NEW COTTON .- We noticed a bale of new cotton in the lot back of the Express office yesterday morning, and, upon inquiry, learned that it was shipped by Mr. E. J. Moody, of Marion, S. C., and consigned to Mr. F. W. Kerchner, of this city. The weight of the bale was 450

SALE OF STOCK. Seven shares of stock in the "Wilmington Building Association," forfeited | by limitation, we sold yesterday at a premium of \$2,25 per purchaser pays initiation fee and back not doing much damage beyond frightened an excellent indication of the prosperiv of the Association.

RENCONTRE .- A slight " scrimmage" occurred yesterday afternoon, on Front Street, between Solon V. Larkins and Allan Rutherford. We could not learn the particulars; but we hear there was no loss of life or other serious result. The difficulty is supposed to have originated from political causes. Both parties are Republicans. The case will probably come up before Judge Cantwell to-day.

THE MARKET REPORT. - The Clerk of the Market informs us that his monthly report will hereafter be made to the Board of Aldermen, and alleges that this duty has been exacted of him for polit cal reasons, being the work of a prom nent politician connected with the Board who fails to appreciate the soundness of his (the Clerk's) political sentiments.

ARMY WORMS .- We regret to learn that the army worm has made its appearance in some of the cotton fields of this section. As yet, however, the number is not large. Our informant tells us a bird, similar to the rice bird, has also appeared in considerable numbers, and is doing good service in ridding the farmers of this deadly enemy to the cotton plant.

Another Building Association We are glad to learn that steps have been taken by a number of the prominent colored people of this city to organize a Building Association for their benefit, and that an organization will be effected in the course of a few days. This is a step in the right direction, and one which the STAR has taken occasion heretofore to urge upon the colored people as calculated to advance their interests most mate

Quick Trace Observing a color ed individual emerging from the saloon of or neighbor, Mr. Runge, and "double uicking" through Dawson Avenue in the irection of the river, we were curious to earn the cause of such evident precipitaney, and ascertained that he had been caught in the act of " appropriating" some articles not belonging to him, in the club room of said saloon, A Goodman pur ued, but the bad man escaped.

Robbery .- The grocery store on he corner of 4th and Bladen streets, occupied by Mr. --- , was entered last night by thieves, and goods and money to the amount of ten dollars taken therefrom. An entrance was effected by boring auger holes through the back door and removing a portion of the panel. The small amount taken tends to the presumption that the robbers were frightened off before they had succeeded in fully accomplishing their purposes. No clue to the perpetrators of the robbery has been ob-

ANOTHER LIGHTNING FREAK. We learn that the lightning, Monday night, struck the chimney of a house on share. In addition to the premium the 4th, between Church and Castle sts., but some of whom, we learn, not putting much confidence in the old adage, that "lightning never strikes in the same place but once", packed up yesterday and removed to what they considered safer

> SPECIAL MAGISTRATE'S COURT-Justice McQuigg .- There were but two cases before this tribunal yesterday. Lemuel Jones (col.), a worthy heretofore alluded to in these columns, charged with the burning of Mr. Nixon's barn, was up for examination and, the evidence being quite conclusive as to his guilt, Jones was sent to the Hotel de Nash, there to await his trial before the next term of the Superior Court.

Eva Harris, (col.) charged with stealing a pair of shoes, was sent to jail in default of \$50 bail.

STRUCK BY LIGHTNING .- During Directors of this road have succeeded in city "Monday afternoon, the electric fluid struck the gasometer of the gas house luckly, however, not doing much damage stock which the Company held in the Cheraw and Darlington Road, and that with a full corps of engineers the work will be done at once. Fire Engines.—The Weldon News says: "The people of Wilmington have subscribed \$1,000 toward a steam fire engine." As this may create a wrong impression, we would inform our aprightly cotemporary (as he is usually not very have strendy a spletihard on us) that we have already a splen-did engine of the kind described, which will be exceed at the pew landing. The building now occupied by Messra G. G. money has been subscribed by the Howard and Engine Company and its friends to wards securing a steam engine for that company. In addition to this the colored Cannon on such subjects.

people are making an effort to raise the amount necessary to purchase them a steam engine, and it is their fund for that purpose to which the \$1,000 alluded to by

the News has been subscribed by our citizens. We hope soon to have three first class steam fire engines in our city. NEWBERN AHEAD --- Under

head the Newbern Times of the 31st ult. blishes the following: "The first bale of cotton sold in this

State which was raised in this State this year, was sold in this city yesterday. It was raised in this county by Michael Shelfer, and sold at auction by A. G. Eubank, Auctioneer, to Walker, Jones & Co., at 85 cents per pound. The cotton was of excellent quality and the bale weighed 400 pounds."

If the Time man would scan the local columns of the STAR a little more closely, he would not have to suffer the mortification attendant upon such egregrious errors as the above. Our contemporary is by far too hasty in his assertions, for on the 24th ultimo two bales of new cotton, raised in Richmond county, were sold in this city at 35 cents [per pound.
