to again meet in the evening at the Engine House of the Howard Fire Company, where was served the

COLLATION.

The lateness of the hour will not permit our giving a description of the elegant repast, prepared by Mr. C. R. Banks, assisted by Mr. W. G. Beale; nor can we describe the long array of glittering bottles, containing the finest of champagne, made from the juiciest grapes that grow on France's sunny hills.

In our next issue we will allude to the joyous evening, spent by all who attended the pleasant entertainment.

WILL STAY AWHILE.—The order commanding Gen. Rutherfard to transfer his office papers to the disbursing officer of the Bureau and to close his office, leaves him without an official position in our city; yet so strong is his attachment to his adopted home, and so fond is he of getting after certain gentlemen "with a sharp stick," that he will not depart from our midst, until his pleasant little game is played.

After all, the General has of late conducted himself right modestly, and if Grant will only give him a lucrative post, he will leave us with a good grace, and whisper in the Executive ear many tender remarks concerning the welfare of his adopted though dearly beloved home in Carolina's choice city.

No doubt, when he bids us farewell, remembrance will often sigh in plaintive tones, "Ah, Rutherford, Rutherford, drop a tear to the memory of 'auld lang syne'."

BRICKS.—Our old friend, the well-known "Squire" Foster, Superintendent of the County Work House, informs us that on yesterday he commenced making bricks, and is now prepared to continue the process without interruption or cessation.

The kiln which some time ago was burned, has been rebuilt, and the facilities for making brick are as good as could possibly be desired, while the quality of those made is very superior.

The Work House is in first-rate order, everything is going on capitally, and large profits are expected to be reaped from the manufacture of the long talked of bricks.

ADIEU, A LASTING ADIEU TO THE FREEDMEN'S BUREAU.—The term of this "Institution" is drawing to a close, and few will regret its expiration.

Gen. Rutherford, so long the agent for this section, has received from the War Department orders directing him to close his office so soon as practicable, and to transfer his books, papers and property to Maj. James McClury, the Disbursing Officer for North Carolina. This step has for some time been meditated, and the Freedmen's Bureau will at once be abolished in this State.

Gen. Rutherford informs us that within two weeks he will have arranged the necessary measures for the close of his office and in a few days further the grave of the notorious Freedmen's Bureau will be dug, though no tombstone need be erected to its memory, for its burial place will long be remembered by the people of North Carolina.

ANOTHER BALL EXTRACTED.—Dr. J. E. Wenants yesterday extracted a second ball from the head of Mr. Paschal Agostine, who was some time since shot by a colored man with whom he had a difficulty.

The ball had passed through the skull and had entered the brain, though it had not penetrated the latter to a great depth. Mr. Agostine suffers very much, yet his recovery is expected by his skillful physician.

ICE HOUSE.—Mr. Walker Meares advertises that about the 15th of next month, he will open an ice house, constructed on the most improved plan, and containing ice during the whole summer season.

Mr. Meares is too well known to need an extended notice, and we will merely say that his name is equivalent to success. He offers to sell ice at the low price of one cent per pound, and will furnish it at *all* hours.

STRUCK HIM.—Yesterday after noon, Mr. Jackson Potter struck with a large stick Melton Larkins (col.), and the latter was so seriously injured that it was necessary to call the services of a physician. The former was arrested, but gave bail.

We do not know the origin of the difficulty. It occurred on Water street.

T. WYATT'S IMPROVED CEMENT.—Mr. R. B. Wood, Jr., advertises this cement for sale, and, on the authority of several who have tried it, we willingly pronounce it an incomparable convenience. Read the advertisement, and buy a bottle of this useful article.

RIVER AND MARINE NEWS.

MONDAY, March 22.

—Weather cool and cloudy.

—Not an item from above.

—Business has declined somewhat in activity.

FROM BELOW.

—Bound Out—Schrs. *Florence H. Allen* and *Central America*, lying at Smithville.

