Mr. Hiden's Lecture.

The lecture of Rev. Mr. Hiden at the First Baptist Church, last evening, was, we learn, well attended by our citizens. The subject, "Our Sources of Amusement," was well handled by the Rev. gentleman, and was very edifying, instructive and amusing to his audience.

The Circus is Coming. Stone & Murray's great show, being an attractive combination of circus and animal exhibition, will give two performances in this

place on Saturday. The Newark (N. J.) Advertiser, alluding to this circus, says: "Stone & Murray have expunged the antique abuses and customs which other exhibitions cling to with so much tenacity, and inaugurated a new era in circus amusements. With a troupe of artists the most distinguished in the world, this circus has acquired a fame for excellence and respectability that no other traveling exhibition enjoys."

The Victims of the Railroad Accident. We were pleased to learn yesterday, as we did through intelligence received in this city from persons who came down on the Wilmington & Weldon Kailroad, that the injuries sustained by Mr. Rufus Bass, the conductor of the freight train that met with the accident re corded in our last, were not so severe as at first supposed, and that a lively hope is now entertained that he will speedily recover. It is even anticipated that he will be able to be out within a week. He received a number of severe cuts and bruises, but fortunately no bones were broken He was brought down to Warsaw on Monday night, and at last accounts was doing as well as could be expect-

We regret to say that the prospects of Mr. Denning's recovery are not of so hopeful s character, and that serious fears are entertained that the terrible ordeal through which he has passed will eventually prove fatal in its results. He was taken to his home in Goldsboro,' where he resides.

A Mr. Wm. Bass, who lives at or near Goldsboro,' was in the Conductor's car when the accident occurred, and was so jammed and hemmed in by the broken fragments of the car when the train stopped that ap are had to be used to open a way for his rescue; but, strange to say, he only received a few bruises. When released from his perlious position, he expressed his gratitude in the most emphatic The late of the will state

Lecture on Temperance.

A large audience was present last evening, at the City Hall, to hear the lecture, under the auspices of Mt. Olivet Council Friends of Temperance, of Mr. Gregory, a member of the Order. We learn that the lecture was a very interesting one and calculated to do good. It will probably be followed up by others on the same subject."

Improvement.

The building on Front street, between Market and Princess, formerly occupied by Col. E. D. Hall, as a Confectionery, has been leased by an enterprising gentleman of this city, who will enlarge its dimensions so as to run back about eighty feet. It will also be otherwise fitted up in a substantial manner, when, we learn, it will be used as a house furnishing establishment on an extensive scale, something which is very much needed in this city.

JUNIPER BERRIES.

Mode of Preparation.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tinciure, as made in Pharmacopea, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.
