our Street Railway.

Cannot the Street Rrilway Company be pre vailed upon to extend their road to the Sound It is called the Wilmington and Seaside Railroad, and we would like to see it so in reality as well as in name. It would pay a handsomdividend during the spring, and summe months, especially if suitable provision were made to accommodate the large number of visitors who would resort thither. What say the public, and what response shall we have from the company? Don't all speak at once

Eclectic Soiree Club.

The regular semi-monthly "hop" of the Ec lectic Soirce Club came off at Lippitt's Hall last night. We were denied the pleasure of eing present, but learn from a fe was that it was a splendld affair. A large number of ladies and gentlemen were present and lent the influence of their smiles of encouragement and approbation to enhance the pleasure of the "youth and beauty" who participated in the "giddy mazes of the dance." Altogether it was the most successful and agree able entertainment of the season at Lippitt's Hall, and is no doubt the precursor of others equally pleasant before the season shall close

How to Spell.

Often in writing, a simple word is required of the orthography of which the writer is not sure. The dictionary may be reterred to but is not always convenient. An easy way is to write the word on a bit of waste paper, in the two or three ways of which you are in doubt. Nine times in ten the mode which looks right; is right. Spelling-particularly English spelling-is so completely a work of the eye, that the eye alone should be trusted. There is no reason why "receive" and "believe" should he spelt differently, yet sounded arike, in their second syllables. Yet write them "recleve" and "beleive" and the eye shows you the mistake at once. The best way for young people, and indeed people of any age, to learn to spell. is to practice writing. Cobbett, the famous English radical, taught his children grammar, by requiring that they should copy their lessons two or three times. These lessons he himself gave them in the form of letters, and his French and English gratemars are two of the most amusing books in the English language. Of course "learning to spell" came in incidentally.

Physicians' Fees.

We learn from the Sentinel that during the discussion of the bill on Salaries and Fees of County Officers, on Thursday, when the section concerning the pay of Physicians fer sertices rendered when summoned by coroners and so forth, was being considered, Senator C. T. Murphy, of Sampson, moved an amendment to make such fee twenty dollars for every examination. He stated that he did this at the instance of the Medical Association of the State. The duties of Physicians making examinations under such circumstances were arduous and they are required to give their evi dence as experts. These duties were frequently performed at an expense to themselves, and of days of labor, and he insisted, not only from his own knowledge of the facts concerning the matter, but upon the unsnimens conclusion of the State Medical Association, that the amount be increased from ton to at least twenty dollars. Dr. Murphy's speech was a forcible one, but the Senate decided that ten dollars was enough, at least for the present.

is not the slightest foundation for this belief.
It is well known throughout this entire section of the State that, from the first, politics has had nothing to do with these ontrages. The band is composed almost entirely of negroes, and their leader, Henry Berry Lowrey, who has been the moving spirit in all the murders and outrages that have been perpetrated in that county, and who with his own hand committed the late horable murder upon Mr. Taylor, a prominent citizen of that county, is map of color. They are a gang of outlaws, who war upon all alike, without regard to politics, who are so unfortunate as to incur their displeasure, and steat from all alike who come within the sange of their operations, They are isolated from the rest of the commu nity, and prowl about in the woods and swamps, ready to sounce upon any poor devil who comes along. We hope all our Northern exchanges that desire to see tration dopp to our much abused spetion will give the above facts prominence in their columns.

the Reception at the City Hall Last

As previously announced in our columns, the Management of the Southern Roller Skating Association in this city gave the promised and anxiously looked for Reception last evening. The Hall was brilliantly illuminated, and long before the appointed time for the entertainment to begin groups of both sexes might have been seen entering the building. The audience gradually increased till the ample accommodations provided were entirely monopolized and more seats had to be provided for the rapidly increasing influx of witnesses to this real ly successful, brilliant and expensive affair.

At the hour for commencement, those in tending to participate in the exercises buckled on their skates, and in a short period hundred skaters were rapidly glidling over th floor. We believe the programme for the Seme of our Northern exchanges seem to evening was about the same as is usually in cithink that the outrages in Robeson county dent to the regular assemblies, if we except have been perpetrated by what is known as some costumes. After the skaters had indulgthe Ka Klux, or at least they endeavor to con- ed themselves for some time the interval bell was sounded, and Miss Dalsy Lippitt, with a gentleman, took the floor, and we unhesitatingly pronounce her the "banner'l skater among Wilmington's lady aspirants to perfection in the art. Her movements are accompanied with much grace, and she bids fair, for one so young, to outstrip those of maturer

but we could not speak in terms too extravagant of those upon whose heads the suns of several more summers have shed their genial rays-among whom is Miss Eva Lowe and Miss Georgia Briggs; and though the latter has had more experience, and her perform snees are conducted with greater confidence and more case and grace, yet the former bids fair to become quite a formidable rival.
