## The Street Cars.

It should be understood by the public that for the present the street cars suspend operations during the day from 11 to 12:20 o'clock and from 3 to 4:20 o'clock. This is repdered necessary, we presume, to give the horses a brief respite during the heat of the

## City Court.

The following cases were disposed of yesterday morning :

On Monday evening last, July 10th, at his residence in Ouslow county, near the Folly Store, as we are informed by a friend conversant with the facts, Mr. Jonas Jones, a highly estermed citizen of the county, was struck by lightning, while sitting in his door, and in stautly killed. At the time of the occurrence there was no one in the house except the lit tle on of deceased, aged about seven years, who was lying on the bed about four or five feet from his father, who escaped uninjured. The sad calamity is deeply deplored by the many friends of the family in the vicini.y.

## Hotel at Smithrille.

We are requested to state tout all the mate rials necessary for building a good hotel at-Smithville will be taken to that place on the steamer Waccamaw free of charge, provided any one shall conclude to invest in this very desirable and profitable enterprise. That it would be profitable in a pecuniary point of view to the one who undertakes it we have not the slightest doubt. The want of proper accommodations for any considerable number of visitors to the sessbore is deterring many a family from passing the heated term at Smithville. Let some of our capitalists come forward at once and take hold of the matter with bound to succeed. A first class hotel is now

- No news from Robeson county yesterday. - Watermelons are getting to be abundant - Flounders were plentiful in market yes-

- The crops in Onslow are said to be better and promise a finer yield than at any time since the war. A liftle rain, however, is very desirable just now.

- To keep lemons for lemonade, slice them when perfectly fresh, and pack the slices in glass jars with a thick layer of fine white sugar between, and they will keep good one year.

-A most excellent old lady up town is much exercised in mind to know how it is that a little quicksliver in a glass tube can make such awful hot weather by just rising it an inch or two.

- John A. Henderson, colored, his wife being pronounced out of danger, was released on bail yesterday. He will probably have a hearing this morning. This is the party whose assault apon his wife we alluded to last week.

## Death from Neglect and Exposure.

We learn that a colored man, who stated that he was from somewhere in the neighborhood of Florence, S. C., was taken sick on the op osite side of the river two or three days ago, and, having no other place to go to, has since been lying under the railroad shed, his only bed during the time being a hard plank, which he occasionally changed for a berth on the naked ground. He was suffering intensely from brain fever or some such disease, and yesterday some of the workmen asked if he would not have a physician or something to cat, both of which he declined, saying that he had ate nothing since he was taken sick. This was about 12 o'clock, and about 20 minutes before 6 o'clock he breathed his last, his death being no doubt in a great measure superinduced by neglect and exposure. It is sad to a human being to die away from home and friends, with none but strangers to stand by his bedside, but it is sadder still to die like a hog, with no hand to smooth his passage through the "dark valley."

## A Suggestion to Sweepers.

We are glad to see that those whose duty it is to sweep the street crossings at the corner of Front and Market have adopted the suggestion so often made in the city papers, and now sprinkle them well with water before sweeping. We now hope they may be inluced to sprinkle the rock pavements between the Market House and the sidewalks before subjecting them to the same operation, as merchants complain that the dust arising from the street goes into their store doors and alights on their goods, thereby proving quite an annoyance. There is a good pump convenient and it would be but little trouble to wet the pavement before sweeping.

## A Permanent Landing Place.

The agents of the Steamer Waccamaw are pleased to announce that they have finally succeeded, after much effort, in securing a permanent wharf for the landing of their steamer, and that from and after Saturday next she will land and depart from the wharf immediately in front of Messrs. James & Meares' office.

### "Opening the Campaign."

We learn that the Rads have quite a number of meetings in the country round about today. Sheriff Schenek went off "cocked and primed" yesterday afternoon, his outfit of horse-feed, blankets, etc., which were stowed away in his buggy, giving him the appearance of an itinerant minister on his way to fill a number of backwoods appointments or hold a protracted meeting, but for a suspicious looklog article vulgarly known as a "jimmiejohn," which was slightly perceptible to the eye of curious observers. The contents of the article aforesaid will doubtless have con. siderable effect in determining the status of certain sovereign voters in se Lincoln Township, to which it was understood the Sheriff was hastening on to many your visit

Meeting of German Citizens. In accordance with the notice given in our paper yesterday morning, a meeting of German citizens was held at Rungels Hall last evening for the purpose of forming an association, the designs and purposes of which will be fully explained hereafter. Suffice it to say at present that an organization was effected and that a full report of the proceedings will appear in Sunday's STAR.

Horrible. Strolling up Third street, yesterday evening, we passed two "unbleached domestics" of the feminine gender, one of whom was remarking to the other: "They tells me that the scarlet fever is in town; and I hears, too, that the Ku Klux is killing lots of people up in Robeson county and they are gwine to come here before long. What's to become of us all?" We failed to hear the response to this anxious in
