TO PRINTERS AND PUBLISHERS. We have just received a general assortment of Black Printing Inks, manufactured at C. E. Robinson's Gray's Ferry Printing Ink Works. We have now on hand Book, News, Job and Card Inks, at prices varying from 25 cents to \$2 per pound. Book, Job and Card Inks in packages of one, two, five and ten pounds News Inks in packages of ten, twenty-five and fifty pounds. We sell these superior Inks at manufacturers' net cash prices, charging nothing for freight from Philadelphia to Wilmington. Printers and publishers in this section will thus see that they can buy them from us cheaper than they can buy them at the manutactory. Give us an order. Terms, cash.

We can also furnish, on short notice. News Inks, in packages of not less than 100 pounds, at 16, 18 and 20 cents; and, in packages of not less than 300 lbs., at 14 cents. Except for daily newspapers, however, we never advise the use of ink costing less than 25 cents.

SPECIAL COURT yields us no item this morning.

THE "JOHN DAWSON BOYS" yesterday afternoon drew forth from the engine house their fine machine, but they remained on the streets a very short time. The "Dawson" is a good engine, manned by efficient firemen.

PARADE The Steam Fire Engine Company yesterday exhibited in a more favorable light than ever the efficiency of the "John T. Rankis," At one time a head of about eighty or ninety pounds of steam was raised, and three large streams were thrown to an immense height. The performance was altogether the Steam Engine Company, and it added hands of the skillful and judicious sur "Rankin" as an incomparable machine. MAIL AGENT It will be remeinbered that not long ago Geo. H. Adams, Mail Agent on the W. & M. Rail Road, was removed, and his position given to Jos. N. Hostler (cel.) From causes unknown to us, Hostler has been removed, and Adams has been reinstated in his former place.

LOOK OUT .- We advise our citizens to keep a strict lookout on their flowers, for we have heard of several instances in which rogues have stolen not only the flowers but the plants that adorned the gardens of gentlemen whose names need not be mentioned. This is a low mean practice, and we hope the perpetrators, will yet be caught and punished.

NEW ENGINE. - Since the control of the Work House has been vielded per contract to Mr. Stacey Van Amringe, he has busied himself in making a number of improvements, among which may be numbered a new engine in connection with the brick kiln. The preparations for the new engine were commenced last Friday and the work was completed yesterday, on which day the manufacture of bricks was re-commenced after a delay of a week.

We learn from the Assistant Superintendent that the Work House is in good order, and "all goes smoothly on." ~

CARRIED TO THE WORK HOUSE. -Jere Mack alias Philyaw, alias Cato Mack, was vesterday carried to the Work House, where he will remain during the remainder of the term for which he was consigned as a penalty for larceny. It may be proper to again state, that Mack escaped from the Work House months ago, and remained at large until recently captured by Constable Sellars. He was placed in jail several days since, but on his being called for yesterday he was promptly delivered to Assistant Superin-

tendent, E. D. Hewlett, who escorted him

with cautious civility to his destination.

ACCIDENTALLY SHOT .- A sad accident occurred yesterday morning at the esidence of Robert Robinson, a colored man living in the vicinity of " Dry Pond." His two sons, Frank and William, the former about fifteen years of age, and the latter not more than three, were playing with a pistol which both supposed to be

Frank pointed it, in a playful spirit, at his small brother, and pulled the fatal trig-ger, the weapon making a loud report and lodging the ball in the spine of the unfortunate little boy. This was the first knowledge the agonized lad had of the pistol's being loaded and his grief was intense. The wounded child is still living, though his recovery is doubtiplie V RIA

NEW HANOVER MEDICAL SOCIETY The members of this Society met Wed nesday evening in the Mayor's Court Room, and the meeting was called to order, after which were read the minutes of the last meeting.

A proposition in writing was offered by Dr. C. S. Kerr, to amend that article in the constitution relative to the time and place of holding meetings, the object being to have meetings held in different parts of the county and not in the city only, as is the case now.

Said proposition to be considered at the next meeting.

Upon motion of Dr. Satchwell Dr. H. W. Faison of Duplin was invited to participate in the deliberations and transactions of the Society.

