The entire alphabet is found in these four lines. Some of the children may like to learn them:

Qualified as Constable.

Mr. R. L. Sellars, having presented the necessary bond, was qualified yesterday as Constable of Cape Fear Township. We are glad to see this energetic officer in his "element" again, and hope he may prove a terror to evil doers in future as he has in the past.

Skating To-Night. We would remind our readers that the last award distribution of the season comes off at the skating rink to night, which will no doubt be the occasion of a larger attendance than usual on the part of those who have been in the habit of patronizing this popular institution. The skating rink has been a delightful source of amusement and recreation to our citizens during the past season, and the only regret is that necessity will compel the proprietor to close it after to-morrow night until

The Robesonian of yesterday says : We learn that George Applewhite has been seen since the shooting on the 16th, and is reported but slightly hurt. It is also reported that two citizens of this county met H. B. Lowry in the woods, a few days ago, and though they were both armed with shot guns, they made no effort te capture the outlaw. Musical and Literary Exhibition. Notwithstanding the fact that the indications of the weather were rather unfavorable, quite a large and appreciative and ence attended the Musical and Literary Exhibition of Wilmington Institute, assisted by Prof. Reuckert, last night. The singing by the pupils of the te was pronounced on all hands to be very fine and reflected much credit upon their Instructor, as well as upon themselves, and exhibited the effect of a judicious system of training. Prof. Renckert's efforts on the violin were, as was to be expected, highly appreciated by the audience, as was sufficiently de-

Among the most noticeable feats of decla. mation may be mentioned "North Carolinaand Nature and Philosophy," "General Leeand Fashion Stronger than Love," and "Cato's Soliloguy," the first two pieces of which were given by two young Misses of about 14 years old; but where all did so well it would be unjust to discriminate to any extent, and we would simply say that the exhibition throughout was most excellent and elicited the flattering encomiums of all who were present At the close "The Old North State" was sung by the papils, Prof. Rueckert accompanying the vocalization with the violin, and the audience, at the request of the Principal, joining in the chorus, which was rendered with much beauty and effect, after which the Doxology, "Praise God from whom all blessings flow," was sung and the audience dispersed extremely gratified with the evening's entertainment.

UDOLPHE WOLFE, ESQ, Present: DEAR SIR: I have made a chemical examination of a sample of your "Schiedam Schnapps," with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Schiedam Snapps" as an excellent and onobjectionable variety of gin.

FRAUD COMMISSION. WEDNESDAY, April 26, 1871. Commission to investigate charges of fraud and corruption met at 10 A. M. in

the Senate Chamber. Mr. E. G. Hall testified that his father's estate was a stockholder to the extent of about 100 shares in the Cape Fear Navigation Company; that 82 shares was sold to T. S. Lutterloh for 10 dollars per share, and the sale was made immediately after the purchase of the interest of the State. Mr. Hall sold, as executor of his father, and was induced to the sale by the belief and representations that the stock would become valueless. As in case he did not sell Lutterloh would purchase enough from another party to give him a controlling interest in the stock, which when obtained was to be sunk. He (Lutterloh) said he wished to get up a meeting of the stockholders. When they were trying to get up the meeting, witness remained out, as did Mr. Tilliughast, for the purpose of preventing the presence of a quorum, as it was understood that the object of the meeting was to break up the company. There was a combination formed to de-

press the stock, and thinks Lutterloh was engaged in it.

years against this company for its exactions in tolls and neglect to carry out the real objects of its existence.

Mr. A. H. Slocumb testified That he was a resident of Fayetteville, and engaged in merchandize, and also a member of the Peoples' line of Steamboats. He had a conversation with Mr. Lutterloh in May, 1869. Mr. L. showed him a receipt for the State's stock in the Navigation Company and said that that gave them the control of the river. They did not intend to use it, but that other lines would have to conform to certain rules of freight. Had afterwards a con-versation with J. D. Williams, who said much the same, and that freights would be higher. Witness said that he wen'd send his freights by flats. Capt. Green said if he did he would have to pay toll, or the flats would be seized.
