## WILMINGTON, N. C., SUNDAY, JULY 16. 1871.

### Meeting of German Citizens.

At the meeting of the German citizens of . For the convenience of families we give the this city, held at Runge's Hall, on Thursday following list of prices for articles in the mar evening last, Mr. Eduard Pesehau was called to the Chair and Mr. P. Heinsberger requested to act as Secretary.

On motion, a cammittee of thirty was appointed to request all the Germans of this city to attend the next meeting.

On motior, a committee of two-consisting of Messrs, John G. Bauman and W. H. Gerken was appointed to open a correspondence with other German Associations of a like character iu other cities.

The meeting then adjourned, subject to a call of the Chairman.

We learn that another meeting will be held during this week, when a permanent organization will be effected.

#### Stolen Goods Recovered.

A dry goods and clothing merchant, on Market, between Front and North Water Street, by the name of Cohen, having missed a number of articles from his store from time to time, finally concluded to issue a search warrant yesterday, which was placed in the hands of Constable Sellars. In a short time that energetic and indefatigable officer succeeded in tracing up the missing goods, which were found in a drinking shop on South Water Street, between Orange and Ann, known by the appellation of "Our House at Home." The stolen goods were stowed away in a large trunk and a valise and amounted in value to about \$150 to \$200. We learn that a clerk in the store, who is still at large, is implicated in the robbery.

From the Work House to the Jall. Adam Woodberry, colored, was arrested yesterday on the charge of forcible trespass, and was committed to jail, in default of security in the sum of \$50, to await an examination before Justice McQuigg on Monday morning. Adam got his discharge from the Work House on week for the benefit of the First (col.)-Baptist Friday and Saturday finds him in durance vile Church, located on the corner of Fifth and again, very much to his disgust. In fact he was so indignant at the turn of affairs that he swore he wouldn't be locked up, and showed his discharge from the Work House to prove the absurdity of arresting him again. He finally came to the conclusion, however, that discretion was the better part of valor, though he gnashed his teeth when Nash turned the key on him.

#### THE LAWLESS LOWREYS.

Great Excitement in Robeson County-Further Confirmation of Lowrey' Threats.

· Correspondence of the Star.

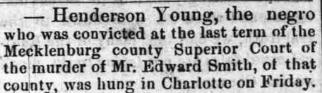

LUMBERTON, July 14. Editor Star :- The excitement in this county is greater and more general than it has been since Lowrey and his gang of outlaws began operations. Yesterday morning they, fifteen in number, took breakfast with John McNair fourteen miles from here; they also took dinner at James D. Bridger's, on yesterday, thirteen miles distant. By Mr. McNair they sent a letter to the Sheriff stating that unless their women and wives were released by Monday next they intended to drench the county in blood and ashes. Mr. McN. delivered his dispatch to the Sheriff, who went up the road soon after. They will not, however, be released, and we will probably have worse times than ever before in this county. Nothing new to-day. In haste.

Yours truly.

### LIST OF LETTERS

Remaining in the City Post Office, July 16, 1871:

B-Carrie Benton, Hannah Bland, Jas F Brockett, Jackson Byrd, Moses Biggs, Maggie ooks. Monsieur Bendinger, P N Bremen,

- The Raleigh Sentinel says : There is a man in the eastern portion of this State who has not washed or put on a clean shirt for ten years. He is a "black republican" and said to be related to U. S. Grant.

- The Newbern Times says: The scene of the terrible lightning accident was yesterday visited by great numbers of people, who were anxious to see the ravages committed by the fatal electrical stroke. The sad event was the important topic among the colored people, a large crowd of whom followed the victims to their graves yesterday afternoon, when the funeral took place.

### NEW ADVERTISEMENTS.

#### MIDSUMMER MALADIES.

The hot solar rays that ripen the harvests generate many distressing diseases. If the liver be at all predisposed to irregularities. this is the season in which bilious attacks may be anticipated. A weak stomach, too, is weakest in the summer months, and the loss of vitality through the pores by excessive perspiration is so great, that a wholesome tonic, combining also the properties of a diffusive stimulant and gentle exhilarant, is in many cases necessary to health, and under no circumstances should be dispensed with by the sickly as d debilitated. Of all the preparations intended thus to refresh, sustain and fortify the human frame, there is none that will compare with Hostetter's Celebrated Stomach Bitters. They have been weighed in the balance of experience and not found want-ing; have been recommended from the first as a great medicinal specific, not as a bever-X. age, and in spite of interested opposition from innumerable quarters, stand, after a twenty years trial, at the head of all proprietary medicines intended for the prevention and cure of all ordinary complaints of the stomach, the liver, the bowels, and the nerves. In the unbealthy districts bordering the great rivers of the South and West, Hostetter's Bitters may be classed as the standard one for every species of intermittent or remittent

