Academy of Music.

The soirce of the season of the Academy of Music, under charge of Prof. Rueckert, will come off at Masonic Hall this evening. A rich treat is in store for those who attend.

Assault and Battery.

A white man by the name of Calvin Blackburn, charged with making an assault upon a female by the name of Jennie Eason, on Saturday night, was arrested yesterday and lodged in the Guard House. He will probably have a hearing this morning.

City Court.

The following cases were disposed of yester-

Charles Capps, charged with quarreling and fighting with Ransom Perkins, was found not guilty and discharged.

John Leahey, charged with drunkenness on the streets, was found guilty and required to pay the penalty and costs.

Lost or Mislaid.

We saw yesterday a disconsolate colored man, by the name of B. T. Shepard, hailing from Topsail Sound, who stated that his daughter, aged about 14 years, ranaway from her home on Wednesday last and he has since been unable to discover her whereabouts. He was giving the city a pretty thorough search, yesterday, and it is to be hoped that his efforts were finally rewarded with success.

Star Book Bindery.

The attention of the public is called to the superior facilities we now have for executing cheaply, promptly and skilfully all kinds of Binding and Ruling. Our business in this department has steadily increased, an evidence that we have not labored in vain in our effort to establish a Book Bindery equal to the demands of our growing city. But we are determined to do still more; and as our business grows so will our facilities be increased. Give us a trial.

Relies of a Past Generation.

While workmen were engaged a few days since in digging out the cellar preparatory to the crection of Mr. W. A. French's dwelling, on Fourth street, they came across a male and female skeleton, the hair of the latter, which was about two and a half feet long, still adhering to the skull and in a remarkable state of preservation. We learn that the locality alluded to was at one time used as a pauper burrying ground, which will account for the presence of the ramains. OP SINGS BY

Cape Fear Academy.

Examinations at this institution are still progressing, and the public are still invited to witness the evidences afforded by these examinations, of the thorough instructions given to the youth of Wilmington. On yesterday examinations of classes in mathematics and history were conducted, and during the interval from 9 o'clock until 3 the cadets were subjected to a severe ordeal, which they passed most handsomely.

Examinations will be continued during today and to-morrow.

Situation Wanted. If you want a situation, advertise in our new department, under head of "Wants," at half our regular rates, for advertisements not exceeding five lines.

Advertising for the People.

We would call the attention of the public to the Monning Stan's charges for short advertisements, especially for the accommodation of the growing demand for the publication of brief notices such as "Wants," "To Let," "For Sale," etc. Most advertisements of this character can be reduced to five lines space, and the charge for them being but half our regular rates when paid for strictly inadvance.

This offers increased inducements for servants wanting places, for families wishing domestics, for farmers having a horse, or a cow, or an old wagon for sale, landlords wishing tenants, and tenants wishing landlords, to use the Morning Star as a medium for communicating with their several but unknown cus-

Storekeepers can also make equal avail of these rates for short advertisements, to invite public attention to any spe lalty in trade, or any change in their places.

The use of the daily newspaper, as the agency for communication between people of all classes, is constantly increasing, and illustrates one of the ways in which modern civilization is saving time, labor, and money, in carrying on the business of life.
