Weather Report.

WAR DEFARTMENT, Office of Chief Signal Officer, Washington, April 29-4:35 P. M.

It is probable that the barometer will con-tinue low on Sunday throughout the country east of the Rocay Mountains, and that very considerable depression will be developed wess of and in Illinois. No serious disturance is probable for the Atlantic and Gulf coasts. Fresh north and east winds will prob-ably be experienced on the upper lakes.

#### Cure for Neuralgia.

An eminent physician sends to an exchange the following as a relief for neuralgia: "For simple neuralgia of the face, or any superficial sche not depending upon some organic discase, nothing will act so effectually as rubbing the oil of peppermint into the part. The old man with the gont will get relief from it. As a local anesthetic, it will give relief when morphine to a drachm of oil."

## Overboard.

A small white boy by the name of Willie Keen, while walking on the edge of the wharf opposite Messrs. Oldham & Smith's, yesterday afternoon, made a misstep and plunged into the river. Fortunately help was near in the person of the engineer of the steamer Tioga, who rescued the little fellow from the treacherous waters which would fain have proven his winding sheet. Boys, take warning, and keep away from the wharves!

Trip in the Country.

A party of gentlemen, chaffing under the restraints of city life, and anxious to inhale a little fresh country air, took a short trip to Masonboro' Sound a few 'days since. While there they enjoyed the hospitality of Mr. Wm. Patten, of this city, who has, on the banks of Hewlett's Creek, one of the finest country farms we have seen in a long time. It is in a fine state of cultivation, and among its productions may be classed everything in the vegetable line, suited to the soil, with strawberries, cranberries, currants, &e. He also has a splendid orchard coming on, in which may be found every variety of fruit. Mr. P.

## NEW ADVERTISEMENTS. PREVENTIVE MEDICATION.

A radical change has been introduced in the ton on practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcot cs, and rasping purgatives, once the favorite resources of the faculty, and now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local aliments. Hence it is that Hos-tetter's Stomach Bitters, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially ap-proved by practitioners of the modern school. It is pleasant to reflect that reason and phil-osophy have at last been victorious over the osophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive

"Schnapps" is a remedy in chronic catarrhal complaints, etc.:

I take great pleasure in bearing highly cred-itab e testimony to its efficacy as a remedial agent in the diseases for which you recom-mendit. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most im-portant remedies in chronic catarrhal affec-tions, particularly those of the genito-urinary apparatus. With much respect, your obedient CHAS. A. LEAS, M. D., New York. servant, 26 PINE STREET, N. Y., Nov. 21, 1857. UDOLPHE WOLFE, ESG, Present: DEAR SIRE I have blade a chemical examination of a sample of your "Schiedam Schnapps," with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits. The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious subdiscover any trace of the deleterious sub-stances which are ometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Schiedam Snapps" as an excellent and onobjectionable variety of gin. With this object in view he has fitted up a large Express wagon in a neat, handsome and substantial style, which will be drawn by two magnificent bays, and which he thinks will enable him to meet the present demands of the public in the matter of transportation. This splendid team made its first appearance on the streets yesterday and attracted no little attention. The Southern Express is a time-honored institution and is worthy of the high standard of success to which it has attained by its promptness, its integrity and the superior qualifications of its agents for their onerons and responsible du-

### An Obstinate Brute.

. A certain person in this city having been an-noyed very much by a neighbor's goat, finally came to the determination that he would put an end to the n isance by putting an end to "Billy." He thereupon ground a glass bottle as tine as possible, put the substance in a quantity of meal and gave it to the animal to est. which he stowed away without any difficulty and without the least perceptible sign of inconvenience. He next procured a quantity of strychnine and mixed it with meal, thinking he had the "dead-lock" on goatle that time sure. "Billy" came, he saw and he devoured, but instead of keeling over and giving up the ghost, he seemed to relish the "pizen," and looked wistfully at his would-be murderer as if begging for more. Concluding that an anlmal that was so tenacious of life that neither ground glass nor poison would kill him, was rather a difficult case to manage, our friend decided to let him slone.
