The Weather Reports.

Attention is called to the "Synopsis of the Weather," which will hereafter be found in the first column of our first page. This synopsis is furnished the press daily from the office of the Chief Signal Officer, at Washington, and will be found to contain important information, especially valuable to the commercial interests of Wilmington.

Tournament at Laurinburg.

We tender our acknowledgments to Messrs. A. F. Bizzell, J. B. Buchannan, J. Johnson, Jr., Joseph E. Everett, J. I. McCallum and J. J. Herndon, Committee of Invitation, for a complimentary ticket to a Tournament and Ball to take place at Laurinburg, Richmond county, to-day. We wish our friends all the pleasure imaginable and regret our inability to share it with them.

Broken Pavements.

It was made the duty of one of the police officers yesterday to ascertain the broken pavements which require putting in order, when the owners of the property, where such repairs are needed, will be notified by the author ities and five days given within which to put them in proper order, and if not attended to by the expiration of that time the work will be done by the city at their expense. The pavements on Market, Front and Water streets, in many places, are in a bad condition and we hope the owners of property where such breaks exist will see the propriety of complying with the request of the authorities.

Foreign Exports. In the matter of direct foreign exportation Wilmington is certainly looking up. As an indication of this fact we have only to give the following figures, which include the shipments of only one firm,-Messrs. Willard Bros .- and that within the past tew days; British Barque J. W. Barss, to London, with 4,150 barrels of rosin and 200 casks of spirits of turpentine; Brig Continental, to Rotterdam, with 1,300 casks of spirits of turpentine; Barque Rosa, to Hamburg, with 1,500 casks of spirits of turpentine; and 780 barrels of rosin; Barque G. S. Hunt, to Liverpool, with 2,700 7,630 barrels of rosin and 3,500 casks of spirits has, in the South at least, been almost entirely of turpentine.

Discovery of a Dead Body in a Marsh -Its Condition-The Inquest, &c.

On Monday a colored man by the name of Halifax discovered the remains of some unknown person lodged in the marsh just beyond Barnum's Creek, in this county, and between six and seven miles below the city. He reported the circumstance to Coroner Hewlett, who summoned a jury yesterday morning, at 10 o'clock, and proceeded to the place indicated, reaching there about 1 o'clock. They found the body very much decomposed-in fact, nothing but a mere skeleton, with but a few shreds of clothing attached. Of these, the material of none could be distinguished except the shirt, which was of old fashioned striped goods. The Coroner and his jury are of the opinion that the body has been in the water for the past three months. His name and color are both a mystery, as neither could be possibly identified. With the best evidence before them, the jury returned a yerdict that head of "For Sale or Rent," at half of our reg- | deceased came to his death by accidental

Bishop Gibbons' Lecture.

An overwhelming audience assembled at the theatre last evening to listen to the admirable address on temperance delivered by Bishop Gibbons. In dress circle and parquette there was a perfect jam of humanity, a large proportion being ladies. While this was in some measure to be expected from the well known reputation of the distinguished speaker, it may also be taken as an encouraging indication of a friendly interest on the part of our citizens la the important mission of the noble Order which he represented.

In subject matter as well as in delivery the lecture was all that could be expected, being impressive, pointed and just in its applications to the great evil of intemperance and a big heart in it. encouraging to those who are battling so

manfully to check its onward progress. The lecture will no doubt prove of much benefit to the community, in directing public attention more particularly to the evil it was intended to combat, while it must also have been the means of realizing a handsome sum for Mt. Olivet Council.

A Notable Day. It is, perhaps, unnecessary to remind our readers that to-day is the 22d of February. Always a notable day, since the entrance of our country upon its new career as one of the great nations of the earth, it is this year more than doubly so. . It is the 139th anniversary of the birth of George Washington, who was "first in war, first in peace and first in the hearts of his countrymen." It is Ash-Wednesday, the commencement of the Lenten season, a sacred and holy one with two of our great religious denominations. It is also noted, with us, as being the anniversary of the day upon which, in 1865, the Confederate army under Gen. Hoke evacuated our city, which was immediately taken possession of by the Federal troops under Gen. Terry.

