THE PUREST AND SAFEST. The efficacy of Hostetter's Celebrated Stomach Bitters as a specific for recruiting the enfeebled body and cheering the desponding mind, has passed into a proverb. In the United States, where this marvelous tonic has borne down all opposition, and eclipsed all ri* valry, the demand for it has annually increas ed in a heavier and heavier ratio for years until, at last, the regular sales of this preparation exceed those of all other stomachies combined. Eminent members of the medical profession and hospital surgeons without number, have candidly admitted that the pharmacoepia of the faculty contains no prescription that produces such beneficial effects in dyspepsia, general debility and nervous diseases as Hostetter's Bitters. To use the language of a venerable physician of New York, "The Bitters are the purest stimulant and the safest tonic we have." But the uses of the great vegetable antidote are much more comprehensive than such praise would imply. As a preparatory antidote to epidemic disease, a genial stimulant, a promoter of constitutional vigor, an appetizer, a stomachic, and a remedy for nervous debility, no med-icinal preparation has ever attained the reputation of Hostetter's Bitters. It is the household tonic of the American people, and in all human probability will be so for centuries to come. The magnates of science recognize its merits; and that it is emphatically the medicine of the masses, is proven by its vast and ever increasing sales. march 16-eodlw Bun Wed Fri
