THE CITY.

The STAR is delivered to subscribers in all parts of the City at FIFTEEN CENTS per week.

TO PRINTERS AND PUBLISHERS. We have just received a general assortment of Black Printing Inks.

THE CIRCULATION OF THE MORNING STAR IS LARGER THAN THAT OF ANY OTHER DAILY NEWSPAPER PUBLISHED IN NORTH CAROLINA.

PRAYERS.—Evening prayers were yesterday held in St. John's (Episcopal) church.

MER.—The members of the Lutheran Church congregation met yesterday in regard to procuring a minister.

IF it were not that we dislike repetition we should pronounce yesterday decidedly dull in all departments of business.

IF our farmers who hold cotton would forward it to this city, they would obtain for it not only good but highly gratifying prices.

PROBATE COURT.—Only two deeds admitted to probate yesterday. A number of guardians' returns were made and petitions and complaints received.

A SUCCESS.—The new Building Association has so far met with decided success, and the number of shares already taken will establish the success of the enterprise.

THE tug boats are so irregular in their arrivals that we are rarely able to obtain any information from below, and such is our misfortune again this morning.

FINE HORSE KILLED.—On Tuesday morning the down train on the Wilmington and Manchester Rail Road ran over an elegant mare, valued at \$500, and belonging to Mr. T. E. Gregg.

NORTHERN PRICES.—We see from one of our exchanges that a few bales of new cotton, part grown in Alabama and part in Georgia, were recently sold in New York at prices ranging from thirty-six to forty-eight and one-half cents per pound.

WE hear the Robeson county militia are as much to be dreaded as the outlaws whom they profess to pursue.

IT is said that the "truly loth melish" fully carry out the maxim that the "world owes them a living."

BETTER.—It affords us pleasure to state that Mr. S. G. Hall's condition is much improved. It has, we learn, been decided not to extract the buckshot from the wounds, as the operation would cause much pain, and their remaining in the flesh is not attended with any danger.

ONLY SIX.—The Guard House prisoners have gradually diminished until but six now remain.

ASSESSOR OF INTERNAL REVENUE.—This officer is busily engaged in searching the records of the Probate Court, in order to assess the legacy and succession taxes.

BALLOONS.—Two balloons, an immense distance from the earth, yesterday "sailed" over our city, and the sight created a good deal of comment among imaginative persons.

WARRANT.—Yesterday Celia Osborne, a colored woman, called at the office of Justice McQueen, and demanded a warrant for the arrest of Dick Wilkins, (col.), whom she alleged had stolen an amount of clothing from her.

CAUGHT.—We learn that the negro who murdered Mr. Griffin, Tuesday morning, at Whitaker's Turnout, on the Wilmington and Weldon Rail Road, have been captured, and are now in the custody of the officers of the law.

THE LEE.—The steamer R. E. Lee arrived at this city yesterday afternoon, from Fayetteville, and the Captain reports the water very low and still falling.

THE HURT and the Marion were expected to arrive last night. Notwithstanding the low stage of the water the Lee grounded only once in her downward trip.

THE NAMES OF THE JURY.—We present to our readers the names forming the jury summoned to hold an inquest over the body of a live man—Prince Kelly (col.)

TRANSFERRED TO THE HOSPITAL.—Yesterday Sarah Walker and Kitty Williams, two pugilistically inclined females, who had been imprisoned in the Guard House for fighting, were transferred to the Hospital, where it is proposed to retain them till their respective terms of imprisonment shall have expired.

TRANSFERRED TO THE SON.—The position of city Lamp Lighter which was held by the late William Merrick Sr. has been given to his son, bearing the same name.

WE will here remark that the gas lamps are frequently broken by mischievous boys, or idle scamps of maturity; and it is to be hoped that every citizen will report every such case occurring under his observation, and thus have the perpetrators punished as prescribed by law.

ONLY TWENTY-FIVE DOLLARS AND COSTS.—Mrs. Margaret Dahmer, a widow lady of German extraction, whose kind feeling for the members of our sex induced her to sell them liquor without first obtaining a license to do so, was yesterday tried on this charge before the Special Court, and fined twenty-five dollars and costs.

THE COLORED WOMAN VS. THE POLICEMAN.—Yesterday Eliza Finch, an independent colored woman, preferred charges of assault and battery against Edward Joiner, a member of the loyal police force, of the truly loyal city of Wilmington.

The case was tried before Judge Cantwell, and the defendant was fined five dollars and costs, and required to give bail in the sum of one hundred dollars for his appearance before the next term of the Superior Court.

