The attention of the public is called to the superior facilities we now have for executing cheaply, promptly and skilfully all kinds of Binding and Ruling. Our business in this department has steadily increased, an evidence that we have not labored in value in our effort to establish a Book Bindery equal to the demands of our growing city. But we are determined to do still more; and as our business grows so will our facilities be increased. Give us a trial.

Superior Court.

According to the act of the last General As sembly, providing for four sessions of the Superior Court for this county in the year, the next session will commence in this city on the fourteenth Monday after the fourth Monday in February, w ich will fall this year on the first Monday, or 5th day of June. Ishould be understood that all writs, summonses, precepts, &c , that were returnable to the Spring term of the Court under the old order of things, which would have been held on the fourth Monday (24th) of April, are made returnable to the June term under the new act without any further service or notice to the parties interested. All persons b und er required as jurors or witnesses to appear at the April term, had it been held, are also required without further summons to appear at the June term of the Court.

Special Notice. We would respectfully call the attention of our patrons to the fact that we are required to settle promptly for our papers every Saturday, and to enable us to do this requires like

promptness on the part of our subscribers. We beg, therefore, that the city subscribers to the STAR will have the money ready for the collector when called for. Having so many to call on, it is a serious inconvenience and loss for us to have to send more than once for so

Navassa Guano Company.

We learn that the Navassa Guano Works, located near this city, are doing a flourishing business. Parties that ordered this fertilizer last year express themselves highly gratified with the results and are repeating their orders this year. No better indication of its efficiency or popul rity could be required than this, for no planter would wish to make a second experiment with a fertilizer where any doubt existed as to its adaptability to the soil Only a certainty on this point would influence him to purchase the same fertilizer for two years in succession. Another indication of the popularity of the Navassa Guano is the great and increasing demand for the article which is made upon the company by our planters. In one day during the present week, we are informed, orders were received for as much as one hundred and five tons. It affords us much gratification, at all times, to record the success and prosperity of home enterprises, but more especially when they are of such a useful character as the one we have alluded to.

Skating Rink-Award Night.

Notwithstanding the inclemency of the weather last evening, the attendance at the skating rink was more than usual'y large, both of skaters and spectators, there being several new-beginners on the floor. The awards were distributed to Miss Bessie Low, on the part of the ladies, und to Muster Clinton VanOrsdell on the part of the gentlemen, and were presented to the lucky skaters by A. T. London, Esq., in brief but appropriate remarks. After the skating was over, it was announced that an opportunity would be afforded to those who wished to indulge in dancing a few sets to do so, whereupon a number of those present "took the floor" and "tripped the light fantistic" for a short time. Altogether it was a joyous and happy occasion.

North Carolina Lumber.

The Baitimore Sun of Thursday says: "The Steamship Rebecca Clyde from Wilmington, N. C., which arrived here on Monday, brought House, through Thos. Matthews & Son, among which were two girders 10 by 14, 64 feet long, said to be of greater length than any before brought from Wilmington to Baltimore. In addition there was for the same building a number of North Carolina pine joists 32 feet long. It is stated that but fourteen days elapsed between the order and the delivery of the timber in this city, although it was sawed expressly for this purpose."

Must "Face the Music."

Detective Sellars succeeded yesterday in arresting a mulatto woman by the name of Quinn, who was bound over by Justice Mc-Quigg, some months since, in the sum of \$100 for her appearance at Court to answer the charge of perjury, and who was about to "make herself scarce." The officer had some difficulty in tracing her up, having to wade through swamps and quagmires to find the hut in which she was secreted, but the game he can't scent out or unearth must have more than the ordinary capacity for "cheating justice out of its dues."

RIVER AND MARINE NEWS.

FRIDAY, April 14th. - The wrecking steamer Lackawanno, Capt. Garrison, from New York, engaged at the ship Persia, on the Frying Pan Shoals, put in here to-day for coal.

- The steamship Tonawanda, Capt. Barrett, arrived here to day from Philadelphia. She kes the place of the Pioneer for this trip. The Tonawando will be remembered by many as being the steamship in which the Confederate prisoners captured at Fisher, Anderson and other forts below this city were taken to Fort Delaware in February, 1865.

- A barque and a brig are reported in below, waiting to go out.

An Unfortunate Affair. On Monday night last a young man

named Ruffin Daniel, who has for some time been acting as an assistant for his brother, the railroad agent at this place, received a painful though not dangerous wound from a pistol in the hand of an express me-senger. The fullnwing, we are informed, were the circumstances;

Mr. Daniel, who was intruding to accompany a friend a short distance down the road on the 10.30 p. m. train, was attending to some linsings connected with another train which was on a side track about a hundred yards south of the railroad office when the passenger train started; as it was passing him, owing to the increasing speed of the train, he thought it best to get on one of the front coaches, and pass through to the rear; but on getting up found himself in front of either the Baggage or Express car, the door of which was locked On finding this to be the case, he could do nothing except to wait for the next station, and, as the car had no railing at that end, he held to the knob of the door, while standing, and part of the time sat on the step. The train slacked up at Black Creek, and he changed his position, thinking it would stop, which, however, was not the case. As the train slacked up at Fremont, he again took hold of the knob, and while standing in this position, without being aware that he had attracted the attention of any one within, the Messenger pushed open the door and seized him by the collar with his left hand, demanding, "Who is this?" He answered, "Assistant Agent at Wilson." "What do you want?" Upon receiving an answer in explanation, the Messenger fired, (the ball taking effect in the left shoulder,) at the same time jerking him into the car, and threatening to shoot again. Retaining

took him out of the train, which had stopped at Nahunta, and to one of the back coaches. Mr. Daniel was also recognized by Capt. Parker and Mr. Nelson. and was cared for by them, and his friend. Eddie Muse, until the train reached Goldsboro, when he was taken to the hotel and returned here by the 5 o'clock A. M. train.

Mr. Daniel had in his hand a very slight cane when he first saw the Messenger, but dropped it as the door was opened. He had no arms whatever. We learn that he is doing well, but still suffering. Those of our exchanges that have no-

ticed this sad occurrence, will please copy this, thereby doing Mr. Daniel an act of simple justice, and correcting gross mis-representations.—Wilson Plaindealer. As to the "gross misrepresentations"

alluded to in the above, we would state that our version of the affair was given to the public just as it was given to us. We could have no motive for misrepresenting Mr. Daniel.
