NEW ADVERTISEMENTS.

TRY IT.

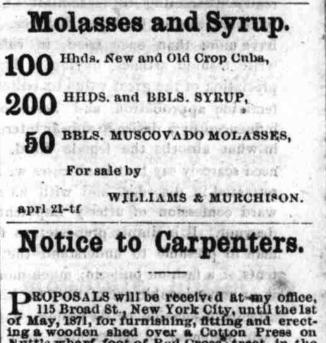

It is amusing that the feeble should totter, with uncertain steps, over the face of the earth, in danger every day of falling victims to the morbid influences by which we are all surrounded, when a tested and proven vegetable tonic, capable of endowing them with the vigor they need, is procurable in every city, town and settlement. It might reasonably be thought that after the twelve years' experience which the world has had of Hos-

tetter's Bitters, all would know that its. effect is to prevent disease. At certain seasons the atmosphere is surcharged with the seeds of intermittents, remittents, rheumatism, pulmonary disorders, bilious complaints and the like. Persons whose nervous systems are relaxed are the first to succumb to these distempers. Brace up the physical energies then with this potential vegetable tonic. It is the most powerful recuperant which the botanic kingdom has ever yielded to patient research and experiment. Try it. The blindest discipline of the old medical dygmas will at least admit that a tonic and alterative, compounded of approved

Vigor is the thing most needed in these cases as well as in dyspepsia and nervous affections, and Hostetter's Bitters is the safest, surest and most wholesome streg hening preparaand most wholesome streg hening prepara-tion that human skill has yet concocted. Hundreds of physicians have abandoned all the officinal receipts and prescribed this harmless tonic as a preventive and cure for all cases of chills and fever.

Beauties of Odd Fellowship.

From the report of C. A. B. Coffroth, Grand Muster of the order in Virginia, made to the Grand Lodge, recently in session in Richmond, we take the following extract, which shows that the order is eminently worthy of the high esteem in which it is held as a noble dispenser of charity: Here is the extract :

"In our own State the contributions made by the membership since the war, from June, 1865, to June, 1870, notwithstanding the dark cloud of pecuniary embarrassment, &c., which has so paralyzed the energies of our people, and retarded the progress of our beloved order, exceed \$70,000. It has relieved 480 widowed families, and 1,800 sick and distressed brothers, and has given for the relief of the sick, \$22,642; widowed families, \$9,803; education of or-phans, \$6.138; burying the dead, \$8,038. Total relief, \$46,649. What a record of noble deeds and catalogue of loying benefactions."

ly paid. The following communication was laid before the Board :

WILMINGTON, N. C., 20th April, 1871. GENTLEMEN: I deem'it my duty to call your attention to the wall on the Eastern side of the jail. Any one from the adjoining lot can throw into the window tools with which the prisoners might effect their escape. My atten-tion has been called to this matter recently by finding a large knife in the cell of Oxendine, and I have no doubt that it was obtained in the manner indicated. I would respectfully suggest that the wall be raised sufficiently high to prevent a like occurrencs.

Yours very respectfully, J. W. SCHENCK, JR., Sheriff, Per T. M. GARDINER, Deputy. Referred to the Committee on Public Build-

ings. The Board then adjourned.
