off for a Tour. Our young friend, Mr. James Sprunt, takes his departure from our city this morning with the view of making a tour of Europe and expects to be absent four months.

Another Burglary. The grocery store of Mr. Martin Bohling, located on Front, between Castle and Queen streets, was broken open on Monday night, but fortunately only a few articles were taken from it.

Address at the Theatre Last Night. Capt. R. F. Travellick, President of the National Labor Union, delivered another interesting address at the Theatre last evening on the subject of Labor Unions.

U. S. District Court. His Honor Judge Brooks is disposing of the business before this Court with his usual alacrity. The criminal docket was gone over yesterday and the cases—thirteen in number—were all disposed of.

Wilmington Debating Association. We are glad to see that a number of young gentlemen of this city have formed a debating association to be known by the above title.

Meeting of the Board of Commissioners of Navigation and Pilotage. A meeting of the Board of Commissioners of Navigation was held on yesterday, the 2d day of May, 1871, at the office of J. H. Chadborn & Co.

The German Pic Nic. It was feared at one time on Monday, on account of the threatening aspect of the weather, that the German picnic would have to be postponed.

City Court. The following cases were disposed of yesterday: John Davis, charged with petty larceny, was found guilty and sentenced to pay the penalty and costs.

Local News. Some eyes are very prevalent about town. There are very few vessels in port just at present.

Great rush for Mebane's ice cool soda water yesterday. There were some very fine oysters in market yesterday.

Plenty of fresh water fish, mostly perch, in market yesterday. The U. S. District Court will probably close its session in this city on Thursday.

A white male and a colored female patient were sent to the City Hospital yesterday. Have the city carts quit removing the trash from Market Street? It would look so.

The steamer Marlborough, with quite a large party, went down the river last night on an excursion. Henry Anderson and John Davis, the first colored and the latter white, were sent to the Work House yesterday.

Look out for counterfeit money. Rogues are putting it in circulation in many of the neighboring towns and cities. We learn that there is a dangerous hole in the bridge over the Railroad, on Fourth street, which should receive attention.

The regular monthly meeting of the Mechanics' Building and Loan Association will take place at the Commercial Exchange this evening, at 8 o'clock.

Fashionables, be it ladies and gentlemen, now affect the Tennyson reversible cuff. Its distinguishing feature is a notched-off edge below the sleeve button.

Mr. Clark, the submarine diver, succeeded in bringing an anchor and chain to the surface yesterday, which had been lost in the river opposite the Custom House.

Our Fayetteville friends, Gols. T. C. Fuller and Wm. McL. McKay, and Majors James C. and D. G. McKee are now in the city, in attendance on the United States District Court.

Complaints are continually coming to our ears that proper attention is not paid to the lighting of the street lamps. If the lamp-lighters employ "nubs" to do their work, they must stir them up. If not, it is the duty of the authorities to stir the lamp-lighters up and make them a tend to their business.

Presbyterian Societies. We would again remind our readers that the second of the series of the Presbyterian monthly societies will be held at Masonic Hall this evening.

The Hall will be open at 5 1/2 o'clock for the benefit of children and others who cannot make it convenient to attend at night.

Colby Bros. & Co. Colby Bros. & Co., 508 Broadway, New York, keep one of the largest stocks of goods in their line in this country.

Schutzen Club. We learn that it is in contemplation of an early day to organize a German Schutzen Club in this city, similar to the one in Charleston.

Meeting of the Board of Commissioners of Navigation and Pilotage. A meeting of the Board of Commissioners of Navigation was held on yesterday, the 2d day of May, 1871, at the office of J. H. Chadborn & Co.

It was resolved that the matter of Pilots running regularly on steamers be postponed until the law is received on the subject.

It was ordered that the chairman call a meeting as soon as the law is received. It was moved that the chairman and clerk examine and approve bonds of Pilots.

The meeting adjourned subject to the call of the chairman. B. J. LAWTON, Clerk.

Can a druggist be considered the chief pillar of the State? "Do write and fear not," is what the girls say to their correspondents.

With all the titles cleared away, the Princess Louise is a mply Mrs. John Campbell. The woman who maketh a good pudding in silence is better than one that maketh a tart reply.

Never say anything to a lady about her dress and appearance. Sensible girls despise flattery, and no girl is sensible enough to take criticism graciously.

A gentleman, in describing the absurdity of a man dancing the polka, appropriately said that "it appeared as if the individual had a hole in his pocket, and was vainly endeavoring to shake a shilling down the leg of his trousers."