Up to the breaking out of the late war the barrels of rosin and 500 casks of spirits of day was formally celebrated as the birth day of turpentine-amounting in the aggregate to the great Washington, but latterly the practice abandoned.

Turned Up Again.

Several months ago a poor white woman was picked up on the streets of this city suffering from what appeared to be an epileptic ce an engagement in fit. She was taken to the station house, where, after reviving somewhat, she gave her name as Priscilla Miller, said that she was from Charleston, where her husband was formerly a hotel keeper, that she had been for - The Tableau and Festival for the benefit some time an inmate of an insane asylum in Iows, from which she had been discharged, and was desirous of reaching Charleston, where she had friends. She was sent to the - The subject of a public park is exciting | City Hospital, where she remained for several days, but finally departed, saying that she was going to visit some of her relations in an adjoining county. We had heard nothing more of the unfortunate woman until yesterday, when we noticed from an article in the Columbis Phoeniz that she turned up again about three months ago in Alleghany City, Pa., where she was picked up in the streets in a similar condition to that described above; and now she again makes her appearance in Delaware, Ohio, where she is still suffering with her old disease, and still evincing a desire to reach Charleston. When here she stated that she was expecting a trunk containing her wardrobe, together with valuable papers, and it seems that she is still looking out for it. Her case is a remarkable one. At times she appears to be possessed of superior intelligence, and at other times her words and actions strongly indicate insanity. She states that she has a son at West Point.

Many of our readers will probably remember the case of the poor unfortunate, as we alluded to it at the time in these columns.

the House of no project of The State Tax of New Hanover.

In the preceedings of the Legislature published yesterday morning, Mr. Jones, of Mecklenburg, is reported as declaring that the sheriffs of Wake and New Hanover alone are in arrears to the State nearly, if not quite, \$100,000. We have since learned, on reliable authority, and state the fact as a matter of simple justice, that Sheriff Schenck has had the funds on hand with which to pay the taxes due by this county since October last, but has failed to do so on account of the action of the Board of County Commissioners, authorizing him to deter the payment in the hope that the Legislature would pass a bill whereby the \$28,500 special or railroad tax, which has been decided unconstitutional, might be turned over to the county. He expects to pay over the amount so soon as a bill shall be passed by the General Assembly which will relieve him of the penalty, and if this should not be done, as he is acting by authority of the Commissioners, of course the Board will be responsible for the same. We hope the Legislature will take some action in this matter at an early

A Local Mercantile Agency.

We find from the Petersburg Courier that there is on foot in that city a movement to get up a Local Mercantile Agency, for the purpose of protecting merchants who sell goods almost exclusively to the city trade. There are men about town who visit in good society and are steadily employed in business-but make it a rule not to pay their bills promptly. This is one class of men that this Agency is to protest merchants from, and there are others .a yearly subscription, and employ a reliable man and a competent assistant whose duty shall be to obtain and record upon the books of the Agency, in alphabetical order, the name, resources, business and standing of every man in the city. These merchants are to meet once a week, and are to send daily information to the Agency (when they have it) concerning men who won't pay their bills promptly. This is a capital idea, and will have a great tendency to "kill crediting." It will be a great benefit to the retail trade when it is well established.

It would be well for our merchants to conagency in Wilmington.

Flesh meat and fish are not to be used during Leat at the same meal. Excluding flesh meat, if the proportion cus-tomary for a collation be not excluded, it is permitted to use at collation the other articles of food, such as fruit, butter, cheese, eggs or even fish.

The preparation of food with hog's lard is allowed. Being under twenty-one years of age, old age, infirmity of health, pregnancy, the nursing of infants at the breast, and hard labor, are
