WAR DEPARTMENT, Office of Chief Signal Officer, Washington, July 18-4:85 P. M.

Probabilities.

It is probable that the barometer will continue low in the Gulf States, with increasing southerly winds and rain from Louisiana to West Virginia, and eastward to the Atlantic. Falling barometer with threatening and rainy weather will probably prevail very generally on Wednesday in the middle and eastern States, and brisk winds from the southeast and south west are probable for the coast. A local rain will probably extend over Minnesota and northern Wisconsin to-night.

- The danger of throwing rocks or shells in the streets is illustrated by the fact that a colored child, in the arms of a boy, was struck by a shell thrown by another boy, in Newbern, on Saturday evening last, from the effects of which it has since died. Boys should be very circful how they throw these daugerous missiles in the streets.

What He Said.

Not wishing to do injustice to a political opponent, whatever may be our opinion as to the propriety of his entering upon an active political canvass while holding an important and responsible office, we have seen our informant in regard to the exact words used by Sheriff Schenck on the occasion of his recent political harangue in Grant Township, to which reference was made in these columns and which called forth a denial from the Sheriff. He states that the speaker, referring to the Conservative party, called it the Democratic-Conservative-Ku-Klux party, and remarked that the members of said party were an artful and cunning set, who must be watched that they do not apply the torch in the night time, or words to that effect; leaving the impression that the Conservative party, as a party, was responsible for the Ku Klux outrages upon which the Republicans so delight John G. Bauman, corner Front and Market to harp, and that they, the colored people Streets, and intending to open there with an of Grant Township, were in danger of sufferentire new Stock of Goods, I now offer my | ing from the torch of incendiaries in the persons of their white Conservative neighbors.

R., a fine specimen of blue marl, together with a conch shell, found imbedded in the ground, and which were taken from the plantation of Mr. K. K. Council, of Bladen county, 34 miles from Wilmington, on the line of the above road. We learn that there are any quantity of shells of every description to be found in his land, where he is ditching.

They are consigned to Messrs. Sprunt & Himon and will be forward ed to their destination this morning. We learn from Mr. Renno that Governor Caldwell expressed his willingness to furnish another installment if found necessary.

#### Life Insurance and its Privileges.

It not being always thoroughly understood by parties who have taken out a policy of life insurance as to how far they may adventure their lives, we take pleasure in publishing here, for the benefit of our readers, the following remarks on policies in that favorite life company, the New York Equitable, in regard to militia duty, as taken from the New York Herald. It will be remembered that Major Matthew P. Taylor is the agent here of the Equitable, and all the information desired will be cheerfully furnished :

The Late Riot and Life Insurance Permits.— The recent disturbances in our city have given rise to a point connected with life assurance of great importance to our citizen soldiers. A of great importance to our enized solution. A statement has been made that, according to the terms of a policy as issued by a life assurance company to any members of our militia regiments, it is necessary to obtain a permit from the company before the bolder can act in his military capacity, so that his insurance may not be vitiated. The intertion of the Fire Department on a steam fire engine basis. This is a fine opportunity for different towns not all eady supplied, to get a rood fire engine basis. This is a fine opportunity for their duty with the Ninth regiment last Wed-nesday, have led us to inquire at the Equitable Life Assurance Society, in which Mr. Wyatt was insured. We ascertained that a permit to serve in a military capacity for the suppression of riots is by no means necessary; that if ask-ed for it is granted, but it is not made a re-quirement by this company. The circumstan-ces of Mr. Wyatt's death do not in any way in-terfere with the payment of his policy. This is a wise and liberal determination on the part of the Equitable Society. No vast moneyed corporation or large property holder in New York could be more interested in the main-tenance of law and order, and in this way this com pany is simply doing its part toward the protection of its own as well as the general in-terest.
