SHALL THE CITY BE SAVED? Two years ago this paper assum-

ed a position, without reserve or political issues, which its conductor felt to be warranted by the ne cessities of the situation. For that situation we of the South were in no manner responsible. It had been brought about not only without our consent, but in the face of protest, despite our entreaties, and | for us to be moving in the matter in defiance of what we believed to of our city election. Every child be the plainest requirements of wis- in Wilmington knows the stake dom and justice. Nevertheless the cruel necessities of the situation confronted us. To escape them was impossible; to defy them was hopeless; to meet them with indif- impedes it, and the corruption ference was criminal folly.

To our mind the course of wisdom was clear and unmistakeable. offered us. Shall we grasp it? We were then fully convinced that We know our own numerical weak the immediate future would demonstrate a fact, which since has become so palpable that we presume no one will pretend to gainsay it-the fact that consent was no longer the essential feature of the American system; that force had usurped the place of popular consent, which was the basis of the Federal system as framed by the fathers of the Republic. For the South especially we felt that there was no longer a choice. Conquered, despoiled, humiliated by every contrivance of jealousy and hatred, the victim of every species of petty annoyance and insult, she had only the alternative of submission or resistance to the revolutionary party, which was the author of her ruin, and which threatened to deprive her people of their homes and habitations. By acquiescence when she was already helpless, the conqueror might be placated; by ineffectual resistance she would furnish her oppressors with a pretext tor additional infliction of impoverishment, humiliation and des-

pair, Such is a brief and imperfect statement of the circumstances and conclusions that lead this journal, in advance of nearly all its contemporaries in the South, to counsel a frank and unequivocal acknowledgement of the practical triumph of the Republican party in all the cardinal aims for which it had waged the war of subjugation, for which it had drawn the sword against the sovereignty of tionized the Federal government, and in the consummation of which it had annihilated, by act of Congress, the social fabric of eleven States. Making the best of a cruel necessity we should have grasped the policy of our oppressors, by disquieted nerves of the excitable which they sought our destruction, and before their wicked designs could have been consummated, we should have employed their weapons for our own defence and advan-

It is enough for our present purpose to say that subsequent developments have proven that this result was attainable. Few men would now have the effrontery to claim, for example, that the strategy of the party opposed to Radical domination in this State has been the best adapted to the occasion and its necessities. At all events

her own choice-not perhaps her first choice, but a man of respectable personal antecedents, ot reputable character and worthy of publie confidence, might fill her Executive office. Instead of those orgies of ignorance and vice, of which her capital is the daily scene, to-day might be witnessed at Raleigh a Legislature embodying a fair share of decency and ability. These and innumerable other attendants upon a worthy and capable State administration might have been attained with a better display of sagacity, with more of the calm spirit which confronts a political crisis with a just appreciation of attainable results, rather than with vehement declamation and passionate ap-

That this paper indicated a different system of tactics from that which was adopted and failed is no evidence of its remarkable prescience, and we make no such claim. Our only aim, now as then, is that the logic of events may not be contemptuously disregarded. Time is the sure test of truth, and we take it that there are few sensible men in this city who do not fully appreuivocation, regarding pending ciate the necessity of a new departure regarding our State and municipal polities. The day of declamation, of idle repining, of reproach, objurgation and raillery, has gone. The present moment is opportune for the display of prudent counsels. It is not too soon which is again hazarded. This oppressed, outraged and long suffering community can be rescued from the incubus of incompetency which which dishonors it. The means are within our reach; the remedy is ness; we know the strength of the enemy, but there is a gap in his alignment, through which we can achieve deliverance. Recruits are ready to join us in our assaults apon the muniments of corruption. Whatever their political views and associations, they are ready to join us in establishing an honest and capable city government. Shall we join hands with them, or shall we re-enact the stupid follies of the past?

RARA AVIS.

That rara avis in terris, a Radical judge having decency, has been discovered. We shall credit Radicalism with every case of decency A. which it may afford, and we do it for the express purpose of calling down upon the offender the wrath of his Radical associates. Your true Radical has good reason to feel, like Mr. Snake in the play, that certain ruin in his business would result, if ever he should be charged with honesty.

It appears that one of the judges appointed by Gov. Bullock, of Georgia, recently had the misfortune to be detected in the perfectly legitimate Radical transaction of stealing a cow. While condoling with his Honor in this cruel misfortune, we heartily appland the good taste which prompted him to resign the ermine before abscond

More Outlawry-A Regular Pitched Battle Fought, &c.