—Bound In—Schrs. *Ben. Scarsville, Thomas Roes*, and one schooner, name unknown, ashore on the Rip at the Main Bar. Two other unknown schooners.

—Went to sea yesterday (Sunday)—Schrs. *David V. Streaker* and *Billow*.

—Went to sea to-day (Monday)—Schrs. *Mary E. Amsden, Maria Hall, Clara Ball, Carrie E. Rich, George and Albert* and *Nellie Burgess*.

—Steamer *North Point* is lying outside of the Bar, seeking a harbor. Also, the Steamer *City of Norfolk* is at Smithville, having put in to escape the bad weather. These two steamers will probably put to sea at an early day.

—Wind blowing strong from the North-east.

Steamship *Fairbanks* arrived at New York on the 19th inst., making the trip in four days.

—Steamship *Pioneer* arrived last night, and Capt. Catherine reports "thick" weather during the entire passage.

Americans to Fight in Cuba.—A Cuban Expedition Fitting Out —The President Winking at it.

From Charleston (S. C.) News.

There are so many persons in Charleston who are now or have been engaged in the Cuba trade, that great interest has been shown in regard to everything that relates to the progress of the Cuban insurrection. We cannot say that the popular feeling has altogether been on the side of the "rebels," for men have contrasted the merciless manner in which the Southern "rebels" were treated with the expressions of profuse sympathy which the North can find for the "rebels" in Cuba and Cretc. Yet there has been a restlessness among the people which betokens the awakening of the old spirit of adventure and romance.

This is particularly the case among the young men, and for weeks past it has been rumored that expeditions in aid of the Cuban insurrentionists were fitting out on the Georgia and Carolina coast. We have not been able to obtain such information as would justify us is saying positively that any of these expeditions have actually reached their destination. Indeed, a too great publicity would awaken the vigilance of the Spanish spies, and make a successful landing difficult to any but such men as those who ran the blockade of Charleston so often during the late unpleasantness.

We may, however, without compromising any one, say that Capt. Frank Bonneau, one of our most skillful mariners and bravest men, has safely arrived in Cuba. Of him no more must be said at this moment. A few days ago some surprise was excited by the arrival in Charleston of Gen. Jordan, formerly Chief of Staff of Gen. Beauregard. This officer moved about very quietly, and no suspicions of his real object were entertained until it was found that he had disappeared from the city. The report is, and we have no reason to doubt its correctness, that Gen. Jordan has sailed for Cuba.

But this is not all. From what has leaked out since the departure of Gen. Jordan it is understood that he is in full accord with President Grant, and is acting with his knowledge and consent. The new President has already said that Spain is entitled to no consideration at the hands of the United States, and he is known to be strongly in favor of the acquisition of more territory. It is true that there may be a lion in the path, but an excuse can be found for the suspension of diplomatic relations.

This could not better be done than on the plea that Spain was insulting and injuring American citizens. This may be the reason why Gen. Jordan, it is said, has been assured by President Grant that if he falls into the hands of the Spaniards no hair of his head shall be injured, and that no American who takes part in the insurrection shall be improperly treated by the Loyalists. This is the story as it comes to us, and we should not be surprised if there were more startling developments in the course of the next few weeks.

NEW ADVERTISEMENTS.

ST. CLOUD HOTEL,

THIS NEW AND COMMODIOUS House, located corner of Broadway and 42d Street, New York, possesses advantages over all other houses for the accommodation of its guests. It was built expressly for a first class Family Boarding House—the rooms being large and en suit, heated by steam—with hot and cold water, and furnished second to none; while the culinary department is in the most experienced hands, affording guests an unequal table.

One of Atwood's Patent Elevators is also among the "modern improvements" and at the service of guests at all hours.

The Broadway and University Place Cars pass the door every four minutes, running from the City Hall to Central Park, while the Sixth and Seventh Avenue Lines are but a short block on either side, affording ample facilities for communicating with all the Depots, Steamboat Landings, places of Amusement and Business of the great metropolis.

MOORE & HOLLEY,
mr28-6m Proprietors.

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.