Dr. Satchwell, chairman of the Committee on Medical Fees, reported that the fee bill was now teady for the press, and copies would soon be issued, and placed

in the hands of the Physicians.
Dr. C. S. Kerr, the regular appointer to prepare an essay for the meeting, now arose and read an able paper on Anaesthetics. He conceived the action of the different agents employed to produce Local and general Anaesthesia, separately spoke of the virtues of each and wound up with a pref-erence for chloroform, believing it to be not the best of the several good tests made by only the surest, but a very safe agent in the additional lustre to the reputation of the geon, This excellent production of Dr.

STURGEONS, - Eight large stur- from the different members present, and upon motion the thanks of the Society were tendered him, with the request that copy be furnished the Secretary to be

filed in the Archives of the Society. Dr. H. W. Faison now arose and spoke of the diseases of his section and enter-tained the Society with some well-timed remarks concerning the use of the new, agent, Sweet Quining, "He was followeld." by Drs. Wood and Bule respectively, who gave their notions concerning the insture of this substance, as well as their experience in the use of W. Tipon aler To

The President, Dr. Wm. Geo. Thomas, was requested to prepare a paper "On the Bowel Diseases of Children," to be read at the next meeting.

At this meeting of the Society a large number of physicians from both city and country were present, and much interest was manifested in the transactions. The next regular monthly meeting will be held in the same place the 32 Wednesday night in July, W. J. H. BRELAMY, M. D.,

NARROW ESCAPE. - Thursday afernoon a colored servant was drawing a hand carriage, containing an intant, across Third street, while just of the time a cart was approaching from one direction and buggy from another. The girl attempted to cross the road between the two, and in her haste she so tossed about the light baby carriage that the child fell out, and was suspended by one of its legs between the wheels. The gentleman in the buggy called to the servant, and she replaced the oreaming infant into its seat; but not until it had been considerably frightened. Fortunately no injury was inflicted.

The carelessness of servants is becoming so great that their protection to children amounts to no protection whatever-

COLORED NURSES .- Many mothers are quite ignorant of the cruelty practiced on their babes, while away from home under the doubtful protection of colored nurses. As an evidence that this confidence is too often misplaced, we will relate an occurrence which, we are informed, took place, Wednesday atternoon, near the corner of Third and Church streets.

A colored nurse was seen whipping white child with no very gentle hand, and the number of slaps given the infant were sufficient to have broken the " constitution" of President Grant-when he was a baby. We mention the President's name, because it is said his " constitution " can be justly termed about as strong as that of a horse or some other equine animal.

RELEASED .- Andrew Allen, the colored man sent to jail a few days ago in default of paying a five imposed on him by Squire McQuigg, was yesterday releasad in obedience to an order from the committing Magistrate.

Allen appealed in strong terms to the Squire's sympathy, and used irresistible logic in support of his appeal. He could. he said, soon pay the fine, if released, but if pent up in a prison, payment would never be made; no, never,

Such logic completely won the Squirq's heart, the more thoroughly as his judg ment coincided with his generous emotions; and Allen was, permitted to roam at large and seek the money with which to cancel the fine.

SURRENDERED BY HIS SURETY. Robert Moore (col.) was yesterday surrendered to the authorities by his surety James Mitchell (cel.), who alteged that Moore intended forfeiting his bond.

Robert Moore was, on the 22nd of April last, arrested on a capias issued from the Special Court, and was required to give bond in the sum of \$50 for his future appearance. James Mitchell stepped forward and stood his friend's security, for which kindness much gratitude was apparently felt by the gushing Moore. Time wore on, and Moore appeared to have no inclination to flee from justice, until a day or two ago, when he offered to enlist as a workman on the Montgomery and Enfauls Rail Road. E. F. Martin (col.) is the Agent for procuring hands for this read, So soon as Mitchell heard that Moore was attempting to seek his fortune elsewhere, and leave him to "square his account" with the Special Court, he informed the authorities of the rescality, and the would be fugitive was yesterday afternoon arrested and lodged in jail, where he will remain until the Special Court requires his presence to face its frowns,