LOUISVILLE, Nov. 28. who had been whipped by a party of reg-ulators in Pulaski county, caused the arrest of some of his neighbors, whom he accused of the whipping. Saturday morning was fixed for the trial and Cooper and his friends entered Somerset, the county seat, armed to the teeth. Here, the accused party, numbering twenty, and Cooper, with his confederates, equally strong, engaged in a quarrel, which culminated in a regular pitched battle. One hundred and fifty shots were fired, resulting in the killing of three men, named Dodd, Dunton and William Pleasants, and the mortal wounding of one, Jas. Pleas-

The fight was abated by mutual consent, both parties being out of ammunition. Shortly after each party, having recruited its forces, were about to re-enter the lawn, but armed citizens warned them

For General Canby.

The Methodists of Collierstown and heir friends built a substantial brick church, and for years have worshipped in it. Under the rulings of General Canby their church is handed over for half the time to some vagrant fellow that pretends to be a missionary to this benighted land. To drive the owners from their property and to put a stranger in possession is downright robbery. To turn worshippers from the temple of their God, built by their hands and consecrated by their prayers, is a hideous sacrilege. To commit these crimes in the name of justice and religion is an abomination before God and man .- Lexington Gazette.

A short time ago a close-fisted farmer on the Sandy river, in Maine, died, after devising one dollar to his only son. The old gentleman was duly buried in the venerable churchyard, which suffered a terrible washing away by the late flood, and a short time ago his body was found opposite his son's place, having been brought down the river a long distance. When the tender-hearted son was informed of the fact, he made the touching remark: "Probably come back after that dollar

SPECIAL NOTICES. ALLEN'S LUNG BALSAM.

THE REMEDY FOR CURING CONSUMP-TION, Conghs, Colds, Asthma, Croup, Diseases of the Throat, Bronchitis. Pains and Oppress-A desperate character, named Cooper, | ions of the Chest, Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs. Its action is expectorant, alternate, sudorific, sedative, diaphoretic, and diuretic, which renders it one of the most valuable remedies known for curing disease of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; changes the Secretions and Purifies the Blood. heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is warranted to break up the most distressing cough in a few hours' time, if not of two long standing. It is warranted to give entire satisfaction, even in the MOST CONFIRMED CASES OF CON-SUMPTION. It is warranted not to produce costiveness (which is the case of most remedies) or affect the head, as it contains no opi-

um in any form. It is warranted to be PERFECTLY HARMLESS to the most delicate child though it is an active and powerful remedy for restoring the

system. There is no really no necessity for so many deaths by consumption, when ALLEN'S LENG BALSAM

will prevent it, if only taken in time. We copy the following interesting letter from Dr. Harris to the Middlebury, Vt., Reg-

MR. EDITOR :- It is only necessary to subserve the interests of humanity that I request a short space in your valuable paper, to inform the public what Allen's Lung Balsam is sure to do. Two years ago I was attacked with a severe cold; it settled in my throat which so affected the organs of speech that I could not speak aloud for nearly six weeks. I got throu h the winter coughing nights most incessantly, with colS night sweets, with increased irritation which entended into the Bronehial tubes and which kept me coughing all summer. I was at Shoreham on a professional visit the past October, when the 'good Samaritan" came along introducing Allen's Lung Balsam into New England. I procured a bottle and took it according to directions and found immediate relief. I have now taken two bottles which have entirely cured me. For the last two years or during the time of my affliction I was in a state of constipation which the Balsam has most effectually regulated. No family should be without this valuable medicine. I see by the Western papers that the physicians of Cincinnati-where the medicine is manufactured-are introducing it into their practice, and I have no doubt it will soon become a classical remedial agent for the cure of all diseases of the throat, Bronchial tubes and the lungs.

Ayer's Cathartic Pills. For all the Purposes of a Laxative Me-

Perhans no one med cine is so universally required by everybody as a cathartic, nor was ever any before so uni-versally adopted into use, in every country and among all classes as this mild but effi

cient purgative Pill The obvious reason is that it is a more relia le and far more effec tual remedy than an other. Those who have tried it, know that i cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following composition. kable cures of the following complaints, but such cures are known in every neighborhood and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by any body. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal vise a to purify the blood and the internal vise a to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action t · health, and by correcting, wherever they exist, such derangements as earthe first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints: which these **Pills** rapidly cure:— For Dyspepsia or Indigestion, List-lessness, Languor and Loss of Appe-tite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Head ache, Jaundice or Green Sickness, Bil-ious Colic and Bilious Fevers, they should be judici usly taken for ach case to correct the diseased action or remove the obstruc-

For DYSENTERY or DIARRHŒA, but one For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATI'M, GOUT, GRAVEL, PALPITATION of the HEART, PAIN in the SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge. For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is advantageous where no serious derange-ment exists.
