As will be seen, the terms are very reasonable. Man Drowned. Intelligence was received here yesterday of the death by drowning, at Smithville, of a colored man named Joe McDonald, better known by the appellation of John Bull.

He was the owner of a sloop called the Anna Bell, which he has been running for some time past between this city and Smithville, carrying freight and passengers. He left here on Thursday, and was in the act of leaving the wharf on the return trip yesterday morning early, with a number of passengers, when by some accident, he was knocked overboard by the boom of his vessel.

Every possible effort was made to recover his body, but without avail, and it is supposed that he was so stunned by the blow which he received that he immediately sank. Deceased was well known both in this city and Smithville, and was highly respected by all who knew him as a quiet, industrious and worthy colored man.

Since writing the above we have received the following, which corrects some inaccuracies in our report, our informant being evidently mistaken as to the time the accident occurred.

Mr. Editor - A most melancholy accident happened at Smithville last night (May 5th) at 8 o'clock, by which the community has lost a valuable citizen, whose place it will be hard to fill. Capt. John McDonald, of the little sloop Anna Bell, was knocked overboard by the boom as he was bringing his vessel to anchor, after having landed his passengers in safety, and his body has not yet been recovered.

Parties of men, both white and colored, have labored through the night and up to the present writing, without success, but it is thought the body will be found to-day or to-morrow.

Capt. McDonald was a colored man, well known in Smithville and Wilmington, and was universally respected for the honesty and industry with which he labored to support and educate his large family. He was liberally patronized by almost all citizens who had business and treated with large sums of money with perfect confidence, and has built up a good business by which he prospered.

No man, white or colored, was more respected, and a valuable testator may be learned from his career which many would do well to remember, viz: that color is no bar to prosperity, and that the people of the South will encourage honest industry and integrity, no matter in whom it may be found.

W. G. CURTIS, May 6th, 1871. The Poor House. We learn that several parties have expressed their intention of applying for the position of Superintendent of the County Poor House, to be made vacant on the 1st of June by the resignation of the present incumbent. It will be seen that the County Commissioners have advertised for bids for the maintenance of the County poor, which are to be handed in to the Clerk of the Board by Friday, the 19th inst.

Buy your clothing from David & Well. Personal. Our friend, Ernest Witts, Esq., of the Richmond (Va.) press, is in the city and favored us with a visit last evening. NEW ADVERTISEMENTS

QUIT DRUGGING. This is now admitted by the medical profession as a fundamental principle of healing science. It is wisely provided by the human economy that whenever anything is wrong in the physical system the natural forces of the body are brought to bear to expel the disease.

The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Serravallo's Stomach Bitters, which operates to give fresh vitality to all the organs of the body. The effect of this medicine upon the stomach, the liver and the kidneys, is prompt and decisive.

The patient, who is wise enough to quit drugging and try the Bitters, soon feels as if he had taken a new lease of life, and as he continues the use of the article, he is overjoyed to find the streams of health pouring through his frame. It is prepared with the greatest care, and its component parts are entirely vegetable.

It is free from the objections so often urged against preparations of this kind. As a medicinal agent it has no equal, while its pleasing flavor and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing and efficient.

All who have used Serravallo's Stomach Bitters attest its virtues and commend it. Even those who are in the enjoyment of perfect health, and who are desirous to have recourse to tonics as a preventive of disease, will be never too well satisfied against the assaults of the skin, especially of syphilis, or the health of sickness this tonic cannot be taken regularly without giving vitality and elasticity to the system.
