MORNING STAR. BY TELEGRAPH. THE MORNING STAR. NOON REPORTS.

LATEST FROM EUROPE LONDON, Sept. 29. The Bank has reduced its rate to 31/2 per

cent. The Prussian government officially denies the presence of a national vessel in either the Black or Red Sea, bearing the name of Hortha

or Bertha. It is undefstood that Alsace and Lorraine will be represented by a commission and for, the present will be exempted from federal

The Telegraph has a balloon special, dated at, Tours Wednesday evening, stating that the Prussians are retiring towards Paris, and that great confidence existed in Paris.

The Times has a special giving the following intalli

intelligence: "On Tuesday the French made another sor-tie from Meta, consisting of infantry, cavalry and artillery. They advanced to Aralle Queux, where they were defeated, but carried back their wounded, dead and Prussian prisoners. The village was burned by the shells. "The guns lately in position before Stras-bourg are being hurried to Paris. Some have already arrived. "The Prussian headquarters of the King are at Ferrieres; those of the Crown Prince at Versailles, and the Crown Prince of Suxony at Grand Fremblay. "Carrier pigeons are the only means of coun-munication between Paris and Tours. The balloons offered too fair a mark for the Prus-sians.

"The railway between Chalons and the Ger-man border has been relaid."

Towns, Sept. 29. The government publishes a dispatch this morning from the French Consul at Basle, contradicting the surrender of Strasbourg. The Prussians made 8 tremendons, but unsuc-cessful assaults. A white flag was subsequent-ly displayed for a truce to bury the dead, which gave rise to the rumor that the city was captured. Its early fall, however, is probable and, notwithstanding the denial of the Consul at Basic, there is a strong belief that the ru-mor is not croundless. mor is not groundless.

BRUSSELS, Sept. 29. The papers deny that there is excitement here over the failure of peace negotiations. The Belge, referring to Bismarck's contradic-tion of Favre's statements, says the statement of the latter must be signed by somebody more untitle full then Bismarch's contradictrathful than Bismarck.

From Massachusetts.

Boston, Sept. 29. The steamer Guerrier, with Farragut's re-mains aboard, got ashore on Great Point, but assistance was sent from Boston, the remains have been landed, and will forward to New York by way of Fall River.

From Washington.

Roma, Sept. 29. Cardinal Pericoli has gone to Florence on a secret mission 160 minut From Virginia. Representation Sept. 30. There is a neavy mood west of the Blue Ridge Mountains and considerable damage has been done to the Chesapeake and Ohio Rail-

road, near Staunton. The municipal office troubles here have commenced again. The Chief of Police was ar-rested to day on complaint of Wm. B. David-son, who claims to be Uity Collector under the enabling act and the late judicial decisions, and the Chief in turn had Mr. Davidson arrested for perjury in swearing that he feared mo-lestation. Davidson was lately ejected from office, under direction of the City Council, by the Chief of Police.

A tremendous rain storm commenced carly this morning and still continues with unabated violence. It is pouring down in torrents and all modes of travel in this section, and as far as heard from in the State, have been inter-rupted. The Eastern bound train on the Chesapeake and Ohio railroad from the White Sulphur Springs, this morning, was unable to proceed any further than Afton Station, on account of a wash in the road and five land slides between Afton and Gordonsville. The train commenced to return to Staunton, but after passing the Blue Ridge tunnel it became after passing the Blue Ridge tunnel it became unsafe to proceed further, the water on the track being nearly up to the fires in the en-gine. The special train, containing Vice Pres-ident Wiekham, Superintendent Whitcomb, Director Fisk and party, had barely passed over the Wayscaboro Dudge when it was swept away by the flood. The Eastern bound train, containing a large number of passengers returning from the Wieginia Springs, is weath-er-bound in the mountains at the west end of the Blue Bidge tunnel. No lives were lost as the Blue Ridge tunnel. No lives were lost as far as heard from. At 4 P. M. the rain was still coming down in

torrents and passengers will be unable to get away from the tunnel before to-mornow evening.

Customs for the week ending on the 24th, amounted to nearly \$4,000,000. The State Department has the following dispatch, dated Havana, 29th: "The emancipation decree was published yesterday. Its provisions are similar to the plan of the law published at Madrid, May 28th."

the North German Confederation. Active friendship between the Austrian and Prussian Cabinets is noticed.

A writer in the Post hopes England will not be sacrificed to her cousins.

The specie increase in the Bank is £600,000 sterling.

The garrison of Strasbourg has been removed to Rasdadt, Baden. The Prussians formally

to Residudt, Baden. The Prussians formally occupied the city to-day. The Telegram's London special says: A dis-patch has been received from Mundelsheim, dated yesterday, stating that Strasbourg sur-rendered only when the helpless condition of the place rendered it almost inevitable. The victims of the heart-rending fever prevalent in the city seemed almost numberless. The inhabitants generally were famishing, and the dead and dying were lying in crowds in the streets. This state of things decided Ulrich to capitulate. In doing so he shed tears and exclaimed, as the Prussians entered the city,

"Iol fait mon devoir." Some of the Paris papers accuse Favre with having acted upon a private understanding with Bismarck.

Preparations in Russia proceed on a gigantic scale, and great activity everywhere prevails.

LYONS, Sept. 29. Gen. Cluzeret, heading a revolution, forced his way into the town hall to-day and addressed the people. The National Guard arrested him and his adherents without bloodshed. Clermont has been captured. Three hun-

ared Garde Mobiles and citizens resisted the first attack, when the Prussians returned with artillery and reinforcements and captured the lace. Section.

FERRIERS, Sept. 29.

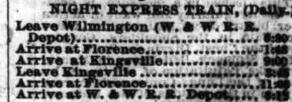

Four telegraph cables have been found in the river leading to Rouen and other southern points and destroyed.

The Prussians have surrounded Solssons and with shot and shell destroyed the suburbs. A bridge has been thrown across the Alsne at that place.

They will be permitted to choose their own officers and will act independently of the regular troops; if circumstances demand it, these companies will be united under one command. The Departments will famish. arms and equipments for this force. The term of enlistment is for during the war. Another corps is organizing, which will carry the black

ANTWERF, Sept. 29. A great fire is now raging. The sugar man-ufactory of Meens Brothers and several other establishments have already been burned. There has been mutiny on board the ship Elizabeth, hence for New York. The second officer was mortally wounded, but the ring-leaders have been arrested.

HAVEE, Sept. 29. The merchandize remaining here is protect-ed by neutral Consuls. Their flags fly over the warehouses. A huge electric light illumi-nates the entire bay and enormous chains pro-tect the entrance to the harbor.

BRRLIN, Sept. 29. Three opinions prevail in Germany regard-ing terms of peace. One party agree with Bis-marck that the war ought not to stop until Alsace and Lorraine, as well as Metz, have been adnered to Germany, whence they were taken. Another party demands the dismantie-ment of Strasbourg, Metz, and indemnity for the cost of the war. The third party demands Alsace and the narrow strip of Lorraine in the East, where German is still the prevailing language. The Cologne Gazetts invors the last named plan.
