Serious Accident from the Explosion

of a Can of Kerosene. Yesterday evening, about half past 7 o'clock while the inmates of the "Academy of Our Lady of Mercy" were in the chapel at prayers, a colored woman, by the name of Rose Jenkins, employed on the premises, went into the kitchen and was in the act of filling a lamp from a can of kerosene, when the can took fire, either from the stove or from the burning lamp, and exploded, making a report like the firing of a gun. The clothing of the woman took fire when she ran out of the kitchen and thence through the house into the street, a distance of about seventy-five yards, the fire by this time blazing so high that some gentle men a few squares off, when they first discovered her, were under the impression that it was a burning tar barrel. Her screams in the meantime attracted a large crowd and the fire was finally extinguished by the aid of a blanket and rug which were wrapped around her. The unfortunate woman was very badly burned, especially from the waist downward. Her arms were also severely burned, the skin peeling off and hanging in shreds. Drs. Thomas and Noreum were called in and administered medical aid, the sufferings of the poor woman entire present stock of Dry Goods, Clothing. In the meantime being terrible in the extreme. She is represented to be in a critical condition, but some hope is entertained that she may recover. The affair created much excitement in by calling on me before buying elsewhere, as the neighborhood. The accident was no doubt the result of carelessness.

8. Van Amringe, Superintendent of the County Work House, was granted permission to work the convicts in the quarry at Rocky

The School Committee of Federal Point Township were authorized to levy a tax of 45 cents on the one hundred dollars valuation of property and \$1 35 on the poll, for the purpose of building a school house in said township.

The Chairman of the Board, was authorized to make some arrangement with the auditor of the State for payment for the support of the insane of the city of Wilmington and county of New Hanover.

Adjourned to meet on Monday, July 3d.

Cape Fear Academy.

The leature of yesterday's examinations w the fine display made by the Senior class in Mathematics. General Colston, in the pressence of several gentlemen, themselves competent mathematicians, carried the class through a searching, analytical examination of several hour's duration. The result was a notable indication of the careful training and thorough instruction given at the Academy. The young gentlemen have a right to be proud of their handsome achievements in a branch of study confessedly difficult.

In addition to the class in Trigonometry and Surveying, classes in French, History and Geography were also examined. The examinations will continue during Monday, Tuesday and Wednesday. The invitation to the public to be present is renewed.

Colored Excursion to Abbottsburg. The following is a list of colored Associations, Societies and Companies which will participate in the grand excursion to Abbottsburg on the 4th of July, and which we are requested to give a place in our columns: "Ladies' Co-operative Association; Ladies' Aid Circle; Union Daughters of Allen; Rising Sun; Rising Star; Daughters of Zion; Daughters of Ebenezer; Daughters of Clinton; Union Club; Sons of Zion; W. E. Club; W. R. C. C. Club; Sons of Lavender; Sons of Seaton; Capt. James Bradley's Cadet Company; Capt. Love's Cadet Company."

Grand Family Excursion.

The announcement is made in advertisement this morning, of a grand excursion on the 4th of July to Smithville and Fort Caswell, and we have no doubt but that the trip will be honored with the presence of a large company of people. It is gotten up with particular reference to the accommodation of families; the management have banned King Alcohol, and with music, dancing, the air of the sea-side, and abundant toothsome comforts, we may safely anticipate that the excursion will be a decidedly pleasant one.

Coming to Wilmington.

We learn that a dispatch was received in this city yesterday to the effect that fifteen hundred people were expected to come from Charlotte on an excursion to this city on the 3rd of July. This includes, we suppose, the number that will join in on the route. The most of the colored residents of the city have made arrangements to leave on the morning of the 4th for other points, so it is probable the excursionists will meet with a slim reception.

Health of the City. JA 10. We heard a distinguished physician remark esterday that Wilmington is now the healthst town in the State. He says there is very little sickness here at present, and he further declared that June, July and August, which were formerly considered the sickliest months in the year, have now become to be the healthist. Our up country friends, who are under the impression that Wilmington is an unhealthy place at this time of the year, should make a note of this fact.

Commencement Ball. Our thanks are tendered to Masters S. P. Cowan, J. S. Thomas, Wm. B. McKoy, Robt. Strange and Wm. L. Harlow, Committee of Arrangements, &c., for an invitation to attend the Commencement Ball of the Cadets of the Cape Fear Academy, to take place at City Hall on Thursday evening, the 29th inst. We are requested to state that all ex-Cadets are respectfully invited to be present.

A New Feature.

The attention of our readers is called to our Field and Fireside" department, on third page. This will form an attractive feature of the STAR, and will be continued as long as we have space for it.

Upon being informed the war was ended about six years ago, he concluded to abandon his hiding place and return to the old plantation where he found many changes since the commence-ment of the rebellion. THE UNIVERSAL SAFEGUARD. It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation, which depends for its enforcement upon the will of the individual, is suffered to remain a dead

letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of Hostetter's Stomach Bitters, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of nerves, a general invigorant, a protection against the deleterious effects of malaria and impure wa deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility of in consequence of exposure to unwholesome influences, is in paril of losing the greatest of all temporal of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, health, the importance of using the Bitters as a defensive medicine. Dyspepties who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and yroprietary medicines which will afford them the same relief.