This punishment was not deemed sufficient by the outraged Eliza, and she appealed from the decision—the too humane decision in her estimation.

PROOF READING.—We copy from an exchange the following appropriate remarks in reference to proof reading:

"There are a good many people who think proof-reading one of the easiest things in the world, and who get very impatient over mistakes in books and newspapers. A writer in a recent number of the Galaxy gives some interesting instances of typographical errors. He mentions one edition of the Bible which contains over 6000. He gives the following example of the difficulties in the way of getting out a perfect book: Some professors of the Unitarian faith resolved to publish a book which should be a model of typographical accuracy. Six proof readers were employed; and after it was thought to be perfect, the sheets were pasted up in the hall of the University, and a reward of two hundred and fifty dollars was offered for every mistake that should be discovered. When the book was printed, it was found that it contained several errors, one being on the title page, another in the first line in the first chapter. The only books that are believed to be entirely free from errors are an Oxford edition of the Bible, a London and Leipzig Bible, and an American reprint of Dante's

The number of police arrests yesterday was only one, and we care not to publish the right name of the unfortunate inmate.

"STILL THEY COME."—We hear there is a movement on foot to organize a third Building Association. We wish the projectors success.

INQUEST HELD OVER A LIVE MAN.—Yesterday it was reported that Prince Kelly, the colored man, stabbed Saturday night by Boston Smith, was dead; and Mr. E. L. Allen was appointed special coroner to hold an inquest over the body.

The jury was summoned, the foreman appointed, and the whole proceeded to the house, where, and behold! the object of their anxious solicitude was not dead; but on the contrary was improving, and his recovery deemed not very doubtful.

North Carolina in a Nutshell.—The assessed valuation of the town lots of Raleigh is \$1,370,057.

Two boys, aged 12 and 14 years, sons of Mr. David May, of Orange, went to a mill-pond for the purpose of fishing. Becoming tired of the day's sport, the younger boy went home and left his brother watching up his line as if to follow.

On arriving home he stated that his brother complained of being unwell. Night drew on and he had not returned. Several gentlemen procured torches and started in search of him, but could discover no clue to his whereabouts either that night or for seven days.

On Friday a large gathering of buzzards attracted the attention of a lady, who, on going to the spot, discovered the missing boy. It is supposed he fell asleep on the banks of the mill-pond, and, being of a very timid nature, ran off on the approach of the party with torches, and from fright fell and died.

Says the Newbern Journal of Commerce: Sheriff W. N. H. Hunter, accompanied by a posse of armed whites and negroes and one or two of Holden's "detectives," brought down by the freight train, yesterday morning, eighteen white men, citizens of Lenoir county, who were arrested on the previous night, and lodged them in Craven-street jail.

These eighteen men are charged with various offenses and crimes, such as regulating, horse-stealing, theft, and murder, and are said to be a fine specimen of the best of the white men of Lenoir county, who were arrested for the past four years. This, however, is improbable as most of them are mere boys in appearance and age, and have by no means the aspect of men inured to a long course of crime.

We also learn that the party attempted to arrest Reeling Hines, white; but Hines showed a determined front, and when the posse arrived at his house and wished to secure him he shot one of the party, and escaped. The man's name we did not learn. He is severely wounded in the head. It is not known, even by the Sheriff, what the real cause of the arrest of these men is.

Boils, Carbuncles, Eruptions and Pimples on the face, Sallowness of the Complexion, General Debility, are brought about by an impure state of the blood. Remedial has been found to be a permanent cure for this class of diseases. It should be used until all the morbid matter is carried out of the system, and the blood is changed from its vitiated condition to its healthy and pure state. It is a safe and effective remedy, never produces the slightest injury, contains no mercury or other poisonous mineral, and is suffering with any of these ailments, both of system, try a bottle. If you have a friend in similar condition, send him a bottle of the Woxan's Patent, and he will be cured. Ask your druggist for it.

Latest by Telegraph. Thousands of men, women and children have been cured of Diarrhoea, Dysentery, Cholera Morbus, Colic, &c., by Dr. R. H. Worthington's celebrated North Carolina Remedy, the only known remedy for all the ailments of the bowels, and for the Cholera and Cholera Morbus—keep it in your home, and wherever you travel, it will save your life.

Female Diseases. Large numbers of women in fact almost nine-tenths of the entire sex—suffer from female diseases. Dr. Lawrence's Women's Friend meets with the most successful success in curing them. This fact should be widely known. If every lady in the United States were to take one or two bottles of the Woxan's Patent, they would be repaid by a renewed health and strength.
