THE UNDERSIGNED, a practical manufacturer, has for the past it years experimented with and compounded Lubricating Oil. He has succeeded in producing an Oil which has withstood every test and warrants it not to heat or gum, and as durable as the best of Sperm. The best judges cannot tell it from the latter oil, either by sight or smell, as it is a most transparent. He warrants every gallon; and it may be returned, at his expense, if not satisfactory. Actual experiments has demonstrated the fact that one o'ling with Hall's Sperm is as good as two with any other oil.

This Oil is especially adapted to the use of Locomotives, as it is a very clean oil. If railroad officers will notify him, he will forward 5 gallons free of all charge, if they will give it a fair test, as he is satisfied that his oil has no superior.
