Almost Here.

The 4th of July is rapidly approaching, but as yet we hear of no preparations being made to organize the usual excursions for that day. We hear the wish frequently indulged in that the Friends of Temperance may find it convenient to have their usual excursion to Waccamaw Lake, which for several years past has been a source of so much pleasure to those who have participated in them. Others anticipa.e much enjoyment on the steamer Waccaman, which will then be running regularly between this place and Smithville.

ture for Fever and Ague.

The following appears as a leading editorial in the Cleveland Herald, and we give it for what it is worth;

"We wish to give a very simple remedy for fever and ague, and wish to emphasize it by saying that it has, to our knowledge, proved very efficacious. It is simply common sait. A teaspoonful taken in water, and a teaspoonful deposited inside each stocking, next the foot just as the chill is coming on. That's all there is of it; but knowing that it has been very efficacious in "breaking" a chill and perfecting a cure, we put it in our editorial columns, where no humbug remedy shall ever find a

Sudden Death.

It is with regret that we chronicle the sud den death of Wm. S. Anderson, Esq., which occurred in this city yesterday morning. Mr. Anderson was an old and highly respected citizen of Wilmington, and had been long and lavorably known as junior member of the firm of Brown & Anderson, jewellers of this city. His death has caused a wide-spread feeling of heartfelt regret in the community, of which he had so long been a cherished member, and of sympathy for his bereaved family and relatives. His funeral will take place this morning, a

A Huge Potato.

From Colonel J. D. Powers, who resides at Duplin Road, we have the finest specimen of the Irish potato which it has ever been our pleasure to look upon, said potato weighing 18 ounces. That gentleman informs us that in on one stem growing out of the ground. Can Raleigh and Newbern venture so much as s word on the potato question!

St. Paul's Institute.

The first annual examination and commencement exercises of the above Institute took place at Masonic Hall last evening before a large and highly appreciative andience, composed principally of the friends and patrons of the school.

At the commencement a committee of four gentlemen were selected by Prof. Rueckert from the audience to act as a Committee, who upon the close of the examination expressed themselves highly pleased with the gratifying evidences of proficiency in the various branches of study attained by the pupils. This was particularly the case in regard to their progress in German, which was shown to be rapid and thorough. The feats of declamation were a noticeable feature of the evening, the "Conviet's Dream" attracting special admiration. The compositions prepared by the young lady pupils were pronounced very fine, reflecting much credit on all concerned. The exercises of the evening were interspersed by vocal and instrumental music, which added much to the attractiveness of the exhibition. Everything passed off pleasantly and to the entire gratification of those present.

A few days since we published an item from the Hillsboro Recorder to the effect that a man by the name of Jasper Turner, a tobacco peddler, had been murdered in Duplin county. Also that there was a little boy in the wagon with him, but that neither the boy, the wagon or the horse had since been seen or heard of. Yesterday we were reliably informed that Mr. Turner, so far from having been murdered, was seen as late as Saturday last, at Warsaw, in Duplin county, by several persons who had mentioned the fact to our informant, in the enjoyment of excellent health and the pursuit of his usual avocation.

The Examination will occur on the 28th. The Literary Address will be delivered by Rev. A. K. Murchison on the 29th, at 11 A. M The exhibition will take place on the 29th,

RIVER AND MARINE NEWS. THURSDAY, June 15.

- We are glad to learn that the buoys which were, for some cause or other, removed from a source of much inconvenience to mariners, are soon to be replaced.

- The Cape Fear is reported in good boating order, with a slight rise in the river at Fayetteville.

RIVER DISASTER.

Yesterday evening, about 816 o'clock, as the steamer Cumberland was on her downward trip, and when about six miles from this city, one of her cranks suddenly gave way, causing the piston to carry away both heads of the port engine, rendering it entirely useless, and eausing a delay of about one hour and a half in reaching the city. Capt. Phillips informs us that the engine is an entire wreck and the George Wright, assault and battery, 12 steamer will probably be laid in for repairs about four or six weeks. The accident is entirely attributable to imperfect work in building the machinery, a flaw being plainly perceptible in the crank where the breakage took place. The accident resulted in no injury to any one, beyond a slight scald one of the men received on his arm, though of course a little commotion was caused at first before the extent of the injury was ascertained.

Artificial Sperm THE UNDERSIGNED, a practical manufacturer, has for the past 12 years experimented with and compounded LUBRICATING OIL. He has succeeded in producing an Oil which has withstood every test, and warrants it not to heat or gum, and as durable as the best of Sperm. The best judges cannot tell it trom the latter oil, either by sight or smell, as it is almost transparent. He warrants every gallon; and it may be returned, at his expense, if not satisfactory. Actual experiments has demonstrated the fact that one oiling with Hall's Sperm is as good as two with

This Oil is especially adapted to the use of Locomotives, as it is a very clean oil. If railroad officers will notify him, he will forward 5 gallons free of all charge, if they will give it a fair test, as he is satisfied that his oil has no
