## A Nuisance.

A number of families on Seventh street were considerably annoyed and their rest broken by a colored "watch night," held in that neighborhood on Saturday evening last, the exercises commencing about midnight and ending about daylight. These meetings are held at various points in the city, oftentimes disturbing not only the rest of those who daily toil for their living and who require rest at night, but also the sick; and some effort should be made to break them up.

We do not wish to deprive the colored people of their spiritual privileges, but the rights of others should also be respected. We can see no reason why the colored people, who have their own churches and many of whom control their own time, should be allowed to hold services after 10 o'clock at night or bethose exercises consist of praying as if the Almighty was a thousand miles off, screaming, jumping, and such bolsterous exercises as disturb the whole neighborhood, and which, in some instances, have considerably frightened persons who, being suddenly aroused by the

noise, imagine that it is a fire or riot near by. tention to it, hoping that the city authorities as well as the pasters of the colored churches, will unite in stopping it.

# Am usement Ahead,

Mr. George Sinclair, Agent for Prof. McAI. lister's "Great European Combination," was in our city yesterday and informed us that this Company would visit us and exhibit in the Theatre on the nights of the 17th, 18th and 19th of July. Among the novelties are a female ventriloquist, a lady sleight of hand performer, Herr Dobbler, in his great award feats, Ballzieg, the wonderful Chrystalophian, the two twins, Masters Tommy and Charles, in specialties of their own, &c. As there has been a perfect dearth of amusements in Wilmington for some months past and the "Great European Combination" would seem to afford so Sething more novel and entertaining than the average of shows. We have no doubt that they will reap a harvest of greenbacks.

## A Ballast Sidewalk.

ist

We understand a number of property holders and tax payers, residing on Seventh street, intend petitioning the Board of Aldermen for the erection of a ballast sidewalk on said street, the cost of same to be paid by assessing the owners of property interested. The side running on the east side of Seventh street to Walnut and thence on the West side of seventh street for some two or three squares. This is House. a move in the right direction and it is to be hoped that the lot owners on both sides of the street will also set out oak trees and thus give streets in the city.

# Cure for Heat.

At this season many persons suffer terribly from the eruption called prickly heat. familiar is it that all persons know it. It is caused by the solid perspirable matter not passing off in a dissolved state, as should be the case. It is easily cured in one day by using the warm bath for ten minutes, then rubbing the affected part with lemon juice. The warm water dissolves the salts that are lodged under the skin; so does the lemon juice. When the eraption stings and burns, lemon juice rubbed on the part affected will give relief in a few moments. Possibly, strong apple vinegar might act in the same way. Persons who cannot get lemon juice might use nitric acid dis solved, twenty grains to an ounce of water.

The performance on the guitar by Miss Mary Lippitt, with a vocal accompaniment by Miss Lippitt and Miss Lily Davis, was decidedly charming. A beautiful air sung by three little girls, Miss Drane and two little Miss VanOrsdells, neither of them being more than five years old, was beautifu and effective. Miss Davis Lippitt sang a humorous song-The Gay Young Widow-with much effect and was highly applauded. Altogether it was a very pleasant affair and the audience were loud in their praises of the little ones for the creditable manner in which every thing passed off.

The walls of the room were decorated with the beautiful drawings and paintings by the lar schools and which attracted much attention.

Tosta very naturally remonstrated, when Custiss turned upon and assaulted him with the razor, inflicting several serious and probably fatal wounds. The wounds were inflicted in the breast, neck, eheek, and arms, and the poor man, who has the reputation of being quiet and inoffensive, presented a ghastly appearance. Tosta was taken to the office of Dr. Duffy, who examined the wounds and pronounced them dangerous. He was taken to the Marine Hospital and placed in charge of Dr. H. G. Bates.
