June 13, 1871. WM. H. BERNARD.

From Robeson.

There was no news of importance yesterday relative to movements in Robeson county, farther than the fact that there was a force of from one hundred and fifty to two hundred at Bule's Store, the headquarters of the Sheriff's party. All quiet at last accounts.

Can't Attend.

We learn that Maj. C. W. McClammy, who was to address the citizens of Point Caswell and vicinity on Friday, on the subject of Convention, will be unable to fill the appointment in consequence of other engagements.

Horse Bonnets.

These serviceable articles, for protecting horses' heads from the burning rays of the sun, are coming into pretty general use in this city.

Alarm of Fire.

The alarm of fire yesterday, about 12 o'clock, was caused by the roof of a small house between Sixth and Seventh streets, igniting from a spark.

The Fair.

Our friends throughout this section of the State are reminded that the second annual Fair of the Carolina Horticultural Society, of which Col. Walter L. Steele, of Richmond county, is President, is advertised to come off in this city on Wednesday next, the 19th inst.

A Sensation.

No little excitement was created in the immediate vicinity of Fourth and Church streets on Monday afternoon by the finding of a small glass jar or bottle in the street at that point, containing two human thumbs.

Local Notes

— Soapens are valuable to promote the growth of grape vines.

— A white female patient was sent to the City Hospital yesterday.

— The thermometer was only 93 in the STAR office yesterday at noon.

— Judge Gantwell being indisposed, there was no session of the City Court yesterday morning.

— There was a decided change in the atmosphere yesterday afternoon, with a descent of the mercury to 80 degrees.

— We learn from a gentleman from Point Caswell that there has been no rain in that vicinity to do any good for the past month.

— Rev. W. M. Robey, the talented President of Davenport Female College, formerly stationed in this city, spent last Sunday in Charlotte.

— Rain was again threatened, yesterday afternoon, but hardly a sprinkle rewarded the eager expectants, who would have been delighted with a generous shower.

The Fire Alarms

If some better arrangement cannot be made to insure the sounding of the fire alarm, properly, so that the location of the district in which it occurs can be understood, it will be decidedly preferable to go back to the old system and depend entirely upon the ringing of the Market bell.

Meeting of German Citizens

We are requested to announce the fact that there will be a meeting at Rung's Hall this evening, at 8 1/2 o'clock, of such of our German citizens as have expressed a determination to go into the movement, for the purpose of forming a German Association.

Fashion Doth.

High English cut-throat collars are generally creeping into fashion among our metropolitan belles and beaux. They are not coming to those having extravagantly long necks.

Enterprising

We learn that Capt. R. P. Paddison, whose indomitable energy is worthy of all praise, having decided not to depend upon the Cape Fear Navigation Company, has organized a navigation scheme on his "own hook."

Murder in Robeson

We learn from passengers who came down on the Wilmington, Charlotte and Rutherford Railroad yesterday, that a difficulty occurred at Scuffletown, Robeson county, on Tuesday, between Sherrard Locklear and Wm. Golins.

THE LOWREY GANG.

Arrest of Pop Oxendine—He is Lodged in Jail in this City—What He Says of Himself, &c.

Mr. Cyrus S. Renno, of Richmond county, arrived in this city yesterday afternoon, having in his custody the person of Pop Oxendine, a younger brother of Henderson Oxendine, who was recently hung in Robeson county, and of Calvin Oxendine, who is confined in our county jail awaiting trial for complicity in the various depredations committed in that county before his arrest and incarceration.

Pop Oxendine, it will be remembered, succeeded in breaking out of Lumberton jail some months since, having no doubt been assisted in his escape by Lowrey and his gang, as was asserted and believed at the time.

Since that time he has kept clear of the clutches of the law, and nothing had been heard to indicate his whereabouts. About a week ago, however, he made his appearance at or near Powhatan, Richmond county, where he was engaged in the work of getting staves.

This fact having come to the knowledge of Mr. Renno, he took a neighbor with him yesterday morning, went to the place where he was at work, which was in the woods about a mile from Powhatan, and succeeded in capturing him, the prisoner making no attempt at resistance.

Mr. Renno started immediately for this city, where he arrived yesterday afternoon and lodged the prisoner in jail. Oxendine states that after escaping from Lumberton jail he made his way into South Carolina, where he worked, in the neighborhood of Cheraw, until about a week or ten days ago, when he went to Richmond county, intending to work his way up towards Rockingham and thence Westward.

He is very positive in his assertions that he has had no connection with Lowrey's gang, either before or since his escape from jail, and declares that he has had no communication with any of the members so as to be posted as to their numbers or intentions.

Pop is a stout, thick-set mulatto, about five feet six inches in height and is some 21 or 23 years old.

Oxendine is one of the party outlawed by the Governor and for whose capture a reward was offered, he being charged with implication in the doings of the Lowrey gang.

Since writing the above we are in receipt of the following from a friend in Richmond county:

POWHATAN, July 13, 1871.

EDITOR STAR: Pop Oxendine, alias Jim Cumbo, was arrested at this place very soon this morning and is now on his way to Lumberton, from whence he came via South Carolina.

He was in company with a young Lowrey, who also assumed the name of Cumbo, that belong their mother's maiden name. They had been here about a week, working in the woods, but were soon detected and arrested.

From the direction that they came (South Carolina), I presume they intended to make their way to Robeson county by way of Richmond and Cumberland counties; but alas! they missed the route.

Young Lowrey was not disturbed, but no doubt should have been taken along, as he may give information which may lead to mischief.

IF PEOPLE WHO SUFFER from the dull stupidity that meets us everywhere in spring, and too often in the use of a Baking Powder which combines purity, strength and reliability. Dooley's Yeast Powder has attained the deserved reputation of being economical, convenient and wholesome, besides which it will produce from a barrel of flour twenty-five to forty pounds more bread, rolls, &c., than by the old process of raising dough with bakers' or hot yeast. Here alone is a real saving, and authorizes the guarantee that it will give entire satisfaction. [Tu Th Sat]

Economy in the Kitchen

Prudent housekeepers are ever on the alert to practice economy in the culinary department. In no way can this be done more effectually than in the use of a Baking Powder which combines purity, strength and reliability. Dooley's Yeast Powder has attained the deserved reputation of being economical, convenient and wholesome, besides which it will produce from a barrel of flour twenty-five to forty pounds more bread, rolls, &c., than by the old process of raising dough with bakers' or hot yeast. Here alone is a real saving, and authorizes the guarantee that it will give entire satisfaction. [Tu Th Sat]

HALL'S Artificial Sperm.

THE UNDERSIGNED, a practical manufacturer, has for the past 12 years experienced with and compounded LUBRICATING OIL. He has succeeded in producing an Oil which has withstood every test and warms it not to heat or gum, and as durable as the best of Sperm. The best judges cannot tell from the latter oil, either by sight or smell, as it is almost transparent. He warrants every gallon; and it may be returned, at his expense, if not satisfactory. Actual experiments have demonstrated the fact that one oiling with Hall's Sperm is as good as two with any other oil.

This Oil is especially adapted to the use of Locomotives, and is a very clean oil. If railroad officers will notify him, he will forward 5 gallons free of all charge, if they will give it a fair test, as he is satisfied that his oil has no superior.
