A Dangerous Patient.

A colored woman by the name of Eliza White, who was sent to the Work House some time since as a vagrant, but was subsequentlytransferred to the City Hospital, was removed | Fayetteville. from that institution yesterday to the Guard House, where she will be held subject to the Mayor's orders. Eliza is subject to crazy fits and at times is considered very dangerons. For this reason, and out of regard for the safety of his other patients, Dr. Winants request ed her removal from the Hospita'.

Does not know whether the Attorney General was present at the opening of the bids or not.

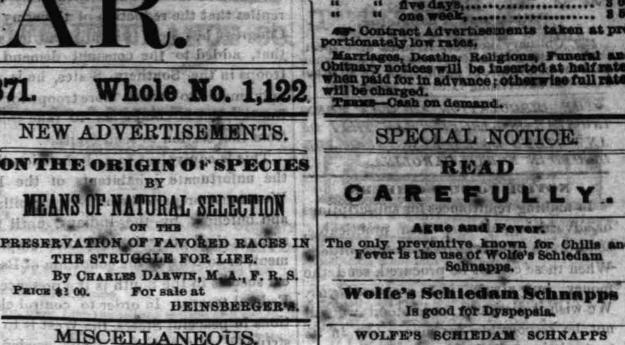

Mr. Ashley informed witness that he was the successful bidder.

To the Sherif of New Hanover County, Greeting: YOU are hereby commanded to summon Alonzo C. Rembaugh to appear at the next term of said Court, to be held at the Court House in Wilmington, on the 14th Mon-day after the fourth Monday in February, 1871, to answer the complaint of the said Plain-tiff. If the Defendant sharl fail to appear at that time, the Plaintiff will apply for the re-lief demanded in the complaint, together with the costs of this action. Of this summons make due return to the Clerk of said Court for the County of New Hanover. The only service rendered by Mr. Byrne was getting the Board together. He only acted as agent that day, and gave no reason for any special influence he could use. Gov. Holden, Ashley and the Attorney General only persons remembered as present at opening of bids. Paid no money to any one else. None to Mr. Ashley.

J. D. Williams gave witness a letter of credit for \$4,000, the stock cost \$3,250. Witness put in a second bid, though he was informed the first one had been favor-ably considered, because he feared the first would be overlocked.

Mr. Williams had paid in the neighborbood of \$400 more on account of the purchase of this stock. In answer to question as to what account he gave to Mr. Wi'liams about that money, witness did not sponsible party was going to run up the he necessary to buy him off. Don't know

A False Alarm.

There was a case of small pox reported in this city on Thursday morning, and at first it was supposed even by the physician in attendance that the patient was suffering with that disease. We refrained from mentioning the fact, however, for fear of creating unnecessary alarm. The colored man alluded to was taken to the City Hospital and yest rday we were glad to learn that Dr. Winants had decided that the disease he was suffering under was not small pox. STRAIN MEATER. From Robeson. Our advices from Roboson county yesterday were rather meagre, but confirmed the statements in our last as to the shooting of Inman, Thompson and McKoy by the ontlaws in ambuscade. We also learn that an inquest was held by Coroner Chaffis over the body of young Inman, who was killed by Lowrey and his gang. It is now reported that both Thompson and McKoy, are dangerously wounded. Dr. J. Dwinnelle, who is attending Thompson, says he is wounded in the left lung, and that there is scarcely a probability of his recovery. Mc-Koy is also reported to have been shot through the lungs and it is said that he is soffering intense agony, with hardly a hope of his recovery.

We could obtain no further particulars in regard to the affair.

The "Hop."

The last "nop" for the present season of the "Eclectic Soires Club," which came off at Lippitt's Hall last night, was a grand affair, and was pronounced by those present to have been the most successful one in every respect that has been given. There were a large number of ladies and gentlemen present, and the dancing was kept up until a late hour. What added much to the attractiveness of the scene was the fact that the Hall had been handsomely decorated with banners and evergreens, the handiwork of a number of young ladies, which gave the room an air of cheerfulness that added zest to the enjoyment of the evening. Two bands of excellent music contributed largely to the general pleasure. Altogether it was such a scene of universal gayety and joyous-ness that lingers in the memory as one of the most agreeable epi-odes in life's transitory existenze.

Skating Last Night. The scene at the skating rink last evening

was more than usually animating and bewilder ing. The floor was filled with skaters of both sexes and, notwithstanding the warmth of the weather, they whirled in the "giddy ton contemporaries beat this ?" It demazes" with the most apparent satisfaction and as if they intended to make the most of the limited time allowed them before the closing of the rink. The crowd of skaters and spectators present was larger than usual and all seemed to enjoy the sport hugely.

This afternoon there will be skating from . to 6 o'clock and to-night, the last opportunity which will be afforded for an indulgence in this favorite accomplishment this season, the rink will be open to skaters from 8 to 10 o'elock.

There will doutless be a large crowd on both occasions.

[Reported for the Sentinel.] FRAUD COMMISSION,

THURSDAY, April 27.

The examination of witnesses in the Cape Fear Navigation Company case was resumed. Mr. A. P. Worth was called to the stand. An abstract of a deposition made by him to be used when the suit against the Company in the Superior Court of Cumberland was to be tried. was read and pronounced, by him, substantially correct, and which was intended to show that at that time the Company had forfeited its charter by neglect to obey its requirements and provisions. After the sale of the State's stock in 1869, the Company had gone to work with due diligence, had put on boats and proper appliances, and work was as vigorously prosecuted as circum-stances would admit. Mr. Hurt did not concur with Mr. Slocumb in opinion that

Witness acted in the purchase as his own agent, and that of J. D. Williams and Dan'l G. Worth, and the stock was purchased for the benefit of steamboat companies.

Does not think Mr. Orrel had anything to do with making arrangments with Byrne. Witness and Orrel had been together and had talked together, but formed few plans. They went together to see Mr. Ashley, to induce him to make the sale, and he was at first much displeased at the inteference, but afterwards concluded to recommend the sale. In answer to question as what inducements he held out to members of Legislature to vote for the bill, witness said they wanted to improve the river and thereby make their railroad of some use. Did not remember saying he wanted to make the river a free river, nor that he wanted to sink the stock, or does he remember saying to Mr. Slocumb or any one else that he had held out such inducements to members of the Legislature. Such were never the intentions of witness or those of the Companies he represented. Cannot say, to his best recollection, that he had ever said to a member of the Legislature at that session, that if the stock was purchased by those he represented it would be sunk. Had told persons that the tolls had been put so low they would amount to nothing. Don't recollect telling any one that the object in purchasing the stock was to get rid of vexatious litigations, but it was so in part. . Did not pay tolls on the river while I was interested in stock, from August, 1865, to time of purchase, because though he run boats and carried freight, he did not consider the tolls due, and in fact part of the time theywere not exacted. Some time in 1867 or '68 tolls were demanded to the amount of \$2400 or \$2500 and suit was brought. which suit was pending at the time of the purchase of the stock.

The pending suits were an inducement to the purchase of the stock though advised by his attorney that the Company could not recover.

Does not know how Byrne knew he wished to purchase, but he (B) first introduced the subject. Does not know whether Byrne was present or not when bids were opened. Ashley told witness, first bid was accepted but had concluded not to sell as at first advertised.

* Andrew Jackson Jones was in Raleigh at the opening of the bids and promised to aid him by getting the board together, &c., if witness would pay him from 300 to 500 dollars. -Adjourned until 9 A. M. 28th.