DEATH OF A DISTINGUISHED MAN. The venerable Charles Manly, an honored son of the State, and one of her former great Governors, died at his residence in this city yesterday afternoon at six o'clock, aged about seventy-five years.

Governor Manly was born in Chatham county, graduated at the University at Chapel Hill, in 1814, and studied law under Robert Williams. In 1848, he was elected Governor of the State on the Whig ticket, and in 1850, was by a small majority, defeated by David S. Reid, the first Democrat ever called to the Executive chair by the people.

For a long number of years, he was Treasurer of the State University, and has filled many positions of honor in private life. Charles Manly was a great and good man; and it has been long since North Carolina mourned the loss of a nobler son, or a people mournfully announced, one to another, the death of a more honored or loved fellow-citizen.—Raleigh Telegram.

SPIRITS OF TURPENTINE. Only six persons have been sent to jail in Newbern during the past month.

The receipts of North Carolina Cotton at Petersburg last week were 215 bales.

Weldon and Petersburg Railroad is to extend to City Point on the James River.

Only two whites and four colored persons died in Newbern during the month of April.

Newbern has an ordinance prohibiting the sale of oysters in that town until September.

The Charlotte Democrat says: We are informed by farmers that Wheat will be ready to cut this year 30 days earlier than heretofore. The crop bids fair to be fine and abundant.

On Sunday night a severe hail storm passed over Wrenton. Much damage done to vegetation; some of the wheat farmers report that their whole crops cannot yield a bushel of grain.

The following Councilmen were elected in Newbern on Monday: Thos. Gates, D. N. Kilburn, E. R. Stanley, Geo. Allen, Geo. S. Fisher, Isaac Aldridge, Messrs. Gates and Allen are Democrats, and the remainder Republicans.

A distinguished capitalist of this State has declared to the editors of the Raleigh Telegram his serious intention to put a road-steam and train of cars on the road from Raleigh to Wilson, and thence to Greenville on the bed of the old Greenville and Raleigh Plank Road.

The Raleigh Telegram says: Dr. W. H. Finlayson, the unfortunate gentleman alluded to in Sunday's Telegram as having escaped from his attendant while on the way to the Insane Asylum, was overhauled at Weldon on Sunday, and brought to the Asylum last night, where he now is under the kindly care and attention of the efficient Superintendent, Dr. Grissom.

Speaking of the election in Raleigh the Sentinel says: From the foregoing it will be seen that Col. W. H. Harrison beats the Radical nominees for Mayor 61 votes, and that in the Western and Eastern Wards the Radicals have elected their ticket by a bare majority, when the majority should have been nearly seven hundred. In the Middle Ward we have elected our straight-out old friend Simon Hayes, ahead of the poll, with a tie between another of our candidates and two of the Radicals. Glory enough for one day.

I beg leave to call the attention of the reader to testimonials in favor of the Schnapps. I feel bound to say that I regard your Schnapps as being in every respect pre-eminently pure, and deserving of medical patronage. At all events, it is the most palatable article of Holland gin, heretofore obtainable, and as such may be safely prescribed by Physicians.

LOUISVILLE, Ky., Sept. 1.—I feel that we have now an article of medicinal Schnapps that remedy is adapted to. DR. J. W. BRIGHT.

"Schnapps" is a remedy in chronic catarrhal complaints, etc. I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant, CHAS. A. LEAF, M. D., New York.

Under the WOLFE'S SCHIEDAM SCHNAPPS, I have made chemical examination of a sample of your "Schiedam Schnapps," with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirit. The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of Holland gin, and which are used to use myself, nor to recommend to others, for medicinal purposes, the "Schiedam Schnapps" as an excellent and unquestionable variety of gin. Very respectfully yours, (Signed) CHAS. A. SEELY, Chemist.

CHEMICAL AND TECHNICAL LABORATORY, 15 EXCHANGE PLACE, NEW YORK, Nov. 25, 1867.—UDOLPHO WOLFE, Esq.; Dear Sir: The undersigned has carefully and thoroughly analyzed a sample of your "Aromatic Schiedam Schnapps," selected by ourselves, and have found the same free from all organic or inorganic substances, more or less injurious to health. From the result of our examination we consider the article one of superior quality, healthy as a beverage, and effective in its medicinal qualities. Respectfully yours, (Signed) ALEX. TRIPPLE, Chemist, FRANCIS E. ENGELHARD, M. D.