## Artest of Juvenile Thieves.

Four colored boys werearrested by officer W. H. Howe, yesterday, charged with stealing a number of articles, as it would appear, from Messrs. S. Bear & Bros., on Market street. It was only by accident that the officer became aware of the theft. He happened to discover a couple of boys fighting near Burch's Alley, on Second, between Orange and Ann streets, and upon approaching them they took to their heels. He gave chase to them until they arrived near the corner of Nun and Third streets, when they rushed into an open gateway and attempted to jump a fence. But just here one of the boys, fearful of being captured, took a number of pocket knives (as he thought very slyly) from his pocket and attempted to of the citizens has been made since our last. throw them where they would not be discovered; but he was detected in the attempt and then the officer fully understood the character of the boys he had to deal with. He finally succeeded in arresting all four of them, and also in recovering the articles stolen, among which were a lot of pocket knives, several bundles of socks, a los of combs, a number of packages of papers of pins, a quantity of jewsharps, &c. Some of the articles were found on the persons of the boys, and some under a house in Taylor's Alley, between Second and Third streets. We could learn the names of only two of the precedious youths, which were Sylvester Price and Sam. Clew, the former being an old offender. They were all four lodged in the Guard House and will have a hearing, we presume, to-morrow. A certain shop-keeper on Second, between Market and Dock streets, is implicated in the matter, he having purchased some of the stolen articles, and as it is not his first offence of this character he will probably be called to account.

#### Sheriff Schenck on the War Path.

Sheriff Schenck is on the war-path against Convention. On Wednesday last, a friend informs us, he made a speech at Topsail Sound, in Grant Township, during which he informed his hearers that if Convention was carried their houses would be burned over their heads at night by the white citizens in their midst. He also stated that if the friends of Convention were to succeed in their efforts to carry the measure successfully through it would be put down by the force of arms and that President Grant would endorse this action on the part of the opponents of the movement. With such groundless assertions as these he regaled the assembled crowd of colored people, there being only four whites in the small audience. Our informant states that the Sheriff tried to keep the proposed meeting secret from the whites, but pretended that he was very sorry that there was no one to reply to him.

Arrangement of Flowers in a Bouquet.

In grouping flowers, complementary colors as far as possible should be placed side by side-blue with orange, yellow with violetred, and rose with green leaves. On the contrary, we should avoid combining pink with scarlet or crimson, orange with orange-yellow, yellow with greenish yellow, blue with violet or violet-blue, red with orange, or pink with violet. If these are to be inserted in the same nosegay, white should be interposed between them, as it prevents colors from acting injuriously upon each other, while it heightens their tone.

#### From Robeson.

The news from Robeson yesterday was very meagre. No forward movement upon the part Our only intelligence is to the effect that Sheriff McMillan has made an application to the counties of Bladen and Columbus for assistance. We also learn that about thirty men were sent to Bule's Store, y sterday, in addition to those already there, but whether they are to act in the capacity of reinforcements or a re ief, our informant was unable to state.

#### High-Handed Proceedings.

We hear of a certain Radical magistrate in this county who recently tried a case of petty larceny and sentenced the defendant to thirty days in the Work House, and to remain there until he had paid the fine and costs of the suit. If this is not sufficiently high-handed we would like to hear from some other magisterial dignitary who can beat it. What use is there of Superior Courts and Judges if cases like this can be disposed of by petty Justices of the Peace ? 100.0

#### Another Excursion.

Our citizens will be glad to learn that the Waccamaw has been chartered for a select family excursion on Wednesday next, similar to that given on the 7th inst.

We see no reason why excursions of this character should not be gotten up once or twice a week, as the boat is offered on liberal terms.

#### Mosquito Factories.

The following, elipped from the Norfolk Journal, applies here as well as in that city: There certainly ought to be some law against the "mosquito manufactories" that exist everywhere in the city in old tubs and barrels. When these receptacles become filled with animalcule, that generate faster than vapor, they should be emptied, and the embryo mosquitoes destroyed, and people who neglect the r own health and comfort in a matter so important to themselves and the public at large should be amenable before the law.
