left his old body, because we were there,

He was a good old soul, but his death is

not considered untimely, because old age

had made him somewhat "fogvish" in his

notions; and it'is certain, too, from the na-

ture of things, that his "time had .come."

The latter part of his checquered and

somewhat eventful career was characteriz-

ed by the extreme mildness and gentle-

ness of his manner, and his death was

marked by the peacefulness and serenity

of a new-born babe. The last night of

his stay among us found many "anxious

watchers" at his bed-side, but they seem-

ed to evince more concern to welcome

his successor and heir than of solicitude at

the fate of the departing sire. As our

paper goes to press this morning, the last

lingering spark of vitality has departed

from the "old hulk" and his body has

been consigned to the dark tomb of ob-

livion. The new year is peeping forth

upon the darkened earth, and soon the

gladsome shout will be heard from miri-

ads of throats, "A happy New Year!

THE THEATRE LAST NIGHT.-We were glad to see, last night, a repetition of the large and fashionable audiences which have marked the successful engagement of the Chapman Sisters and Mr. Bishop in our city. Again did the fascinating Sisters, with charming song and graceful dance, call forth admiring plaudits from the large audience; again did the inimitable Bishop, with his wit and grotesqueness, draw forth shouts from the delighted crowd, and once more did all leave the Theatre more than delighted with the night's performance.

To-night, the last appearance of this excellent Company in our midst, will be given the celebrated burlesque by Wm. Horace Lingard, Esq., author of "Capt. Jinks," "Walking down Broadway," &c., entitled "Pluto, or, the Magic Lyre."
Give them a rousing house to night.

THE BODY OF AN INBANT FOUND IN A SINK .- On Thursday night of last week, Toney Ashe, one of the city health officers, while in the performance of his duty naer the corner of 4th and Red Cross streets, discovered something in a box, which he had taken from a sink on the premises, that resembled the dead body of an infant, and allusions were made by himself and companions at the time as to their suspicions. The contents of the box was conveyed to a cart and carried to the usual place for depositing filth, on Smith's Creek, near the city, where it is afterwards taken away by a flat. Nothing more was thought of the matter until yesterday, when in removing the filth into the flat, it was discovered that what had previously excited their suspicions was in reality the corpse of an infant, but of what color or sex they were unable to discover. Coroner Allen was immediately informed of the fact, and last night the body was removed to the Station house, where an inquest will be held at 9 o'clock this morning.

- Religios Notice. We are requested to state that the Rev. G. D. Burnheim having now assumed the pastoral charge of St. Paul's Evangelical Dutheran Church in this city, service may be expected every Sabbath at the regular

hours of 101 A. M. and 71 P. M. Inasmuch as the congregation is composed of both German and English members, divine services in both those languages may be expected every Sunday.

The order of divine service for next will appear here "shortly." The latter Sunday will be at 101 A. M. in the German language.

The following Sunday the order will be reversed, English service in the morning, and German service at night; thus it will continue to alternate during the year, except on some special occasions, when due notice will be given concerning any change to be made.

--- A LA MODE,-One of the prettiest bonnets seen for a dressy toilet is formed of a Corillone of white satin, edged in front with a narrow border of black velvet, and trimmed with Bengal roses. Another is a diadem of dark crimson velvet, pleated and lined with white satin; it is trimmed with a bunch of small curled black feathers. The necklet of crimson velvet is fastened at the side by a bow of black satin. Veil of black lace.

Pain Killer

A CURE FOR DIPTHERIA.

All interested please read the following ex-

tract from a letter from Mrs. [Ellen B. Mason, wife of Rev. Francis Mason, Tounghoo, Birman.

... My son was taken violently sick with Diptheria, cold chills, burning fever, and sore throat. I counted one morning ten little vesicles in his throat, very white, and his tongue towards the root, just like a watermelon full of seeds; the remainder coated as thick as a knife-blade. So many children have died around here, I was afraid to call a physician, and thought I would try your Pain Killer for a gargle, with small does inwardly. I did so, and found the gargle invariably cut off the a gargle, with small doses inwardly. I did so, and found the gargle invariably cut off the vesicles, and he raised them up, often covered with blood. He was taken on Sunday: on Wednesday his throat was clear, and his tongue rapidly clearing off. I also used it as a linament, with castor oil and hartshorn, for his neck. It seemed to me a wonderful cure, and I can but wish it could be known to the many poor mothers in our land who are los-

many poor mothers in our land who are los ing so many children by this dreadful dis I have found your Pain Killer one of the most valuable medicines ever used in Birmah. Once I was stung by a very large black scorpion: the pain was indescribable. I immediately applied the Pain Killer, (for I never travel without it) again and again, and in a half an hour my foot was well.

Dr. Walton writes from Coschocton—"Your Pain Killer cures the new disease—Diptheria. or Sore Throst—that is so alarmingly preva-lent here: and it has not been known to fall in any iustance when used in time. This fact you should make known to the world." (It is used in this disease as a gargle and lotion, as a tonic and stimulant.)

—In Halifax, where this disease prevailed for many months in its most malignant form, the use of Perry Davis' "Pain Killer" was invariably attended with the most favorable results, when it was used ere the disease had made too much progress to preclude the use of so powerful a stimulant.

New Kert County, Va., April 1, 1869.

Messrs. Johnston & Langhorne:

Gentlemen—The very high character of the testimonials attesting the merits of your "Vegetable Preparations Nolandine," induced me to test your "NOLANDINE PROPER" in a very desperate case of Hydrothorax (dropsy of the chest,) combined with Ascities (dropsy of the abdomen). The usual remedies known to our profession had been most skillfully administered without producing anticipated effects. The diseases yielded to the action of your "NOLANDINE." I very gratefully state that my patient is now enjoying the blessings of a restoration to good health, and now, four months since administering your Nolandine, there is not a symptom of recurrence.

I had several opportunities of testing the merits of your "NOLANDINE" for CHILLS AND FEVER, in cases which had resisted the usual remedies for months, and had the satisfaction to see them entirely broken and permanently removed after a course of your Nolandine.

I know that I will incur the displeasure of some of the profession by departing from its usages; but candor and iacts compel me to call attention of my professional brethren to the invaluable preparaties of your preparation and trust that prejudice will not deter them from their use. I have found the action of your Nolandine on the liver and secretions more than equal to calomel, which is an additional recommendation.

The nucleared portion is mostly rich mud of the finest quality, furnishing an inexhaustible supply of manure, by the application of which, the whole may be made exceedingly productive. In addition to this, there is, within two hundred yards of the cleared portion, on an adjoining tract, a rich marl bed, where marl and lime can be obtained for a trifle. The marl contains 82 per cent. of lime.

This place produced, the present year, from the labor of one horse and three laborers, one hundred and thenty-five barrels (825 bushels) of corn, 205 stacks (12,00) lbs.) fodder, and sweet potatoes not measured. The high had with manure will make excellent cotten.
